The Second Exhibition of the Metropolitan Mechanics' Institute,

For the Promotion and Encouragement of Manufactures, Commerce, and the Mechanic and Useful Arts,

WILL be opened at the city of Washington on Thursday, the 8th day of February, 1855, in the new and splendid hall of the Smithsonian Institution, which is one of the most magnificent rooms in the United States.

To this exhibition the manufacturers, mechanics, artists, inventors, and all others desiring to display the results of their labor, skill, ingenuity, and taste, from all portions of the Union, are cordially invited to contribute.

The machinery department will be under the charge of a special superintendent. Steam power, fixtures, labor, &c., will be given free of expense.

All intending to exhibit are requested to give notice at as early a day as possible. Goods should be accompanied with a proper invoice.

The committee, therefore, feel that, in inviting contributions from all portions of the Union to the second exhibition of the Metropolitan Mechanics' Institute, they are offering to the producer of excellent articles a valuable opportunity of making known to the whole country their novelty and utility, the superior style of their workmanship, and their adaptation to the purposes for which they may be intended.

They would respectfully solicit from the LADIES those specimens of elegant handiwork which heretofore have formed so attractive and important a feature of these displays. It is proposed to submit all such contributions to a committee of ladies, and to award to articles of merit premiums of jewelry, &c., suited to the tastes of the fair exhibitors.

The hall will be opened for the reception of goods on Monday, the 29th day of January; and on the evening of Thursday, the 8th of February, at 7 o'clock, the exhibition will be formally opened for the reception of visitors, and continue open about four weeks.

No article deposited after Saturday night, 3d of February, can be entered upon the judges' lists for competition or premium, except such as the committee shall be satisfied were despatched from a distance in time to have reached the hall by that day, but failed to arrive from unavoidable detention.

Articles designed for exhibition only will be received, free of charge, until Tuesday night, 6th of February, at 10 o'clock; after which time, depositors will be subject to a charge of from 50 cents to $1 for each article deposited.

Apprentices and minors who contribute articles of their own make or invention shall specify their age and the time they may have served at their business.

All articles deposited for competition and premium must be of American manufacture, conspicuously labelled with appropriate names; the name of the maker and inventor, (if known,) and the name of the depositor; a copy of which label must be furnished the clerk at the time of bringing the goods for entry on the record. Prices may be affixed, or not, at the option of the exhibitor.

Depositors, at the time of entry, will receive a ticket of title to their goods, which ticket will also admit them to the exhibition at all times when open to the public.

N. B.—Goods should be addressed as follows: "*Exhibition of the Metropolitan Mechanics' Institute, Washington, D. C.,*" and should have the nature of the articles, and the name of the party sending them, distinctly marked on the packages. They should also be accompanied by a detailed invoice.

Circulars containing detailed instructions will be forwarded, and any information given, on application to the corresponding secretary, to whom all communications on the business of the Institute should be addressed.

And by the act approved 27th March, 1854, entitled "An act for the relief of settlers on lands reserved for railroad purposes," persons who settled and improved the above lands prior to the date of *withdrawal* will be entitled to pre-emptions at the ordinary minimum price of the public lands or at the rate of one dollar and twenty five cents per acre, if proven up and paid for before the day fixed for the public sale. OFFICE SUPERINTENDENT OF THE PUBLIC PRINTING,
Washington, September 30, 1854.

IN pursuance of the "Act to provide for executing the public printing," &c., approved August 26, 1852, sealed proposals will be received at this office, in the Capitol, until the first Monday (4th day) of December next, at twelve o'clock, m., for furnishing the paper that may be required for the public printing for the year commencing on the 1st day of December, 1854, and ending on the 1st day of December, 1855.

The subjoined list specifies, as nearly as can be ascertained, the quantity, and the quality and description, of each kind of paper that will be required.

