Speaking of the Weather

February and March bring weather conditions very trying to most people.

Colds, coughs, sore throat, tonsilitis, catarrh, bronchitis, pneumonia, are all prevalent.

These are all catarrhal conditions. All dependent upon the same cause, climatic changes. Sloppy weather underfoot. High winds, chilling blasts, changing from day to day. Thermometer dancing a jig. Barometer following suit.

All of the acute catarrhal conditions above referred to, call for

PE-RU-NA

They call loudly, too. If Peruna is neglected these catarrhal conditions are liable to become chronic. One bottle of Peruna used at the right time will save months, even years, of suffering and sickness.

In the Matter of the Application of Henry Denker, to determine the Heirs of, and Heirship to the Estate of, David Buckwalter, Deceased. } NOTICE.

To all persons interested in the estate of David Buckwalter, deceased, late of Chester County, Pennsylvania, either as heirs, or as creditors thereof.

Notice is hereby given, that on the 19th day of January, 1916, Henry Denker of Dakota county, Nebraska, filed his petition in the county court of Dakota county, Nebraska, setting forth that on January 21st, 1884, David Buckwalter, of Chester county, Pennsylvania, died intestate, owning the following described real estate situated in said Dakota county, Nebraska, towit: The west half of the southwest quarter, and the west half of the east half of the southwest quarter, all in section eleven (11), township twenty-seven (27), range six (6), east; that he has become the owner of said real estate through a regular chain of conveyances from Eliza Buckwalter, widow, and Mary B. Buckwalter, single; Anna L. Buckwalter, single, and Etta B. Tristin, claiming to be, respectively, the widow, and daughters, and the sole heirs, of the said David Buckwalter, deceased; that no administration of the estate of the said David Buckwalter, deceased, has ever been had in the State of Nebraska, nor have proceedings of any kind been had in said state, to determine the heirs of the deceased or to establish their rights as such to his property, or to determine his death, or fix the date thereof, though more than two years has long since elapsed since the decedent's death. And said petition prays that all necessary proceedings be had to determine the death, and date of death of the said David Buckwalter, deceased, and to establish his heirs, and their rights by descent to his property, and find their degree of kinship, and to fix and determine the same by decree, as justice and right requires, and that notice of hearing, and the time and place thereof, be given, as required by law.

Hearing upon said petition has been set for, and will be held at the county court room of Dakota county, Nebraska, at Dakota City therein, on Febeuary 25th, 1916, at 10 o'clock, A. M., when any and all persons interested may appear and be heard in said matter.

The anniversary of the founding of the Boy Scout movement was celebrated by the local scouts on Tuesday evening. About sixty people gathered at the Scout Hall to witness the display. The program consisted of flag signalling, dumb-bell drill, gymnastics, first aid to the injured and other miscellaneous activities. The Scout Master outlined the plan for the "Community Good Turn" which was received with applause. The program was well received and many good things were said about the work the boys are doing. The prospect is better than ever as the second year starts with sixteen boys as against eight last year.

County Farm Notes

From now on I shall be on duty at the office and shall appreciate your assistance in making the work worth while.

During the month of February and while the roads are in such condition as to make a great deal of travel impossible I hope to devote the major part of the time to the farm management surveys as were conducted here last spring. These surveys and farm records will be a great aid to me in the study of the farm operations here and to determine where the profits and loses lie.

For this purpose a farm record book has been designed which is simple and can very easily be kept.

I have a number of these record books now on hand and shall be glad to furnish one to any one desiring to keep a record of his farm business. I shall also be glad to assist anyone in getting the year's record started. Many boys and girls would like to keep a record on their parent's farm and to them let me say that this office will be pleased to furnish them the same assistance. These books have cost a great deal in time and money and they will be furnished you entirely free; all that we ask is that you make a reasonable effort of a few minutes now and then to keep them up to date.

Drop me a card or call me by phone.

Sincerely,
A. H. BECKHOFF,
County Agr. Agent.

Good Program for Farmers' and Breeders' Meeting

The big guns of the farmers' world, men who have won fame as experts on the scientific management of farms, or who have been accorded equal renown in framing beneficial farm legislation, will be featured at the meeting of the Interstate Farmers' and Breeders' association at Sioux City on February 16th and 17th.

