DO YOU KNOW THE POSSIBILITIES OF OUR TIME CARD?

Do you realize what annoyance you may save yourself during the cold winter mornings by a few minutes spent in studying it?

Do you know that you may prepare from it a little private time card to hang beside your telephone, that will save you many annoying experiences of "just missing a car?"

Residents of the suburbs have learned its uses. It can be found useful by every Duluthian who uses the cars regularly.

Let us illustrate. Let us suppose that you live at Fifteenth avenue East and take a Superior street car to your work in the vicinity of Third avenue West where you desire to arrive at about 8:30. Ask the car starter for one of our time cards; turn to page showing westbound West Duluth, Aerial Bridge, East End, Lakeside and Woodland cars at that time of morning (page 8). Under the column "Pass 3rd Ave. W." you find there are twelve cars passing Third avenue West from 8:19 to 8:39. By glancing at the columns to the left you find that three of these cars come from the Aerial Bridge. All the others come from Twenty-fourth avenue East, but the 8:25 car you will see is marked with a dagger, indicating that it runs on Sundays only.

This leaves eight cars which will pass your corner, which is nine blocks from Twenty-fourth avenue East. Through the residence districts the average speed of cars is about a half a minute to a block, which would make it 4½ minutes to your corner. If you eliminate the half minute and allow only four minutes to be on the safe side it will make the time of these cars passing your corner as follows, and they will pass Third avenue West just ten minutes later:

From Lester Park 8:09
From Lester Park 8:14
From St. Paul Ave. (Hunters Park) 8:16
From Lester Park 8:19
From 24th Ave. (from Lester Park on Sundays only)..... 8:23
From Lester Park 8:24
From Austin Street..... 8:26
From Lester Park 8:29

You may extend the arriving time at Third avenue West if you wish and this will give you a little "private time card" for your particular corner. You can then plan on the car you wish to take before leaving your house and if you keep your timepiece properly regulated and arrange to get to the corner at the proper time you will about forty-nine times out of fifty have the pleasure of seeing your car just approaching the corner.

This is about the height of the "morning rush" and at this hour you must expect the cars to be crowded. You can, however, depend on those which come from Lester Park or Austin street being more crowded than those which come from St. Paul avenue and you will find those that come from, Twenty-fourth avenue will have plenty of vacant seats even at this hour in the morning.

By consulting your timecard you will note that the car which passes your corner at 8:23 comes from Twenty-fourth avenue and if 8:33 will not be too late for you to reach Third avenue you should by all means select this car and we can guarantee you a seat in it. We would at the same time suggest that you avoid the car passing your corner at 8:26, as it comes from the extreme end of the Woodland avenue line and is one of the most crowded cars of the day.

Those who make regular trips on the cars will be surprised to find how much more they can add to their comfort and that of others by giving a little attention to these matters. The timecard may "look complicated," and as it shows all of the cars run and is for the guidance of our employes as well as for the convenience of patrons it must necessarily show much detail and it may not seem worth while to many in sections where cars are passing every few minutes to study it out, but we would be only too glad on application to supply any one with a simple little "private timecard" as above for any stopping place on our lines, and we will also be glad to suggest to patrons in what cars they can usually find seats and which cars to avoid at the rush hours on account of their being crowded.
