Northwest Guns.

650 Northwest guns, two-thirds of which must measure 36 inches in length of barrel, and one-third 42 inches, to be delivered in the city of New York or Philadelphia, as may be required.

Samples of all the above articles are deposited in the office of the Commissioner of Indian Affairs; and it may be proper to remark that those of hardware, agricultural implements, and northwest guns are entirely new, and of better quality than the articles heretofore furnished under former contracts.

The proposals may be divided into four parts, viz:
1st. Blankets.
2d. Dry goods.
3d. Hardware, to include agricultural implements, &c.
4th Northwest guns.

The lowest competent responsible bidder will receive the whole or any part of the contract according to the above scale, the department reserving to itself the right to determine whether the bidder is competent and responsible, or not.

The whole amount in money to be applied to the purchase of goods will be about $60,000, but the department reserves the right to increase or diminish the quantity of any of the articles named, or substitute others in lieu thereof, or to require, at similar prices, such goods as may be wanted for presents or other purposes, in the administration of the affairs of the department. Goods of American manufacture, all other things being equal, will be preferred; but as all the samples of blankets and cloths are of foreign manufacture, it will be necessary when a domestic article is bid for, that a sample of it should accompany the bid, to enable the department to decide whether it is of equal quality with the samples to be exhibited.

The party proposing to supply the articles will make an invoice of all the items embraced in the above list, and affix the prices, in dollars and cents, at which he or they will furnish them, deliverable in New York, (or if the contractor prefers it, about one half of the quantity may be delivered in St. Louis, Missouri, free of expense to the government,) on or before the 15th day of May next, assuming the quantity of each article as specified in this advertisement, and extending the cost, making an aggregate of the whole invoice constituting the bid. The goods will be inspected in New York (and in St. Louis, if any portion of them should be delivered there) by an agent of the United States, who will be appointed by the department for the purpose, and to ascertain the conformity of the articles purchased with the samples exhibited, when the contract shall be made, and with the terms of the contract itself, which shall contain a clause that if the articles are not furnished within the time prescribed, or if they are of insufficient quality in the opinion of the agent aforesaid, and if within five days after notice of such insufficiency the party shall not furnish others in lieu thereof of the required quality, the United States shall be authorized to purchase them of others, and to charge any increase of price they may be compelled to pay therefor, to the contractor, who shall pay the said difference to the United States.

Bonds will be required, in the amount of the bid, with two good sureties, the sufficiency of whom to be certified by a United States Judge or District Attorney, for the faithful performance of the contract. Payment will be made after the contract is completed and the delivery of the goods as aforesaid to an agent of the department, upon a duplicate invoice certified by him.

Communications to be marked "Proposals for Indian Goods."

The bids will be submitted with the following heading, and none will be received that are not made in the form and terms here prescribed:

"I (or we) propose to furnish for the service of the Indian Department the following goods, at the prices affixed to them respectively, viz:

(Here insert the list of goods.)

Deliverable in the city of New York (or St. Louis) on or before the —— day of —— next; and in case of the acceptance of his proposals, the quantity being prescribed by the department, I (or we) will execute a contract according to this agreement, and give satisfactory security to the department within ten days after the acceptance of this bid; and in case of failure to enter into such contract, and give such security, I (or we) will pay to the United States the difference between the sums bidden by me (or us) and the sum which the United States may be obliged to pay for the same articles."

Each and every bid must also be accompanied with a guaranty in the following form, to be signed by one or more responsible persons, whose sufficiency must be certified by some one who is known to the department, either personally or by his official position.

"I (or we) hereby guaranty that ——, the above bidder, will comply with the terms of the advertisement for 'Proposals for Indian goods,' dated 29th September, 1849, if the contract should be awarded to him, and enter into bond for the execution of the same within the time prescribed." CAUTION EXTRA.

