DEMOCRATIC MEETING:

Monday Evening, Feb. 14.

The Democrats and Conservatives of Bedford county are requested to meet in the Court House, on Monday evening of Court week, (Feb. 14).

The extravagance, fraud and trickery of the party in power, both National and State, demand a prompt rebuke from every good citizen.

Let there be a good turn out! Rally for Justice and the Right!

Able speakers will address the meeting.

E. F. KERR,

DEMOCRATIC COUNTY COMMITTEE.—The Democratic county committee will meet at the "Gazette Office," in Bedford, on Monday, February 14th, 1870, at 3 o'clock, P. M. Every member of the committee is expected to be present as business of great importance relating to the rules and government of the party are to be discussed and submitted to a county convention.

COURT.—The indications are that the regular term of court next week will be a slim affair. The criminal list is exceedingly small—for which the taxpayers can be thankful—while the civil list does not show a large amount of business. So mote it always be.

NOTICE.—All persons knowing themselves indebted to me either by note or book account are requested to call and settle soon, as I need money, and money I must have. TOO POOR TO TAKE A NEWSPAPER.—The poorest man to be met with, especially in these stirring times, is the man who is too poor to take a newspaper. We pity such a man, especially if he is a man of property. Who ever heard of a man too poor to smoke or chew tobacco, if addicted to either habit? And yet men who spend from fifteen to twenty-five cents a day for "the weed" are too poor to take a newspaper, in the intellectual enjoyment of which their families might participate. Really such men are poor. They are objects of pity.

ANOTHER LECTURE.—The fourth of a series of temperance lectures was delivered in the court house, on Monday evening last, by the Rev. R. F. Wilson. As usual the house was crowded to overflowing. The lecture was pronounced an able effort by all who were fortunate enough to hear it. Bedford must have popular lecturers, or the subject of temperance must be eliciting more than ordinary interest, for we never knew a series of public meetings in this place that drew such houses.

GROUND HOG DAY.—Last Wednesday the 2nd inst., was "ground hog day," and, as the day was bright and clear, that prophetic animal no doubt saw his shadow, if he emerged from his hiding place at all. According to the old notion we are to have cold wintry weather for six weeks from that time. Since the 2nd the weather has been as fair as was ever seen in this latitude in winter, but at the present writing—Tuesday morning—we have a three foot snow, and still falling The "ground hog sign" will not be a failure, after all, we think.

"Cleansing the Blood," upon which charlatans have harped so much, is not a mere catch-word and delusion.—The microscope shows that some diseases exist like parasitic growths upon the globules of the blood, and it is further known that some subtle substances destroy or expel them. These substances have been combined to make Ayer's Sarsaparilla, which does effectually expel the disorders that breed and rankle in the blood to rot out as it were the machinery of life.—Mercer (Pa.) *Whig.*

"PUFFERS" AT PUBLIC SALES.—In Chester county, Judge Butler recently gave a decision settling the question of bidders or "puffers" at public sales. A suit was brought to recover $1,645 on a note given as the purchase money of real estate. A gentleman who had purchased property at the public sale and given his note for the money, learned afterwards that there were present at the time bidders or "puffers," and he refused to take the property. The Judge decided that if a party procure men to bid up property, and the person who buys is deceived thereby, he cannot be held to his bid, as it vitiates the sale and makes it void.

A PARTING WORD.—We have grown tired of printing duns in this shape. Our friends in arrears are proof against all such missiles. We have, therefore, concluded to try a different plan, of which due notice is hereby given. We are now sending to each delinquent subscriber a statement of his account, with the proposition that if it be paid by Feb. 19, 1870, a certain deduction will be made. If not paid by that time, *full rates will be charged, payment enforced by law, and the paper discontinued in all cases of more than one year's arrearage.* Upwards of *ten thousand dollars* of unpaid subscriptions and advertising have accumulated on our books during the last five years. This is a load we cannot carry any longer. Will our friends assist us in lightening it, or must we summon to our aid that vexatious and detestable instrumentality, *The Law?*

LITERARY.—the following practical and interesting questions were lately discussed by "The Independent Debating Society of Boyer's School," in an adjoining county:—

"*Resolved*: That a cross and cleanly woman is preferable to a dirty and good natured woman."

"*Resolved*: That a preacher eats more chickens than a fox."

