MARYLAND LIFE
INSURANCE COMPANY.

THE progress of Life Insurance in the United States proves this great crowning triumph of modern science and philanthropy to be one of the marvelous features of our social economy.

The wisdom of all ages has devised nothing that compares with it. It is so manifestly good, that it is difficult to see how an intelligent man, with proper concern for the comfort and protection of his family, can fail to avail himself of its benefits.

Life Insurance leaves ready money to settle estates to advantage. It will prevent a sacrifice of property if a man die in debt. It is subject to no tax during life, nor Orphans' Court expenses after death. It is exempt by law from debt. It is rapidly becoming a rule that all men of just attributes insure.

Our Maryland Company commends itself to the confidence and patronage of our people in all parts of the State. Its directors are men of known integrity and ability, to whom the public may look with confidence for a just and careful supervision of its affairs. It must be clear to every intelligent mind that, if we would secure the largest prosperity to our State and people individually, we must build up our institutions and keep our capital at home.

Had the five million dollars sent out of the State annually for insurance been invested at home, it would have told favorably upon our own wealth and commerce. This is emphatically OUR COMPANY—gotten up by our own merchants to afford the opportunity for all to insure without sending the money out of our own State. The affairs of the Company are managed with economy.

Such has been our marked success that we were able after the second year to declare and pay in CASH as large dividends as the OLDEST AND LARGEST company in the United States. The Company feel greatly encouraged by the patronage and co-operation they have received, and solicit a continuance of the same. The laws of trade, commerce, self-respect and self-interest combine to make this the Company for us.

Now, dear sirs, in view of all the advantages of Life Insurance as an investment—the uncertainty of life—the strong claims of wife and children upon husband and father—the uncertainty of business, and all the ordinary forms of investment—is it not the moral duty of every man to put something in a form that will prevent want and distress, or trouble on the part of those he loves?

By all means Insure, and do it at once in the Maryland Company. The officers of this Company are:

GEO P THOMAS, President.
A K FORD, Secretary.

HARPER'S
NEW MONTHLY MAGAZINE,

Critical Notices of the Press.

The most popular Monthly in the world | New York Observer.

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with good wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S Guide of American Literature, London.

We can account for its success only by the simple fact that it meets precisely the popular taste, furnishing a variety of pleasing and instructive reading for all.—Zion's Herald, Boston.