A MAN by the name of RUEL CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a sarsaparilla, which they call Dr. Townsend's sarsaparilla, denominating it genuine, original, etc. This Townsend is no doctor, and never was, but was formerly a worker on railroads, canals, and the like; yet he assumes the title of doctor for the purpose of gaining credit for what he is not. He is sending out cards headed "tricks of quacks," in which he says, I have sold the use of my name for $7 a week. I will give S. P. Townsend $500 if he will produce one single solitary proof of this. This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGINAL OLD DR. JACOB TOWNSEND'S SARSAPARILLA, having on it the old doctor's likeness, his family coat of arms, and his signature across the coat of arms.

JACOB TOWNSEND,
Principal office, 102 Nassau street, New York city.

Old Doctor Townsend is now about seventy years of age, and has long been known as the author and discoverer of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market; and the sales circumscribed to those only who had proved its worth and known its value. It had reached the ears of many nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful healing power. This

Grand and unequalled preparation

is manufactured on the largest scale, and is called for throughout the length and breadth of the land.

Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the OLD DOCTOR'S SARSAPARILLA. The sarsaparilla root, it is well known to medical men, contains medicinal properties, and some properties which are inert or useless, and others which, if retained in preparing for use, produce fermentation and acid, which is injurious to the system. Some of the properties of sarsaparilla are so volatile that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which gives to it all its value. The

Genuine Old Doctor Townsend's Sarsaparilla

is so prepared, that all the inert properties of the sarsaparilla root are first removed, everything capable of becoming acid, or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIVER COMPLAINT, and in RHEUMATISM, SCROFULA and PILES, COSTIVENESS, all CUTANEOUS ERUPTIONS, PIMPLES, BLOTCHES, and all affections arising from

Impurity of the blood.

It possesses a marvellous efficacy in all complaints arising from indigestion; from acidity of the stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and cold hands, cold chills and hot flashes over the body. It has not had its equal in coughs and colds, and promotes easy expectoration and gentle perspiration, relaxing stricture of the lungs, throat, and every other part. But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

Female complaints.

It works wonders in cases of *fluor albus* or whites; falling of the womb; obstructed, suppressed, or painful menses; irregularity of the menstrual periods and the like; and is effectual in curing all forms of the kidney disease.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and cures all forms of

Nervous diseases and debility.

and thus prevents, or relieves a great variety of other diseases, as spinal irritation, neuralgia, St. Vitus's dance, swooning, epileptic fits, convulsions, &c.

It is not possible for this medicine to fail to do good; it has nothing in it which can ever harm; it can never sour or spoil; and, therefore, can never lose its curative properties. It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good digestion, relieves the bowels of torpor and constipation, allays inflammation, purifies the skin, equalizes the circulation of the blood, producing gentle warmth equally all over the body, and the insensible perspiration; relaxes all stictures and tightness, removes all obstructions, and invigorates the entire nervous system. In not this, then,

The medicine you pre-eminently need?

But can any of these things be said of S. P. Townsend's inferior article? This young man's liquid is not to be

Compared with the Old Doctor's,

because of the grand fact, that the one is incapable of deterioration and NEVER SPOILS, while the other DOES. It sours, ferments, and blows the bottles containing it into fragments; the sour, acid liquid, exploding and damaging other goods! Must not this horrible compound be poisonous to the system? What! put acid into a system already diseased with acid? What cause dyspepsia but acid? Do we not all know that when food sours in our stomachs, what mischief it produces—flatulence, heartburn, palpation of the heart, liver complaint, diarhœa, dysentery, cholic, and corruption of the blood? What is scrofula but an acid humor in the body? What produces all the humors which bring on eruptions of the skin, scald head, salt rheum, erysipelas, white swellings, fever sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours, and thus spoils all the fluids of the body more or less. What causes rheumatism but a sour acid fluid, which insinuates itself between the joints and elsewhere, irritating and inflaming the tender and delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature.

