THE Above Periodicals are re-printed in New York, immediately on the arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—Blackwood's Magazine being an exact *facsimile* of the Edinburgh edition.

They embrace the views of the three great parties in England—Tory, Whig, and Radical. Blackwood and the London Quarterly, are Tory; the Edinburgh Review, Whig; and the Westminster Review, Radical. The North British Review is more of a religious character, having been originally edited by Dr. Chalmers, and now, since his death, being conducted by his son-in-law, Dr. Hanna, associated with Sir David Brewster. Its character is of the very highest order.

COMBINATION STOVE.

JUST received a further supply of these celebrated and unrivalled Cook Stoves. This Stove patented in the city of Troy, N. Y., 1846, was introduced into the city of Cincinnati early last Spring, since which time 1000 have been sold there alone. Persons who have been using other patent cook stoves for the last seven years, and have seen the Combination Stove, must all agree that this stove has a larger oven for the size of the stove, will bake better, and throw out more heat than any stove ever yet invented. The plates are warranted for one year or more. We think it unnecessary to parade a long string of names before the public, but can refer to some of the best families in this city who are using this stove, and all prefer them to any other. We have three of the best Tinners in the West, who have constantly been turning out perfectly, and our work will give satisfaction. There are three different sizes of these stoves, for which we have the exclusive agency of the manufacturer.