Well, that will do. That "debating society" should be turned into a Sorosis at once. Fortune telling with "coffee grounds" should be practiced.—Chicken bone breaking, for luck, should be indulged in. Broomstick gymnastics, in company with a "dirty but good natured woman" should be exercised liberally. Lectures, *a la* Mrs. Caudle, should be delivered by 'a cross and cleanly' female, with strong minded proclivities. Anything to keep up the fun, boys.

COURT BUSINESS.—In examining the records of the Prothonotary's office, we find 405 cases on the Continuance Docket for February Term, 1870. This has kept the new Prothonotary busy at his post. But while that officer has been kept moving, the Sheriff has not been idle, for we find that 124 executions have been placed in his hands since he took charge of that office. This is the largest amount of business done in either office—with a few exceptions as to the Sheriff—for twenty six years, for at the August Term, 1843, the Continuance Docket reached 532, while the number of writs executed by Sheriff McVicker was 200. The amount of business done in the Prothonotary's office is a sure barometer of the financial atmosphere, and as monetary matters are exceedingly depressing and with no flattering indications of improvement for some time to come, we may reasonably look for more entries on the Dockets, more executions by the Sheriff, and more pecuniary distress generally. Surely the present is a sad commentary on the "good times" which were promised to the people on the advent to power of the present radical regime. We are afraid they will fail to see it in that light.

PUNISHMENT IN SCHOOLS.—Two deaths, one at Chicago and the other in New York State, have resulted lately from whippings in school, and suits have been instituted against teachers in various parts of the country for severely flogging children under their charge. It seems that the "spare the rod and spoil the child" doctrine, which originated a long time ago, is still pertinaciously adhered to in this enlightened age and country, notwithstanding it has been shown that children in schools, at least can be more advantageously managed by means of other than corporal punishment.—Whatever argument may be urged in favor of Solomon's doctrine, it should be practised, if practiced at all, by the parents of the offending juvenile. Few men or women are willing to have their children beaten by strangers, however they may delight in beating them themselves. It might be shown, we think, that flogging children at all has a brutalizing tendency and engenders in the youthful heart far more of evil passion than it expels. It is generally inflicted in anger, or from a revengeful feeling, and evil must beget evil. There may be instances in which corporal punishment is necessary and beneficial, but in most cases other punishments might be substituted with advantage to all concerned. There can be no question that excessive flogging is brutal, as well as brutalizing, and ought not to be tolerated even when administered by a parent: certainly not when done by a stranger.

Corporal punishment has long been entirely banished from the public schools of Philadelphia which are among the best and best governed in the world, and we see no reason why it should not be banished from the schools of all other cities and school districts. Human nature is about the same everywhere, and what answers so well in Philadelphia would answer equally well in other parts of the world. It is far better to stimulate than mortify the proper pride of a child, and better to win than to alienate its affections. If one be found perfectly incorrigible under proper treatment, it is not likely that it could be reformed by means of physical torture. The best way to dispose of such children is to banish them from the schools.

HYMENEAL.—Our friend 'Jenkins,' who was there, gives the following description of the wedding party at Bloody Run, last week. Hear him:

"Bloody Run was the scene, last evening, of one of the most brilliant weddings known to our community. The occasion was the marriage of D. S. Elliott, Esq., editor of the 'Bedford County Press,' to Miss Rebecca Harris, daughter of Josiah Harris, Esq., all of Bloody Run. The parties were married at the 'Barndollar' M. E. church, at 7 o'clock, P. M., by Rev. G. W. Van Fossen, assisted by Rev. Wm. M. Deatrick. The church was densely crowded long before the hour fixed for the ceremony, and at precisely 7 o'clock the bride and groom, attended by Miss Anna Barndollar, of Woodbury, bridesmaid, and Dr. F. M. Masters, of Bloody Run, groomsman, appeared before the altar. We could not do justice to the elegant appearance of the bridal party at the altar, and as we are too much of an old bachelor to venture into a description of dress, we will content ourselves by saying that every article of dress was of the most approved, nostly and elegant style. After the ceremony the party returned to the residence of the bride's father, where they received the congratulations of some two hundred invited guests, and then repaired to the dining hall, where a supper, such only as a skillful caterer could prepare, was spread before us. Everything that the Eastern markets could afford was abundantly served, to which we did ample justice. When supper was disposed of, the party returned to the parlors, and were entertained with vocal and instrumental music; quite a number, however, preferred "tripping the light fantastic toe" and repaired to the spacious dancing hall, where the Bloody Run String Band was in attendance discoursing some of their finest music. We are informed that our terpsichorean friends lingered in the giddy maze until the 'wee sma' hours' warned them to desist; for ourselves we cannot say, as we do not dance. Refreshments were served at 12 o'clock, in the dining hall, and a more richly arranged table it has never been our pleasure to feast our eyes upon. We had almost forgot to say that the 'Harris Building' was brilliantly illuminated during the entire evening. Altogether, this was the most brilliant wedding party we have ever attended or known in our vicinity. Mr. and Mrs. Harris spared nothing to add to the comfort and enjoyment of their guests, and few indeed know so well how to entertain. Our genial friend Stewart, who has so gracefully slided into matrimony, will be missed from our bachelor list but he will accept our kindest wishes for his future happiness. JENKINS."

