Washington Aqueduct.

OFFICE OF THE WASHINGTON AQUEDUCT,
Washington, March 5, 1857.

PROPOSALS are invited for materials and work for the Washington aqueduct.

Proposals received up to 7th May will be opened at noon of that day.

Maps, profiles, and specifications of the materials and work to be let will be ready for examination at this office on and after the 20th April next.

The work to be let will embrace masonry of some of the bridges, graduation, excavation, and embankment of reservoirs, iron pipes connected with the reservoirs, 12-inch iron main, gate houses, bricks, sand, rubble, and cut stone, &c.

For the particular works and materials reference is made to the specifications and plans.

As upon a portion of the line the titles are not yet acquired by the United States, there may be some delay in commencing the work thereon; but for such unavoidable delays due allowance will be made in the time of completion.

Portions only of some of the works can be completed under the present appropriation; but all contracts for unfinished work will be subject to future appropriations by Congress. The engineer reserves the right to prescribe the amount of work to be done and rate of progress under each contract for each appropriation; and in case of the appropriation not holding out sufficiently, to decide when and what works shall be stopped until funds become available.

In case of the entire stoppage of any particular work for want of funds, the reserved ten per cent. will be paid, if, in the judgment of the engineer, the work has been properly executed so far as it has gone.

Payments will be made in specie checks upon the United States treasury upon the monthly estimates of the engineer, reserving 10 per cent.; and it will be a condition of all contracts that the workmen shall be paid their full wages monthly, and in specie.

All bids should be sealed, and endorsed "Proposals for work or materials on the Washington Aqueduct."

The United States reserves the right to reject any or all the bids should they not be deemed advantageous, and to make such arrangements as may be considered most conducive to the progress of the work.

Every offer must be accompanied by a written guarantee, signed by one or more responsible persons, to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation, within ten days, with good and sufficient securities, for the completion of the work undertaken; said guarantee to be accompanied by the certificate of the United States district judge, United States district attorney, navy agent, or some officer of the general government or individual known to the Engineer or Department of War, that the guarantors are able to make good their guarantee.

Bids will be opened in presence of bidders, if any of them choose to be present.

M. C. MEIGS,
Capt. of Engineers, in charge.

FORM OF GUARANTEE.

To Capt. M. C. Meigs, U. S. Engineers.

We, the undersigned, residents of ——, in the State of ——, hereby, jointly and severally, covenant with the United States, and guaranty, in case the foregoing bid of —— be accepted, that he or they will, within ten days after the acceptance of the said bid, execute the contract for the same, with good and sufficient sureties to perform or furnish the articles proposed in conformity to the terms of the advertisement under which it was made. And in case the said —— shall fail to enter into contract as aforesaid, we guaranty to make good the difference between the offer by the said —— and the next lowest bidder.

(Signed) A. B.
C. D.

I hereby certify that, to the best of my knowledge and belief, the above-named guarantors are good and sufficient.
