MARYLAND LIFE

INSURANCE COMPANY.

THE progress of Life Insurance in the United States proves this great growing triumph of modern science and philanthropy to be one of the marvelous features of our social economy.

The wisdom of all ages has devised nothing that compares with it. It is so manifestly good, that it is difficult to see how an intelligent man, with proper concern for the comfort and protection of his family, can fail to avail himself of its benefits.

Life Insurance leaves ready money to settle estates to advantage. It will prevent a sacrifice of property if a mat die le debt. It is subject to no tax during life, nor Orphans' Court expenses after death. It is exempt by law from debt. It is rapidly becoming a rule that all men of just attributes insure.

Our Maryland Company commends itself to the confidence and patronage of our people in all parts of the State. Its directors are men of known integrity and ability, to whom the public may look with confidence for a just and careful supervision of its affairs. It must be clear to every intelligent mind that, if we would secure the largest prosperity to our State and people individualle, we must build up our institutions and keep our capital at home.

Had the five million dollars sent out of the State annually for insurance been invested at home, it would have told favorably upon our own wealth and commerce. This is emphatically OUR COMPANY—gotten up by our best merchants to afford the opportunity for all to insure without sending the money out of our own State. The affairs of the Company so managed with economy.

Such has been our marked success that we were able after the second year to declare and pay in cash as large dividends as the oldest and LARGEST company in the United States. The Company feel greatly encouraged by the patronage and co-operation they have received, and solicit a continuance of the same. The laws of trade, commerce, self respect and self-interest combine to make this the Company for us.

Now, dear sirs, in view of all the advantages of Life Insurance as an investment—the uncertainty of life—the strong claims of wife and children upon husband and father—the uncertainty of business, and all the ordinary forms of investment—is it not the moral duty of every man to put something in a form that will prevent want and distress, or trouble on the part of those he loves?

By all means insure, and do it at once in the Maryland Company. The officers of this Company are:

GEO P THOMAS, President.
A K FORD, Secretary.

BOARD OF DIRECTORS:

Hamilton Easter, Geo H Hilner,
Allen A Chapman, Thomas Cassard,
Geo P Thomas, William Devries,
Hugh Sisson, Charles Webb,
Hiram Woods, Jr.

A J MYERS, State Agent.

THE COMPANY REFER TO

Judge Magruder, Judge Ford, Judge Mason, Hon Fred Stone, Barnes Compton and Editor of Beacon.

A. J. MYERS, the State Agent, will be in Leonardtown during the first week of Court to transact the business of the company, and will also insure *property in Baltimore Companies*

THE

SCIENTIFIC AMERICAN FOR 1869

The SCIENTIFIC AMERICAN is the largest, the best, the cheapest, and the most Popular Journal in the world, devoted to Invention, Mechanics, Manufactures, Art, Science and General Industry, and contains a vast amount of very interesting and valuable reading matter for all classes.

Among the many important subjects discussed, are Steam and Mechanical Engineering in all its branches, Chemistry and all its varied Processes and Discoveries, Agriculture and all Improved Farm and Household Implements, Architecture and Building, Mining and Metal Working, Fire-arms, Manufacturing, Hydraulics, Railroad Improvements, Photography and the Fine Arts, New Inventions, Scientific Sports and Games, Popular Lectures upon Scientific and Mechanical Subjects, Articles by able Writers, Practical Workshops and Household Receipts, and many other things instructive and useful to all classes of readers.

Each number contains from five to ten Original Engravings of New Machines and Processes, also an official list of Patents granted at the Patent Office, with names of Patentees, together with illustrations and editorial notices of the principal inventions. The numbers of the SCIENTIFIC AMERICAN for one year make up two handsome volumes of 416 pages each, full of
