MARYLAND LIFE

INSURANCE COMPANY.

THE success of Life Insurance in the United States proves this great, growing triumph of human science and philanthropy to be one of the marvelous features of our social economy.

The wisdom of all ages has devised nothing that compares with it. It is so manifestly good, that it is difficult to see how an intelligent man, with proper concern for the comfort and protection of his family, can fail to avail himself of its benefits.

Life Insurance leaves ready money to settle estates to advantage. It will prevent a sacrifice of property if a man die in debt. It is subject to no tax during life, nor Orphans' Court expenses after death. It is exempt by law from debt. It is rapidly becoming a rule that all men of just attributes insure.

Our Maryland Company commends itself to the confidence and patronage of our people in all parts of the State. Its directors are men of known integrity and ability, to whom the public may look with confidence for a just and careful supervision of its affairs. It must be clear to every intelligent mind that, if we would secure the largest prosperity to our State and people individually, we must build up our institutions and keep our capital at home.

Had the five million dollars sent out of the State annually for insurance been invested at home, it would have told favorably upon our own wealth and commerce. This is emphatically OUR COMPANY—gotten up by our BEST merchants to afford the opportunity for all to insure without sending the money out of our own State. The affairs of the Company are managed with economy.

Such has been our marked success that we were able after the second year to declare and pay in CASH as large dividends as the OLDEST and LARGEST company in the United States. The Company feel greatly encouraged by the patronage and co-operation they have received, and solicit a continuance of the same. The laws of trade, commercial self-respect and self-interest combine to make this the Company to use.

Now, dear sirs, in view of all the advantages of Life Insurance as an investment—the uncertainty of life—the strong claims of wife and children upon husband and father—the uncertainty of business, and all the ordinary forms of investment—is it not the moral duty of every man to put something in a form that will prevent want and distress, or trouble on the part of those he loves?

By all means insure, and do it at once in the Maryland Company. The officers of the Company are:

REDONDA GUANO.

THE CHEAPEST

AND MOST

SUCCESSFUL FERTILIZER

EVER INTRODUCED INTO THIS COUNTRY.

The *REDONDA GUANO* has now been used extensively for three years upon every description of crops and with the most unprecedented success.

"*REDONDA*" is a pure, natural Guano, entirely uniform in its character.

For *SPRING CROPS* it has not been surpassed.

On *TOBACCO*, while the plant did not grow off as rapidly as with Peruvian, it has matured with uniformity, and is much richer and heavier than from Peruvian alone, and the land is permanently benefited.

The *EXTREMELY LOW PRICE* at which it is sold is not the least important fact to the farmer.

Pamphlets containing testimonials from *FARMERS* and *PLANTERS* in Maryland, Virginia, South Carolina, Delaware, and New York, together with *REPORTS* and *ANALYSES* of the most eminent Chemists in the country, with full directions for its use, can be obtained at our warehouse or from our various agents.

Price $30 Per Ton.

Oakville, St. Mary's Co., Md., March 12, 1869.

"I used the 'Redonda Guano' alone on my corn crop last spring, upon bare spots of the field.

"I made a very satisfactory crop from it, and fully equal to any other in the neighborhood, where other fertilizers were used that cost from $50 to $60 per ton.

W O REEDER.

Mr H G S KEY, of Leonardtown St Mary's co., Md, writes us:

"The 'Redonda' was strewed by itself on oats and well marked by stakes for information.—The land is good and the whole crop of oats is very promising; that on which the Redonda was applied the growth of oats is about six or eight inches higher."

"Thus it is a good manure of *itself*; Dr. Stewart's formula prescribes some bones, and I think one third or even one-fourth bones will insure it as a valuable manure, and cheaper in comparison to any that I have ever tried."

Trappe, Talbot Co. Md., March 23, 1868.

"I used the 'REDONDA GUANO' last Spring on my Corn at the rate of about 150 lbs. to the Acre, applying it in the hill. The result has been most gratifying. I have never seen any Fertilizer act as quickly and as well as it has. I used it on my Wheat last fall with equally good results.

Yours truly,

G W MULLIKEN.

