DEMOCRATIC PRINCIPLES
and Measures.

A strict construction of the Constitution, and no assumption of doubtful powers.

A Diplomacy, asking for nothing but what is clearly right and submitting to nothing wrong.

No connexion between the government and banks.

An *ad valorem* revenue tariff.

No public debt, either by the General Government or by the States, except for objects of urgent necessity.

No assumption by the General Government of the debts of the States, either directly or indirectly, by a distribution of the proceeds of the public lands.

No extensive system of Internal Improvement by the General Government, or by the States.

A constitutional barrier against improvident State loans.

The honest payment of our debts and the sacred preservation of the public faith.

A gradual return from a paper credit system.

No grants of exclusive charters and privileges by special legislation, to banks.

No swindling corporations.

No connexion between Church and State.

A preference for democrats over whigs for every office.

Acquiescence in the rule of the majority in all cases of party discipline.

No proscription for honest opinions.

Fostering aid to public education.

The Great Popular Medicine
of the day---Vast amount used per month---The numerous and Wonderful Cures it effects---Its Magical Effect upon Bilious Fevers, and Fever and Ague---Great Excitement among the Doctors!

THE INDIAN QUEEN VEGETABLE SUGAR COATED PILLS are now admitted, on all hands, to be the most extraordinary and valuable medicine in general use. It not only acts as a specific upon Bilious and Typhus Fevers, Chills and Fever and Ague of the west and south, but in all diseases of debility, weak stomach, indigestion, loss of appetite, impurity of the blood, and all diseases prevalent in a western and southern climate. Their great power consists in their positive effect upon all the organs of the system, and the rapid generation of new and rich blood, which they produce. In this acts the great secret of their success. They are mild and pleasant in their operation, but searching and permanent in their effects; penetrating the remotest recesses of the system by their ready assimilation with the blood, thereby infusing a new supply of vitality to every fever ridden, pale and languid liver and life. The extensive popularity they have acquired all over the west and south, ensures sales at least

50,000 Boxes per Month.

And we find it difficult, with our large force of hands, and the late improvements in machinery which we have adopted, to manufacture them fast enough to supply the demand in thirteen western and southern States. Our large manufactories are constantly engaged in preparing the various concentrated extracts of which they are compounded. From the best information we can obtain from our 8,000 selling agents, and hosts of intentive correspondents in all parts of the country, our medicine cures, per month, not less than 10,000 cases of Fever and Ague, one thousand of which have resisted all other treatment;

4,500 cases of Bilious Fever;
5,000 do of weakness and general debility;
2,500 do of various chronic diseases;
2,000 do of weak stomach and loss of appetite;
800 do of Dyspepsia;
1,200 do of Rheumatism;
1,000 do of Female complaints;
1,200 do of Acute Liver, or Enlarged Spleen;
1,500 do of Liver complaint;
500 do of Simple Fever;
400 do of Typhus Fever;
300 do of Pulmonary Consumption.

This must appear almost incredible, till the numerous letters from physicians, agents, and those who use the medicine, from all the western and southern States, which we have on file, can be examined, and the number of such testimonials regularly taking the place of the various *sugar-coated counterfeits* which are offered, and the numerous *toxic* mixtures, made wholly or genuine, which are imposed upon the public by manufacturers who like, *nobody knows why!*

Dr. Bragg's Compound Sugar Coated Indian Queen Vegetable Pills are of two kinds—the Cathartic and Tonic. The Tonic pills are peculiarly adapted to the quick and permanent cure of Fever and Ague, torpor of the Liver, and general debility. It is in Fever and Ague, Chill Fever, &c., that they achieve their greatest triumphs. It rarely requires more than twelve Boxes to cure them but if a box of the tonic pills, to break the chills and effect a permanent cure—which is rarely the case with the numerous mixtures of quinine, hawk et about the country by ignorant pretenders. Those who take the tonic pills will never take them.

Who can wonder, when the unique nature of such extensive popularity, and extraordinary virtues should cause

Great Excitement among the Doctors!