Now is it not horrible to make and sell, and infinitely worse to use this SOURING, FERMENTING, ACID COMPOUND OF S. P. TOWNSEND! And yet he would fain have it understood that old Jacob Townsend's

Genuine, original sarsaparilla,

is an IMITATION of his inferior preparation! Heaven forbid that we should do an article which would bear the most distant resemblance to S. P. TOWNSEND'S ARTICLE! and which should bring down upon the old doctor such a mountain-load of complaints and criminations from agents who have sold, and purchasers who have used S. P. Townsend's FERMENTING COMPOUND!

We wish it understood, because it is the *absolute truth*, that S. P. Townsend's article and old Doctor Jacob Townsend's sarsaparilla are heaven-wide apart, and infinitely dissimilar; that they are unlike in every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist, knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee can the public have that they are receiving a genuine, scientific medicine, containing all the properties of the articles used in preparing it, and which are incapable of changes, which might render them the agents of disease instead of health?

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom and vigor into the crushed and broken, and to banish infirmity, that old Doctor Jacob Townsend has sought and found the opportunity and means to bring his

Grand, universal, concentrated remedy,

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent power to heal!

and thus to have the unpurchasable satisfaction of having raised thousands and millions from the bed of sickness and despondency, to hope, health, and a long life of vigor and usefulness to themselves, their families, and friends.

BENNETT CLEMENTS,
Notary Public, Bounty Land, Pension, and General Agent, at Washington,

CONTINUES to prosecute claims for revolutionary services, invalid, revolutionary, half-pay, and widows' pensions, and all claims growing out of the war of 1812 and the late war with Mexico. His long service as a clerk in the Treasury Department, and more recent and extensive experience as general agent, enables him to act with promptness and efficiency on all claims committed to his care and management. His charges are uniformly moderate. It is expected that correspondents will pay postage.

Land, Pension, and General Agency.

WILLIAM H. MINNIX, late of the General Land Office, will prosecute claims of every kind against the government, before Congress or any of the departments. His experience in the different branches of the departments, especially those in relation to military bounty lands, will enable him to give full satisfaction to all who may require his services. The prompt issue of patents for lands sold or located by military warrants will be secured, and all necessary means taken to recover lost or dead-letter warrants. Claims for services in the revolutionary war, the war of 1812, and Mexican war, will receive special attention. He will also attend to the sale, renting, collection of rents, and payment of taxes on real estate owned in this city by non-residents and others.

Cholera—Treatment and Preventive.

DR. AMATI'S ITALIAN VEGETABLE PANACEA, TONIC AND APERIENT.—This remedy, composed entirely of vegetable ingredients, and totally free from any mineral substance, combining cathartic with cordial and strengthening powers, was originally discovered and prescribed by Dr. Amati, a celebrated physician, in most of the diseases of the abdominal regions—such as diarrhœa, dysentery, bilious complaints, dyspepsia, and all other disorders of the liver, &c.

Knowing from experience that it operates in the most kindly and effectual manner in these cases, it is submitted as a remedy to those who may be attacked by the prevailing fatal scourge, and as a preventive to all who may be so fortunate as to escape its first insidious symptoms.

To be had wholesale and retail at Carusi's Music Saloon, Pennsylvania avenue, between 11th and 12th streets, and at the principal drug stores in the city of Washington, Georgetown, and Alexandria. Pamphlets containing full directions for use, with many interesting certificates, accompany each bottle of the panacea. A very liberal discount to dealers. Orders from any part of the United States promptly attended to. All communications must be post-paid.

$150 REWARD.—Ran away from the subscriber near Luray, Page county, Virginia, on the 5th inst., a boy named Aaron. He is very black, 20 years of age, about 5 feet 8 or 9 inches high, has down look when spoken to, very thick lips, and heavy tongue. He had on when he left a domestic kersey frock-coat, faded black color, a broad brim white hat, and other clothing with him, not recollected. The above reward of $150 will be given should he be apprehended out of the State, and $100 if taken in the State, so that I may get him again. All reasonable charges will be paid if delivered to me at Luray.

Aaron left in company with a sprightly yellow-boy, red complexion, red hair, and spotted face; not so tall as Aaron, but heavier made. Both of the above boys are good coopers.