It is expected that 500 to 600 guests will be entertained at the meetings, which will be held at the Martin hotel and that these guests will represent the three states of Nebraska, South Dakota and Iowa. Secretary Joe Morton, who is directing the arrangements, has indicated that in addition to the business features of the big business session, an appealing social program will be carried out. Besides the farmers, the plans call for elaborate entertainment for wives of the association members, winding up with the complimentary banquet, at which W. L. Harding, lieutenant governor of Iowa, will be the speaker.

Andrew E. Lee, former governor of South Dakota, E. G. Dunn, Mason City, Ia., Hon. Frank J. Spillian, chief of the farm management bureau of the department of agriculture, Washington, D. C., E. E. Perisho, president of the South Dakota College, and H. C. McMillan will be some of the speakers at the gathering. Besides these men experts from the agricultural colleges of Iowa, Nenraska and South Dakota will discuss special phases of farm management and the improvement of animal breeds.

The session will be made practical in nature through demonstrations and special addresses on the handling of grain by officials of the Sioux City board of trade.

B. M. Stoddard, Sloan, Ia., will discuss a special topic bearing on the improvement of rural school work through consolidation.

SCHOOL NOTES.

[Submitted by Students.]

Though the weather has been cold the attendance at school has not been bad.

Miss Follett's room gave the best record for attendance the past month and spent the quarter holiday with her pupils sleighing.

The first grade pupils have taken up work in the Ward readers.

The birthdays, especially Lincoln's, occurring in February are the absorbing topics of conversation in the primary department. The busy work has this thought for its nucleus also.

Viola Fueston was absent from school last Friday on account of sickness.

Clark Anderson was absent from school Monday on account of sickness.

The hard work of the third and fourth grade room consists of making valentines and appropriate material for Lincoln's birthday.

The work in agriculture is proving exceedingly interesting to teacher and high school students. Many of the practical phases of agriculture and rural life will be developed during the course.

On account of the cold weather and the sickness of many of the children just recently the fire drill will not be conducted for the present time.

Already the boys are laying plans for the base ball season.

The debate with Homer seems at least to be a possibility. Several of the girls have volunteered to participate and have submitted a question on "prepardness" for Homer's consideration, Homer being permitted to choose the side if this question is used.

Helen Walden returned to school, Monday, after a month's absence.

The fifth grade took up the study of Asia, Monday.

The Willing Workers are planning to entertain their members at a valentine party at the Krumwiede home, Saturday.

The J. U. G. club will meet with Mrs. Clarence Linton Thursday evening.

Looking Backward.

Sioux City Journal, Feb. 4, 1896: Judge R. E. Evans opened court yesterday in Cuming county, at West Point., Neb. A few Sioux City attorneys went over on the morning train by way of Norfolk. ....Capt. Dick Talbot put a gang of men at work yesterday cutting the Capitola Butte out of the ice. The ice in the Missouri shows signs of breaking up. The continued warm weather has honeycombed the ice and the pontoon may yet have to come out....The Methodist church which was burned at Dakota City on Sunday afternoon, January 5, will be rebuilt. Already $2,500 has been subscribed, and a strong attempt is being made to swell the amount to $5,000. It is thought $1,250 can be secured from the church extension fund....The South Sioux City Traction company is laying track from the Nebraska end of the Pacific Short Line bridge. The track gang yesterday completed work up to the horse car track in Clay street, with which connection was made. If the weather continues pleasant the track will be laid at once to the depot of the Chicago, St. Paul, Minneapolis and Omaha Railway company.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Western Nebraska and Colorado Farm

are fast increasing in value. Their 1915 yield of from 25 to 45 bushels of wheat per acre will exceed the present price of similar and adjoining lands. Indications point to the greatest demand for these deeded Western lands that the West has yet seen. The incoming inquiries show already the movement to get hold of one of these farms before it is too late; if you can buy these lands at from $15 to $35 an acre you can make up your mind that they will be 50% higher in the near future. Dairymen are making money. The silo has revolutionized farming on these lands and insures a return value that has never been known. All farm improvements in adjacent lands bear testimony to their worth. Yuma County, Col., last year produced $1,275,000 worth of wheat, $600,000 worth of corn and $1 280,000 worth of stock. This was about the production of other counties where these lands lie in Western Nebraska and Eastern Colorado.
