THEY HIT WHILE HITTING'S GOOD

New York Anti-Unionists Would Amul Labor Laws While They Have Legislative Power.

ALBANY, N. Y., April 14.—Trade unionists in this state are arranging for a state-wide conference to combat the political agents of reaction in the state legislature who would annul social legislation.

One bill introduced by Senator Knight would revive the payment of wages in company script, and invalidate the eight-hour day in building construction. Another section of the bill permits women to work at "wet grinding." The law now forbids women and males under 18 from operating any polishing or buffing wheel.

Statistics show that many workers are frequently injured and contract tuberculosis at "wet grinding," yet the Knight bill provides that "females more than 21 years of age may be employed in operating such wheels for wet grinding under conditions specified by the industrial board."

LUXURIES COST MORE THAN ALL EDUCATION

WASHINGTON, April 14.—When a penny is spent for education, dollars are expended for luxuries, according to P. P. Claxton, United States commissioner of education, who dispels the fiction that this country's educational system is costly.

"Despite the low salaries of teachers, and the meager and inadequate equipment of schools," says this educator, "many people believe the support of the public schools, elementary, secondary and higher, to be our chief burden. The truth is public education is not a burden. Its cost is almost negligible when compared with other expenditures."

It is shown that in 1918, the last year for which complete reports have been compiled, this country spent $919,729,258 for elementary and secondary public education, for normal schols and for the training of teachers and for higher education in colleges, universities and professional schools, whether supported by public taxation or privately endowed.

Against this expenditure of less than $1,000,000,000 in 1918 for education, Commissioner Claxton showed that according to 1920 reports the people spent for luxuries in that year $22,700,000,000, or more than 22 times as much as they spent for education only two years before, and $6,000,000,000, or 30 per cent more than the United States expended for education in its entire history.

The amount paid for chewing gum was two and one-half times the total expenditures for normal schools, and almost exactly the same as all state and city appropriations for higher education.

The $300,000,000 paid for furs is more than twice the total cost of all higher education, and the $350,000,000 paid for soft drinks is more than two and one-half times as much. It is more than the total value of college and university buildings, including dormitories, in 1918.

The cost of toilet soaps—$40,000,000—in 1920, and the salaries of elementary and secondary teachers in 1918, are almost exactly the same.

GOMPERS URGES AMNESTY FOR POLITICAL OFFENSES

WASHINGTON, April 14.—Amnesty for political offenses was urged by a delegation of trade unionists and other citizens, headed by President Gompers, who called on President Harding. The chief executive was presented with resolutions on this subject adopted by the last convention of the A. F. of L. Members of the delegation are hopeful that the release of war offenders who would not be charged with a crime for the same offense in peace times would soon be affected.

CURRENCY COMPTROLLER SAYS PRICES WILL RISE

WASHINGTON, April 14.—Prices have reached their low level and will now begin to rise, is the prediction of D. R. Crissinger, comptroller of the currency, in an interview in the local press.

"I believe we are just at the turning point," he said. "We will soon see goods moving more rapidly, and higher prices prevailing for many of the articles which are now selling so far out of line."

This statement is a contradiction to the claims of those who are urging wage reductions.
