For Over Fifty Years,

An old and well-tried remedy, Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by druggists in every part of the world. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

ICE RAN UP HILL 10,000 YEARS AG

A scientific discovery of great interest to geologists, and of practical value to mining men has been made by Prof. Alwood of the University of Chicago, who, with a party of students, is spending the summer examining the formations in the Uinta mountains of Utah. It clears up the mystery often encountered of the presence of small pockets of gold-bearing ores far removed from the main ore body.

Prof. Alwood's discovery, in brief, is that the water sheds of the present period are not identical with the ice sheds of the glacial epoch, and that accordingly the great glacier of 10,000 years ago or so moved up hill with quite as much facility as it coasted down the canyons, carrying with it over the divides large bodies of debris scraped up in its path, which assisted in forming the moraines when the glacier melted.

Prof. Alwood's discovery was made in a rather peculiar manner. In the vicinity of Mount Watson, near the head waters of the Weber river, are abundant evidences in the shape of small lakes, moraines, etc., of the presence of the great glacier at an earlier period. One side of the mountain is bare rock, scraped clean by the moving body of ice. Upon this barren surface are the scratches and indentations of the rocks carried by the glacier in its course. While examining these grooves a few days ago Prof. Alwood was startled to discover that it was up hill instead of down. The force of this was transmitted to the observer by the great weight he felt along the path.

Excited by this peculiarity the professor called his companions and spent several hours tracing the striations up the mountain side, to the step confirmed the theory advanced by the instructor. Prof. Alwood finds the result of his discovery of scientific interest. He says of the peculiar correspondence of the glacial body, probably passed the divide, did not, as might be expected, break and melt, some but when the ice body reached the summit it was drawn up into the mountain side and over the other side of the divide. It moved, of course, in small quantities, portions of the original path becomes a part of the glacier which lowered a part of the ice melted.

The discovery may lead to a solution in the method of prospecting. The miner who finds a deposit of gold-bearing ore will hereafter be content with seeking the mother lode in the same canyon, but will look on the other side of the divide, to which the detached fragments have been drawn by the glacier. Geologists the discovery is of the greatest as shedding light on the movements of great ice bodies.

$35,000 TO BE DIVID

Among 1490 Persons Submitting the N est Estimates on the Next Congressional Vote in Utah, Idaho and Wyoming.

The Salt Lake Tribune has arranged for a friendly Congressional contest over the correct number of votes which will be polled in the Utah, Idaho and Wyoming on November 4th next, by acting as the divided into 100 prizes for the nearest estimates on the number of votes and in order to handle the matter systematically and avoid the possibility of any question being raised as to the business methods adopted we have asked an independent Bureau of Distribution, which will have entire charge of the business.

THE PLAN OF DISTRIBUTION IS VERY SIMPL

The Tribune has deposited with Wells, Fargo & Co. $25,000 as a pledge of good faith, which money will not be disturbed, or drawn against, until the November election, when it will be awarded to the nearest estimates by a special committee of unbiased citizens to be hereafter selected. The committee will determine the successful estimators, by comparing with returns from the Secretaries of the respective States—showing the exact number of all votes cast—the ORIGINAL ESTIMATES SUBMITTED BY OUR PATRONS, which coupons immediately upon receipt are locked away in our vault for future reference. In other words, we will submit entirely unbiased committee of citizens the entire distribution of the votes we have deposited. It must be borne in mind that all the awards are to be distributed on the COMBINED vote of Utah, Idaho and Wyoming, and that THE VOTES CAST are to be included—Republican, Democratic, Populist, etc. The awards are to be divided as follows:

To the one making the nearest correct estimate of the exact total of the votes ..... $
To the second nearest ..... $
To the third nearest ..... $
To the fourth nearest ..... $
To the fifth nearest ..... $
To the next five nearest ($500 each) ..... $
To the next ten nearest ($100 each) ..... $
To the next twenty nearest ($50 each) ..... $
To the next fifty nearest ($20 each) ..... $
To the next one hundred nearest ($10 each) ..... $
To the next three hundred nearest ($5 each) ..... $
To the next one thousand nearest ($2 each) ..... $

In all 1490 prizes, amounting to ..... $
And if any subscriber estimates the exact total vote, an EXTRAORDINARY DIVIDEND OF ..... $

Total ..... $
To Daily Tribune readers, 1000 ADDITIONAL ..... $

In all ..... $

WHAT WE WANT.

