WEEKLY STAR

Is the largest and best DOLLAR WEEKLY PAPER printed in the country.

It is the paper that meets the wants of the farm and the fireside more fully than any other, as will be seen by a careful examination of the following facts, and a comparison of the paper with any other of the city weeklies:

The STAR is handsomely printed on pure white paper from clear cut type, that makes it easily read, even by a poor light. *Its clear and open print is a joy to old or weak eyes.*

The STAR is free from political bias, and gives all the news with fairness and honesty, so as to enable its readers to form a correct judgment on whatever is passing; and it discusses questions without prejudice, but always in the interest of the producing classes.

It is in **no sense sectional or contracted** in its news or opinions, and can be read with the same real pleasure and interest from Texas to Maine, and from California to Delaware. Its stories are thrilling; its news **late, comprehensive,** and **correct;** its **market reports reliable;** and all its departments are fully up to the requirements of first-class journalism.

We give **no chromos, hand-books,** or **almanacs** with the STAR, believing that the greatest inducement we can offer is to make a **FIRST-CLASS NEWSPAPER,** putting the money which such things would cost to the **better use of improving the paper,** and leaving the chromo business in the hands of picture dealers, where it properly belongs.

We, however, fully appreciate the **energetic work** done by club agents, and reward them liberally, as will be seen by reference to our **"list of premium inducements to agents,"** which is sent on application. Agents' outfit free of charge. Get up a good club for the STAR.

JENKINS' ANNIHILATOR

THE GREAT SOUTHERN REMEDY

—FOR—

RHEUMATISM, GOUT & NEURALGIA.

THOSE TERRIBLE ENEMIES OF HUman happiness, Rheumatism, Gout and Neuralgia, heretofore seemingly unconquerable, have indeed found their master in JENKINS' ANNIHILATOR. We have the testimony of men of the highest standing in Louisiana and other States, that after suffering indescribable pains for years, from which they sought relief in vain by visiting the Hot and Warm Springs of Arkansas and Virginia, and by using dozens of remedies more or less highly praised, when, in fact, hope had almost died out, they have found relief from pain by the use of the ANNIHILATOR, and by continuing it for a short time, have been perfectly cured. The ANNIHILATOR is a preparation purely vegetable, agreeable to the taste, and may be taken without fear of any injurious results by the delicate as well as the robust in constitution.

☞ Price $1 00 per bottle. For sale by all Druggists. Ask your Druggist for circular containing certificates, or send to N. JENKINS & CO., Proprietors. New Orleans, La.

THE SUN.

THE SUN FOR 1879.

THE SUN WILL BE PRINTED every day during the year to come. Its purpose and method will be the same as in the past: to present all the news in a readable shape, and to tell the truth though the heavens fall. The SUN has been, is, and will continue to be independent of everybody and everything save the Truth and its own convictions of duty. That is the only policy which an honest newspaper need have. That is the policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American Journal. The SUN is the newspaper for the people. It is not for the rich man against the poor man, or for the poor man against the rich man, but it seeks to do equal justice to all interests in the community. It is not the organ of any person, class, sect or party. There need be no mystery about its loves and hates. It is for the honest man against the rogues every time. It is for the honest Democrat as against the dishonest Republican, and for the honest Republican as against the dishonest Democrat. It does not take its cue from the utterances of any politician or political organization. It gives its support unreservedly when men or measures are in agreement with the Constitution and with the principles upon which this Republic was founded for the people. Whenever the Constitution and constitutional principles are violated—as in the outrageous conspiracy of 1876, by which a man not elected was placed in the President's office, where he still remains—it speaks out for the right. That is the SUN'S idea of independence. In this respect there will be no change in its programme for 1879. The SUN has fairly earned the hearty hatred of rascals, frauds and humbugs of all sorts and sizes. It hopes to deserve that hatred not less in the year 1879, than in 1878, 1877, or any year gone by. The SUN will continue to shine on the wicked with unmitigated brightness. While the lessons of the past should be constantly kept before the people, the SUN does not propose to make itself in 1879 a magazine of ancient history. It is printed for the men and women of to-day, whose concern is chiefly with the affairs of to-day. It has both the disposition and the ability to afford its readers the promptest, fullest and most accurate intelligence of whatever in the wide world is worth attention. To this end the resources belonging to well-established prosperity will be liberally employed. The present disjointed condition of parties in this country, and the uncertainty of the future, lend an extraordinary significance to the events of the coming year. The discussions of the press, the debates and acts of Congress, and the movements of the leaders in every section of the Republic will have a direct bearing on the Presidential election of 1880—an event which must be regarded with the most anxious interest by every patriotic American, whatever his political ides or allegiance. —TO— these elements of interest may be added the probability that the Democrats will control both Houses of Congress, the increasing feebleness of the fraudulent Administration, and the spread and strengthening everywhere of a healthy abhorence of fraud in any form. To present with accuracy and clearness the exact situation in each of its varying phases, and to expound, according to its well known methods, the principles that should guide us through the labyrinth will be an important part of the SUN'S work for 1879. We have the means of making the SUN, as a political, a literary and a general newspaper, more entertaining and more USEFUL than ever before; and we mean to apply them freely.

OUR RATES

of subscription remain unchanged. For the Daily SUN, a four page sheet of twenty-eight columns, the price by mail, postpaid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight page sheet of fifty-six columns, the price is 65 cents a month or $7.70 a year, postage paid by us. The SUNDAY EDITION of the SUN is also furnished separately at $1.20 a year, postage paid by us. The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free.
