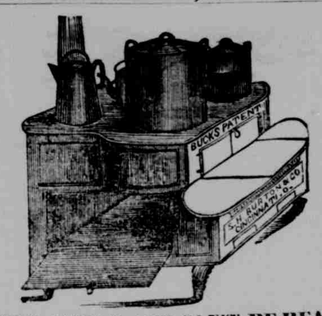
STOVES, &c.



STILL AHEAD AND CAN'T BE BEAT!

BUCK'S PATENT COOKING STOVE.

THIS celebrated Cooking Stove has now been before the public seven years, and is still without a successful competitor, although all varieties of *combination* have been tried. At the late fairs in the cities of New York and Albany, the first premium was awarded to it, although all the new Stoves of the day were in competition. Its facilities for performing all the operations of cooking are unsurpassed. The oven is nearly double the size of the ordinary Cooking Stoves in use, and is heated with the most perfect uniformity, by which bread, without being turned, will bake on all sides as perfectly as can be done in a brick oven.

For the operation of this Stove we respectfully refer to the following persons who have them in use:

COMBINATION STOVE.

JUST received a further supply of these celebrated and unrivalled Cook Stoves. This Stove patented in the city of Troy, N. Y., 1846, was introduced into the city of Cincinnati early last spring, since which time 1000 have been sold there alone. Persons who have been using other patent cook stoves for the last seven years, and have seen the Combination Stove, most all agree that this stove has a larger oven for the size of the stove, will bake better, and throw out more heat than any stove ever yet invented. The plates are warranted for one year or more. We think it unnecessary to parade a long string of names here the public, but can refer to some of the best families in this city who are using this stove, and all prefer them to any other. We have three of the best Tinners in the West, who understand stove trimming perfectly, and our work will give satisfaction. There are three different sizes of these stoves, for which we have the exclusive agency of the manufacturer.
