THE AMERICAN TELEPHONE CO.

Its Venezuelan Concessions Shown to be Full and Exclusive.

THE OFFICERS AND DIRECTORS.

Able and Energetic Men at the Head of the Business.

CONVINCING LEGAL OPINIONS.

The announcement of the American Telephone Company that it is now ready to resume its business that was discontinued some time since because of the attack made upon it by parties desirous of forcing it to break up because it was, among other things, to do a telephone business, has awakened new interest in this company, and THE CRITIC, which is ever ready to commend any home enterprise when it is fully satisfied that it is justified in so doing, has sought out the facts, and from the evidence before it is convinced that the company is entitled to the fullest confidence. That it has successfully passed through such a severe criticism without one shadow upon any part of its work demonstrates the honor of its purpose and management and the ability of its officers.

The representative of THE CRITIC called at the office of the company, 1420 F street northwest, and was assured that it was true that the company was now ready and intended to resume its business at once, or rather had resumed its business. That an examination of its charter and franchises so far obtained was invited, and would be shown to any person desirous of seeing them, and especially the representatives of the press.

The officers of the company for the present fiscal year are—

President—S. Q. Mingle of Williamsport, Pa.

Vice President—C. B. Sprague of Glens Falls, N. Y.

Secretary—Charles A. Maxwell of Washington, D. C.

Treasurer—S. D. Newcomb of Washington, D. C.

Directors are—

S. Q. Mingle, Williamsport, Pa.
J. S. Tomb, Jersey Shore, Pa.
J. E. Highly, Philadelphia, Pa.
C. B. Sprague, Glens Falls, N. Y.
L. G. McDonald, Glens Falls, N. Y.
C. A. Maxwell, Washington, D. C.
J. H. McGowan, Washington, D. C.
J. R. Imbrie, Washington, D. C.
W. H. McDonald, Washington, D. C.
Alfred Lockhart, Washington, D. C.
S. D. Newcomb, Washington, D. C.

These are men of excellent standing, and are able, energetic, determined business men who know the value of their privileges and franchises and understand how to conduct them. The treasurer is required to give a bond for $100,000 as a guaranty of his faithfulness.

It was stated that the company had determined to sell a limited amount of stock at 20 per cent. of par value for construction purposes, and would push the work of building the exchanges with all the dispatch possible consistent with economic management. It is expected to put up three thousand telephones the first year. The company's Caracas manager reports that fifteen hundred subscribers are already secured, and are anxiously waiting for the instruments to be set up. The earnings of all telephones are to be paid into the dividend fund, after deducting the cost of maintenance, and paid out only for dividend purposes. All construction account is to be conducted from the proceeds of the stock. This purpose is to secure to the stockholders early dividends, and gives them the direct benefit of the earnings upon the money they paid in.

The concession and title papers of the company were exhibited, and as they have been examined and pronounced upon by the most eminent of lawyers, Dr. S. Ferrero Atelnza of Caracas and the Hon. Jefferson Chandler of Washington, THE CRITIC will only say that they appear to the business mind as complete in all respects, and cannot fail to prove of great value if properly handled. The legal opinions above referred to are given in full below and speak for themselves.

The Venezuelan Government is the first to give the American Telephone Company a concession. Others have promised to do so, and papers are expected as soon as the company will be able to set the work in motion. Concessions for other branches of its business have been assured and will be set at work as rapidly as the business can be organized. It is an agreeable task to THE CRITIC to be able to report the full justification of the American Telephone Company and its officers, past and present, and the determination with which they have met the great difficulties that presented themselves, promises more than mere success to their work.

OPINION OF DR. S. FERRERO ATIENZA.

It is my opinion that, according to the concession made by the Government of Venezuela to Aquilino Orta on the 20th day of April, 1887, for the establishment of telephones in the Republic, which concession was transferred to Mr. Caudelario Padron on the 2d ultimo, and transferred by the latter this day to the American Telephone Company, the said company has a perfect right to establish the telephone business in all the cities of the Venezuelan Union; That in case of the existence of any claim on the part of the Inter-Continental Telephone Company, such claim can in nowise affect the aforesaid American Telephone Company, since that company is acting in virtue of a contract concluded with the National Government and vested with all the constitutional formalities; and, finally, that, from the letter of said contract, in the eighth article, it is apparent that that company is the only one that has a right to establish the telephone business in Venezuela.

S. FERRERO ATIENZA,
Counsellor-at-Law.

Caracas, August 6, 1887.

OPINION OF THE HON. JEFFERSON CHANDLER.

To the American Telephone Company.

GENTLEMEN: It is my opinion, after careful examination of the contract made between the Government of Venezuela and Aquilino Orta, that said contract is valid, and that by its terms there is conveyed to, and vested in, the said Aquilino Orta the right, privileges and franchise to set up, maintain and operate telephone lines, exchanges and connections throughout the territory of the Government of Venezuela, and that said contract was, and is, assignable, and has been duly and legally assigned to the American Telephone Company of Washington, District of Columbia, and that said company now owns said grant, and has a perfect right to operate and enjoy the same; and further that the Government of Venezuela has bound itself not to make similar grants, or concessions to any other persons or companies in the future during the life of said contract or rights therein conferred, nor in any manner to impair the same; that said grants and franchises now held and owned by said American Telephone Company, are by the terms of said grant, to continue and abide for the period of nine (9) years from the date of signing the same; the Government of Venezuela reserving the right to extend the contract for a term of three years longer. JEFFERSON CHANDLER,
Counsellor-at-Law.

Canteens at Army Posts.

EDITOR CRITIC: In the army of the United States to-day there are many various changes required which would be of benefit to the soldier. Among the most important is the following:

The establishment of the canteen at every post in the Union is already favored and recommended by Adjutant-General Richard C. Drum. The business is conducted by a non-commissioned officer, in the English service, who is paid a certain fixed salary for his work. Supervision of the whole is intrusted to a council of officers, who meet monthly to take stock, verify accounts, inspect stores and fix prices so as to cover waste and charges and yield a profit, which goes to the equipment of the reading and recreation room, improvement of the mess, and the provision of all appliances for the outdoor amusement and occupation of the enlisted men, and is managed in the interest of the soldier instead of the sutler.

Taking into consideration the fortunes that are generally made on the frontier particularly, and always to private, to say nothing of political interests, it would be something indeed to divert all this to the benefit of the army proper, where it rightfully belongs, instead of the pockets of eager speculators or waiters upon official benevolence. J. McD.