The profession of physicians generally, their case are at last giving way to the force of events, and the conviction of every day experience which they derive from their patients and friends who use them.

Doctors are now almost every day sending orders from every part of the country for a supply of these pills to use in their practice.

Here is one all the way from the State of Mississippi, just received. Let the doctors and others look to it, and hasten to procure a supply of this wonderful Tonic:

BEECH GROVE, TUNICA CO., MISS., 7
July 19th, 1847. }

To Dr. Bragg, St. Louis, Missouri:

Dear Sir—I have to inform you that I have used all our Tonic Pill, and therefore pray that you send me another supply immediately, as there is no Doctor here and I am with in the latitude of my practice, and I hardly know how to satisfy and cure my patients without them.

I have thoroughly tested your Tonic Pills in my practice through this country, not only in chills and fever, but in real *typhoid fever*, and have met with such success from them, that I now find myself a great loser to get along without them. I consider them a great blessing to the people of the west and south, and I am satisfied that they are important in the cure of more diseases than you recommend them for.

Don't fail to forward me a supply by mail, as quickly as possible, directed as above. Very respectfully, yours,

JAMES HODGES, M. D.

To all whom it may concern

Dr. M'Lane's Liver Pills.

MESSRS. J. KIDD & Co.—This is to certify that my wife has been afflicted for several years, with the following pains at periods more or less—Pain in the right side, about the edge of the ribs, extending to the right shoulder; pain in the back part of the head, and above the right eye, accompanied by weakness, loss of appetite, and almost constantly costive. I have had her take Anderson's and other Liver Pills, and "M'Lane's Liver Pills," and I have now to state, that by the use of these Pills, she has been benefitted in an ordinary degree. Under the Providence of God she now enjoys good health, and is now able to attend to the domestic concerns of my family. JAMES STEWART.

Still Later from Kentucky.
DR. M'LANE'S VERMIFUGE!

PARIS, KY., March 7, 1847.

MESSRS. J. KIDD & Co.—*Gents*—In the month of July last, Mr. E. Merryweather, of Cincinnati, applied to me agent for this place, for selling Dr. M'Lane's highly approved Medicines, and the motive that prompts me, an entire stranger, to write this letter to your house, is to inform you, that the high character in this town and country, generally, have given the *Vermifuge of Dr. M'Lane a fair trial in their families*, and pronounce it to be, *without a doubt, the very best Worm Medicine* ever offered to those afflicted with worms.

The high estimation in which the Vermifuge is held in this community has induced me to place here a further supply on your Agent, and you will find it one greatly in demand, by return mail, your cash price for the Vermifuge by the gross.

Very respectfully yours, J. C. SNYDER.

Prepared for the Proprietor, and sold wholesale and retail by J. KIDD & Co., No. 60, Wood street, Pittsburgh, Pa.

KELSEY'S ALTERNATING RECEIVER.
Patented May 9, 1847.

Entirely New Principle in the Management of Bees.

Simple, Useful, Cheap and Durable.

THESE Hives, the only ones of real value and utility to farmers and others engaged in the culture of Bees, now before the public, are constructed upon natural principles, and combine the following advantages: The Bees are easily hived in them—it never becomes necessary to kill off the swarms, honey can at all times be taken away when it can be spared by the owners, or can be added to the swarm—manner of late swarming—comp swarms can be taken away at the proper periods and put into other hives where they go to work without the trouble of a warming or hiving, while the parent swarms are never disturbed. The swarms are entirely protected from robbery by neighboring swarms, and from moth and worms; they can be handled with perfect safety, and slow breeding and breeding in new honey comb, are kept entirely healthy, and young swarms are always with developed

The eggs or embryo of the Bee Moth or Miller, cannot hatch or mature around these Hives, and therefore the Bees are entirely protected from the ravages of that destructive enemy, while the operating principle is such that the Bees are kept industrious the whole season through, by always having plenty of room to work in. Old honey comb cannot accumulate, nor will the Bees "run out" or "die off" in these hives. They have been fully tested by actual use, under the direction of the inventor, and all the swarms and their increase, are now and will remain as good as new young swarms.

