The number or quantity which will be required of each of the foregoing articles cannot be precisely stated. It will not be less, however, than the quantity specified in the foregoing list. The contracts will, therefore, be made for the quantity of each article so specified, and for such further quantity as the bureau may require. *The price must be uniform at all the stations.*

All the above articles must be subject to such inspection at the place of delivery as the chief of this bureau may direct; and no article will be received that is not fully equal to the sample in every respect, and which does not conform to the stipulations and provisions of the contract to be made.

The whole must be delivered at the risk and expense of the contractor. Each box and bale to be marked with the contractor's name. The inspecting officers to be appointed by the Navy Department.

The offers must distinguish the prices for each article mentioned in a class, and must be calculated to cover every expense attending the fulfilment of the contract, including the necessary buttons.

In case of failure on the part of the contractors to deliver the several articles which may be ordered from them, *in proper time and of proper quality*, the chief of the Bureau of Provisions and Clothing shall be authorized to purchase or direct purchases to be made of what may be required to supply the deficiency, under the penalty to be expressed in the contract, the requisition, or a duplicate copy thereof, at the Bureau of Provisions and Clothing, or at either of the navy-yards aforesaid, shall be evidence that such requisition has been made and received.

Two or more approved sureties, in a sum equal to the estimated amount of the respective contracts, will be required, and twenty per centum will be withheld from the amount of all payments on account thereof as collateral security, and not in any event to be paid until it is in all respects complied with; eighty per centum of the amount of all deliveries made will be paid by the navy agent within thirty days after tripicate bills, duly authenticated, shall have been presented to him.

Bidders whose proposals shall be accepted (and none others) will be furthwith notified, and as early as practicable a contract will be transmitted to them for execution, which contract must be returned to this bureau within five days, exclusive of the time required for the regular transmission of the mail.

A record, or duplicate of the letter informing a bidder of the acceptance of his proposal, will be deemed a notification thereof within the meaning of the act of 1846, and his bid will be made and accepted in conformity with this understanding.

Every offer made must be accompanied (as directed in the act of Congress making appropriations for the naval service for 1846-'47, approved 10th August, 1846) by a written guarantee, signed by one or more responsible persons, to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within five days, with good and sufficient sureties, to furnish the supplies proposed. The bureau will not be obligated to consider any proposal unless accompanied by the guarantee required by law; the competency of the guarantee to be certified by the navy agent, district attorney, or the collector of the customs.

Blank forms of proposals may be obtained on application to the navy agents at Portsmouth, New Hampshire; Boston, New York, Philadelphia, Baltimore, Washington, Norfolk, Pensacola, and at this bureau.

The attention of bidders is called to the samples and description of articles required, as, in the inspection before reception, a just but rigid comparison will be made between the articles offered and the samples and contract, receiving none that fall below them; and their attention is also particularly directed to the joint resolution of March 27, 1854, in addition to the act of the 10th August, 1846.

For the particular works and materials reference is made to the specifications and plans.

As upon a portion of the line the titles are not yet acquired by the United States, there may be some delay in commencing the work thereon; but for such unavoidable delays due allowance will be made in the time of completion.

Portions only of some of the works can be completed under the present appropriation; but all contracts for unfinished work will be subject to future appropriations by Congress. The engineer reserves the right to prescribe the amount of work to be done and rate of progress under each contract for each appropriation; and in case of the appropriation not holding out sufficiently, to decide when and what works shall be stopped until funds become available.

In case of the entire stoppage of any particular work for want of funds, the reserved ten per cent. will be paid, if, in the judgment of the engineer, the work has been properly executed so far as it has gone.

Payments will be made in specie checks upon the United States treasury upon the monthly estimates of the engineer, reserving 10 per cent.; and it will be a condition of all contracts that the workmen shall be paid their full wages monthly, and in specie.

All bids should be sealed, and endorsed "Proposals for work or materials on the Washington Aqueduct."

The United States reserves the right to reject any or all the bids should they not be deemed advantageous, and to make such arrangements as may be considered most conducive to the progress of the work.

Every offer must be accompanied by a written guarantee, signed by one or more responsible persons, to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation, within ten days, with good and sufficient securities, for the completion of the work undertaken; said guarantee to be accompanied by the certificate of the United States district judge, United States district attorney, navy agent, or some officer of the general government or individual known to the Engineer or Department of War, that the guarantors are able to make good their guarantee.

Bids will be opened in presence of bidders, if any of them choose to be present.

M. C. MEIGS,
Capt. of Engineers, in charge.