OIL NEWS—We are indebted to O. E. Shannon, Esq., for a copy of the East Brady *Independent*, from which we clip the following items which will interest many of our readers, and especially those of our citizens who have invested in the "Stump Islands" and other oil companies in that section:

The Parker Oil Field.—The "Island King" well commenced pumping 300 barrels salt water about 1st December. After bursting several seed bags, a light one was made finally, and she pumped a solid stream of salt water to for several days, when the oil began color the water. As the water diminished the oil increased. She is now pumping by actual measurement 150 barrels per day and certainly not more than one-third water,—so that she is yielding fully 100 barrels of oil per day, probably more.

The Engine house of the "Island Queen" burned down on Friday last. The high water having stopped the pumping, the well flowed through the casing in the night, and the throttle leaking let the oil under the grate bars and engine floor, when Mr. Dower undertook to kindle the fire in the morning after the water had subsided, the whole thing went up in a flash.—Fortunately Mr. D. was not injured, and the loss is small, as Messrs. Galey and Dower were just about to put up a new engine above ordinary freshets.—The Island Queen is a 30 barrel well owned by John Galey and P. Dower.

The Island King is owned by Galey and Hartley.

The Stump Island Oil Co. are preparing to sink three wells on the upper Island, and two on the lower Island.

The Hartley well, No. 5, on the Hartley and Shannon tract, is yielding 50 barrels. This well is the first below the Emlen. The Miama on the Hartley tract No. 3 is being drilled through the third sand. She was tested when drilled only a few feet in the third sand, but yielding only about 8 barrels, Col. Woodward is now having her sunk deeper.

No. 1 and No. 4, on Hartley and Shannon tract, will soon be down, and No. 2 at the mouth of Hartley Run will soon commence drilling. Also two wells on Cottage Lot, belonging to Hartley and Shannon, will soon be under way. John Lambing lessee.

The Stump Island wells, at the mouth of the Clarion River, had stopped pumping for 24 hours in consequence of the flood, but flowed all the time. The cribbing on the Island is progressing and the wells will soon be out of reach of high water. The upper one of these wells is now the "King" well of the "Landing."

The above was "set up" last week, but was crowded out. We gather additional items this week from the Clarion *Democrat*, as follows:

The mild weather of the last ten days, has stimulated developments in this oil Eldorado materially. In fact, every available piece of ground, large enough for the erection of a derrick, on the river front, from above the fowler tract to bear creek, (nearly 4 miles,) is taken up and being operated.

The hill territory is also being rapidly developed, and bids fair to out-strip the River flats. The developments in and about Lawrenceburg, shows conclusively that it is equal to, if not more desirable than the River front.

There is a grand rush now for leases on the table lands of the Robison and Fox farms. The big well gotten on the bluff territory of the Robison farm, opposite the mouth of the Clarion, has caused a big excitement, and consequently a great scramble for leases on the farms above mentioned, and I have no doubt, but it will prove excellent territory. The well is said to be pumping 75bbls per day.

From Parker up to Foxton there is a continual line of derricks—wells producing, and wells going rapidly down. By spring there will be double the production there. Viewing Parker from the East side of the Allegheny, it really looks like business, and may justly claim to be king of Oildom. A new well was struck back of Parker yesterday, (I did not learn the exact locality), and is reported at 75 bbls. This will again increase the excitement on the hill. Leases are being taken up.

AYER'S SARSAPARILLA,
FOR PURIFYING THE BLOOD.
The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.
Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.
Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.