The fibre of the paper of each of the above classes to be of linen and cotton, free from all adulteration with mineral or other substances, of a fair whiteness, and put up in quires of twenty-four sheets each, and in bundles of two reams each, each ream to contain 480 perfect sheets. Uniformity in color, thickness, and weight will be required; and no bundle varying over or under five per cent. from the standard weight will be received, and the gross weight will in all cases be required. Mixing of various thicknesses in the same bundle to make up the weight will be considered a violation of the contract.

Samples indicating the quality, &c., of the paper required in the foregoing three classes can be obtained at the office of the Superintendent, or will be furnished by mail to persons intending to bid.

Contracts will be entered into for supplying the quantities required in the first, second, and third classes, at such times as the public service may require; but the privilege is reserved of ordering *greater* quantity on either class, should a greater quantity be required, at such times and in such quantities as may be deemed necessary.

The right is reserved of ordering a greater or less quantity of each and every kind contracted for, at such times and in such quantities as the public service may require.

Each class will be considered separately, and be subject to a separate contract; but bidders may offer for one or more of the classes in the same proposal; and the privilege is reserved of requiring a bidder who may have more than one class assigned him to take all such classes, or forfeit his right to any class.

Samples (not less than one quire) of each kind of paper bid for, *and but one sample for each kind*, must accompany each bid; and, in class 4, be numbered to correspond with the number of the paper proposed for in that schedule, and, in the first three classes, to be properly designated on the sample, or it will not be considered.

And all proposals and samples must be transmitted to this office free of postage or other expense.

Each proposal must be signed by the individual or firm making it, and must specify the price per pound, and the consequent price per ream, (and but one price for each,) of every kind of paper contained in the class proposed for.

Blank forms for proposals will be furnished at this office to persons applying for them; and none will be taken into consideration unless substantially agreeing therewith.

Bonds, with approved securities, will be required; and the supplying of an inferior article in any of the classes, or a failure to supply the quantity required at any time, will be considered a violation of the contract.

Each bidder is required to furnish with his proposals satisfactory evidence of his ability to execute it; and any proposal unaccompanied with such evidence will be rejected.

The proposals will be opened in the manner required by law "on the first Tuesday after the first Monday in December" next, (5th,) at 10 o'clock, a. m., at the office of the Superintendent.

Proposals will be addressed to the "Superintendent of the Public Printing, Capitol of the United States, Washington," and endorsed "Proposals for supplying Paper."

American Artists' Union.

THE American Artists' Union would respectfully announce to the citizens of the United States and the Canadas, that, for the purpose of cultivating a taste for the fine arts throughout the country, and with a view of enabling every family to become possessed of a gallery of engravings

BY THE FIRST ARTISTS OF THE AGE,

they have determined, in order to create an extensive sale for their engravings, and thus not only give employment to a large number of artists and others, but inspire among our countrymen a taste for works of art, to present to the purchasers of their engravings, when 250,000 of which are sold,

250,000 gifts of the actual cost of $150,000.

Each purchaser of a one-dollar engraving, therefore, receives not only an engraving richly worth the money, but also a ticket which entitles him to one of the gifts when they are distributed.

For five dollars a highly finished engraving, beautifully painted in oil, and five gift tickets will be sent; or five dollars' worth of splendid engravings can be selected from the catalogue and sent by return mail or express.

A copy of the catalogue, together with a specimen of one of the engravings, can be seen at the office of this paper.

For each dollar sent an engraving actually worth that sum and a gift ticket will immediately be forwarded.

AGENTS.

The committee, believing that the success of this great national undertaking will be materially promoted by the energy and enterprise of intelligent and persevering agents, have resolved to treat with such on the most liberal terms.

ANY person wishing to become an agent by sending (postpaid) $1 will receive, by return of mail, a one-dollar engraving, a gift ticket, a prospectus, a catalogue, and all other necessary information.

On the final completion of the sale the gifts will be placed in the hands of a committee of the purchasers to be distributed; due notice of which will be given throughout the United States and the Canadas.