Ample directions accompany each Hive, giving full instructions for the management of Bees, which are so simple that any person, with ordinary capacity and attention, cannot fail to be successful in their management and culture.

They are sold very cheap, and all farmers or other persons, who keep bees, or wish to enter into that profitable culture, will find these Hives all that can be desired, and are invited to call at the American Institute, and S. Mitchell's, 34 Bank street, N. Y. City; L. Freeman's, North Bergen, N. J.; Bedell's Temperance House, Syracuse, N. Y.; Young's, Geneva, N. Y.; W. Sayles's, Waterloo, N. Y.; R. Purdy's Brighton, Ohio; R. Truesdell, Elgin, Ill., and Col. Taylor's, Galveston, Texas, where they may be found and examined.

Applications for exclusive rights to use or sell, send them in any part of the Union, apply to WILLIAM R. KELSEY, Palmer, Syracuse, N. Y., or to Albert Kelsey, Hudson and Agent, Palmer House, Indianapolis. 26 3w

BEE HIVES.—Mr. Albert Kelsey, who is stopping at the Gale House, commends to the public one of the best models of a bee hive that we have ever seen, various as these contrivances are. It all rids positive and complete protection from the ravages of the moth or miller, and is so arranged as to admit of a free circulation of air through it at all times. The honey can, at any time, be removed from the hive without disturbing the bees, or more can be added for the accommodation of the swarm if necessary, while the bees are kept healthy by means of air in comb, all the time. The hive contains several other valuable improvements, we are not aware of, enough is detail, but which are readily appreciated on inspection. We refer to the advertisement in another column.—*Cincinnati Daily Times.*

KELSEY'S ALTERNATING BEE HIVE.—Mr. Albert Kelsey, son of the patentee, has been for several weeks in this city, for the purpose of introducing the valuable invention to apiarians. Judge Sims, Thomas Collins, Esq. and several other gentlemen of this city and vicinity have purchased these hives, and pronounced them superior to any hereto fore introduced here; and we have abundant evidence that they have in all cases been pronounced by the patentee. We have been shown a hive in which a swarm has been at work about two weeks, and they have apparently nearly filled one tier with honey. It is arranged as to afford a complete protection from the bee moth or miller, and to admit a free circulation of air through it at all times. The honey can, at any time, be removed from the hive without disturbing the bees, or more can be added for the accommodation of the swarm if necessary, while the bees are kept healthy by being in new comb all the time. It is Mr. Kelsey's intention to visit Indiana, Ohio and Illinois, and from the satisfaction he has shown we gave here, we have no doubt it a fair trial be given, they will prove to be a source of profit and convenience to the bee culturists of central Indiana.—*Sentinel Ben.*

INDIANAPOLIS STEAM FACTORY.

THE subscribers having leased for a term of years the building well known by the name of the Old Steam Mill, situated in front of White River bridge, Indianapolis, which they have fitted up for a Woollen Factory, where they propose manufacturing woollen goods of various kinds. All those who wish to get their wool spun into yarn, or manufactured into cloth or woollen goods of any kind, can be accommodated on good terms by giving them a call. They would also inform the public that they have three sets of carding machines for carding wools, they being a new and good order. Therefore they will warrant satisfaction to all who may favor them with their work. Persons living at a distance, by calling at this factory, can have their wool carded without delay, by giving a few hours' notice. They will also be prepared to full and finish cloths of any kind or color, in good style. They will keep on hand woollen goods of their own manufacture, such as Cloths, Satinetts, Tweeds, Jeans, Blankets, plain and plaid Flannels; all of which they will exchange for Wool or good Country Produce of any kind. They will give the highest market price for wool and produce, and sell goods of their manufacture as low as any goods of the same quality can be bought for in Indianapolis. All those who may have full blood Saxony and Merino wool to card or manufacture, can have it done in good order at this factory, as they have machinery expressly for such wool. Good wood and produce of all kinds will be taken in exchange for work.