What we want is for our patrons to send in their estimate of what the vote will be for the three States. To the one who makes the NEAREST estimate of the TOTAL VOTE FOR CONGRESSMAN in Utah, Idaho and Wyoming there will be given a premium of $2000. To the one who submits the EXACT total vote there will be given an extraordinary additional prize of $500, or $2500 in all. That is to say if any one should estimate the total of the vote, each person will not only receive $500 for the extraordinary EXACT estimate of the total vote, or $2500 in all, and if such is shown by the receiving date to have been filed by a paid up subscriber to Sunday Tribune, $500 additional will be awarded; if prior to September 1st and if prior to October 25th, 1902. This scale of awards is reduced, unless the principal amount of CASH that may be earned will permit.

$12,500.

If there should be a tie in the estimate of two or more persons for the prizes the amount thereof will be equally divided.

The awards as announced by the select committee, together with the officers of the respective Secretaries of State, will be published in the Daily and Weekly Salt Lake Tribune and in The Inter-Mountain Farmer and Ranchman as soon as possible after the election.

In fact all successes will publish the complete returns, as there is no question about the thoroughness of our system of fairness.

ESTIMATES CAN ONLY BE GIVEN TO SUBSCRIBERS FREE IN ADVANCE WHEN THEY HAVE PAID THEIR SUBSCRIPTIONS IN ADVANCE, ESTIMATE BEING ALLOWED FREE FOR EACH DOLLAR PAID, ACCOUNT OF ADVANCE SUBSCRIPTIONS. NO ESTIMATES ARE ALLOWED ON PAYMENTS OF ARREARAGES.

IF SUBSCRIBERS DO NOT CARE TO EXTEND THEIR SUBSCRIPTION, HOWEVER, THEY ARE NOT BARRED FROM PARTICIPATING IN THE CONTEST, AS THEY MAY SUBMIT AS MANY STRAIGHT ESTIMATES AS THEY DESIRE BY ACCOMPANYING EACH ESTIMATE WITH 25 CENTS.

THESE STRAIGHT ESTIMATES ARE VERY POPULAR, AND MANY PERSONS WHO HAVE PREVIOUSLY SUBSCRIBED FOR ONE OF THE OTHER PRIZES OF THE TRIBUNE ARE TAKING ADVANTAGE OF THEM TO BECOME PARTIES TO THE GRAND DISTRIBUTION.

With a view to facilitating the work of estimators we quote below the aggregate previous votes for Congressmen in the three States involved:

In 1892 .....
In 1894 .....
In 1896 .....
In 1898 .....
In 1900 .....

THE PROBLEM FOR THE CONTESTANT TO DETERMINE IS: WILL THIS YEAR'S VOTE BE GREATER THAN THAT OF 1900 OR WILL IT BE A FALLING OFF?

IT IS FOR YOU TO DECIDE!

WE HAVE GIVEN YOU THE OPEN DOOR TO FORTUNE.

It is easier than striking gold or silver, as it requires only things at your collection.

THE FORMING OF CLUBS.

The club idea makes an easy investment. Any number of persons can club together and each purchase one or more FIFTY-CENT estimates and share the yearly earnings. One of these guesses is as liable as any other to be the nearest to the total vote and thus earn to the combine $2000 in gold, as if the club should have to be alone, the earnings would amount to $10,000.

If you cannot get from the paper the blanks you require for your club purposes they will be promptly furnished by us upon application.

We are also employed to answer promptly any and all questions upon the subject and especially invite interrogations.

Address all communications or estimates to

THE TRIBUNE DISTRIBUTION BUREAU,

P. O. Box 1298. Salt Lake City,
