TO WHEAT GROWERS!

"EXCELSIOR."

Containing Ammonia,	6 *per cent.*
Super Phosphate equivalent to	
Bone Phosphate of Lime,	57 "
Potash and Soda;	5 "

We again call the attention of the farmers of Maryland and Virginia to our EXCELSIOR, composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of Soluble Phosphate of Lime (60s disolved in sulphuric acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano and the ever durable fertilizing properties of Ground Bones.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of many observing Farmers, after HEAVEN years experience in handling it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer, or guano offered for sale, thereby making it fully 100 to 200 per cent cheaper.

☞ *The very best evidence we can offer of the value of the Excelsior as a crop grower and fertilizer, is the fact of its being cultivated and counterfeited in this and other cities.*

☞ Farmers should see that the ANALYSIS and name of J. J. TURNER & CO., are branded on every bag *in RED LETTERS.* All others are counterfeits.

Price $70 per Ton.

J. J. TURNER & CO.,
42 Pratt Street, Baltimore, Md.

J. J. TURNER & CO.'S

Ammoniated Bone Super-Phosphate.

ANALYSIS:

Ammonia,	2.82
Soluble Phosphate of Lime,	2.31
Bone Phosphate of Lime,	19.67

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other fertilizer sold, except our "Excelsior," and is made with same care and supervision—uniform quality guaranteed. Fine and dry, in excellent order for drilling. Packed in bags and barrels.

☞ PRICE $55 PER TON.

J. J. TURNER & CO.

DISSOLVED BONES.

(Super-Phosphate.)

Of own manufacture, containing 37 per cent. of Soluble Phosphate of Lime. Superior to worn out and impoverished soils. This Phosphate is in the most concentrated form. Applied alone or mixed with Peruvian or other Ammoniacal Guano, it enriches the soil with the chief elements of fertility, replenishing exhausted land for the production of farmer crops. In fine dry powder for sowing or drilling in with Grain.

☞ PRICE $56 PER TON.

Sherwood House

AND

LIVING ROOMS,

ON THE EUROPEAN PLAN,

Corner of Fayette and Harrison streets

(opposite the Maryland Institute)

Baltimore,

MD.

THE above well known House has recently been opened by C. P. Barnard, formerly of the American Hotel, Washington, D. C., and has capacity to accommodate over a hundred people with lodging and has capacious and nicely furnished rooms for families. Connected with the House is a Living room. The strictest order is maintained and accommodating servants always at call. The House is open at all hours. The advantage of a Hotel upon the plan of the Sherwood House is, that the guest can accommodate the price of his living to his own wishes, paying only for what he gets. The Sherwood House has recently been newly furnished and refitted, and, being in a central and business part of the city, offers unusual inducements to travellers. A fair trial is asked, and patronage from St. Mary's county solicited.

C. P. BARNARD,