Weeland, Dinwiddie, Va., September 5, 1868.

"Gentlemen—I gave the REDONDA ISLAND GUANO a fair trial by itself, and combined with Peruvian, on my Tobacco this spring. I see no difference between its effects and the Peruvian where applied separately, but where applied together in the proportion of one of Peruvian to three of Redonda the growth is about 25 per cent. larger.

ANDREW COE'S

Super-Phosphate of Lime.

Extract of a letter from Wm. G. Gough.

Medley's Neck, St Mary's Co., Md., January 25, 1869.

Messrs. Herbert & Hairston, Baltimore, Md.

GENTLEMEN:—I used Andrew Coe's Super-Phosphate of Lime on my Corn crop last spring at the rate of 75 lbs. to the acre in the hill, and it affords me pleasure to state that the result was perfectly satisfactory. My corn looked green and healthy during the whole season, the ear was well filled and the yield large, and I conscientiously believe it to be the best fertilizer in use in this section. I shall want more for my corn and tobacco next spring.

Yours, respectfully,

WM G GOUGH.

Letter from G. A. Simms.

Leonardtown, St. Mary's Co., Md January 25th, 1869.

Messrs. Herbert & Hairston.

GENTLEMEN:—In reply to your inquiry of the effects of Andrew Coe's Phosphate, it gives me pleasure to say I used it on Irish Potatoes, along side of well rotted barnyard manure, and found the greatest difference in favor of the Phosphate. The Potatoes were as large again and a great many more in the hill. I also used it on my Corn and Tobacco with entire satisfaction. I used it on my fall Wheat and at present see no difference in that and Peruvian Guano and Bone. I regard it a valuable fertilizer.

Very respectfully,

G. A. SIMMS.

Mess. O. P. Merryman & Co.

Gentlemen.—The Raw Bone Phosphate I bought of you last Spring, I applied to Corn by the side of Peruvian Guano in equal quantities, and if there was a difference at all, it was in favor of the Phosphate. My Corn Crop was excellent. I applied it also upon Oats and Potatoes with the most satisfactory results. I prefer it decidedly to Peruvian Guano from the fact, that whilst the Guano spends itself upon the growing crop, the effects of the Phosphate can be strongly seen in the crops following.—Some that I applied to Potatoes by the side of Fish Manure, gave a splendid yield, the Fish turning out an abundant crop of Vines, the Phosphate not to perceive. I have used it this Fall upon my Wheat, and at this time it looks as well as I could desire.

Mess O P Merryman & Co.

Gentlemen—I applied the Raw Bone Phosphate I bought of you last Spring on my Corn, putting it in the hill, and it proved another expensive Fertilizer in the Market, and I could see no difference in it and any other manure. I also applied it to Potatoes with perfect success. It gave very uniform results, and I find it lasting equally well upon my Wheat this Fall. I found the most of it lodged in the Seed Bag, and at this time I have no doubt but the seeds are covered by the use of Peruvian or any of the expensive Guanos. Please every confidence in it. It is only in its first year to be appreciated.

Yours Respectfully,

JOHN E WILLIS.

Mess. O P Merryman & Co.

Gentlemen—In answer to your enquiry as to what I think of your Raw Bone Phosphate purchased in July last, allow me to say—I gave it a fair trial on cabbage by the side of Peruvian, other Fertilizers of no consequence, and found it equal if not better than the latter, and at less cost. I am well satisfied with it, and intend to use it the coming Spring.

THE above well known House has recently been opened by C. P. Barnard, formerly of the American Hotel, Washington, D. C., and has capacity to accommodate over a hundred people with lodging, and has capacious and nicely furnished rooms for families. Connected with the House also is a ladies' dining room. The strictest order is maintained and accommodating servants always at call. The House is open at all hours. The advantage of a Hotel upon the plan of the Sherwood House is, that the guest can accommodate the price of his living to his own wishes, paying only for what he gets. The Sherwood House has recently been newly furnished and refitted, and, being in a central and business part of the city, offers unusual inducements to travellers. A fair trial is asked, and patronage from St. Mary's county solicited.
