WHOLESALE DEPOT, NO. 2 SOUTH ST., BALTO., MD.

Sold by all Druggists & Principal Stores.

Read what Dr. Larkin says:

BALTIMORE, February 15, 1869.

Messrs. Leonard & Co.—Dear Sirs: The Antidote which you sent me for examination, and application to any obstinate case of Intermittent Fever which might come under my notice, has been received. I have analyzed the contents, and after discovering the ingredients and recognizing them as applicable to the disease in question, I determined to give it a trial. I did so, and found the therapeutic effects precisely in accordance with the character labled on it by you; in no instance has it failed, frequently half a bottle being sufficient for the complete cure of cases of long standing, even those in which chronic enlargement of the Liver and Spleen had been superindued. I regard it as a decidedly scientific discovery. I would recommend it to all sufferers of Chills and Fevers.

Sherwood House

AND

LIVING ROOMS,

ON THE EUROPEAN PLAN,

Corner of Fayette and Harrison streets

(opposite the Maryland Institute,)

Baltimore,

Md.

THE above well known House has recently been opened by C. P. Barnard, formerly of the American Hotel, Washington, D. C., and has capacity to accommodate over a hundred people with lodging, and has capacious and nicely furnished rooms for families. Connected with the House also is a ladies' dining room. The strictest order is maintained and accommodating servants always at call. The House is open at all hours. The advantage of a Hotel upon the plan of the Sherwood House is, that the guest can accommodate the price of his living to his own wishes, paying only for what he gets. The Sherwood House has recently been newly furnished and refitted, and, being in a central and business part of the city, offers unusual inducements to travellers. A fair trial is asked, and patronage from St. Mary's county solicited.

The Best in the World!

THE SCIENTIFIC AMERICAN

$1,500 Cash. For 1870. $1,500 Cash.

A Valuable Premium for all.

This splendidly illustrated weekly journal of Popular Science, Mechanics, Inventions, Engineering, Chemistry, Architecture, Agriculture and the kindred arts, enters its Twenty-Fifth Year on the first of January next, having a circulation far exceeding that of any similar journal now published.

The Editorial Department of the Scientific American is very ably conducted, and some of the most popular writers in this Country and Europe are contributors. Every number has 16 imperial pages, embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country, A Million Readers.

Wherever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading American and European Inventions. The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequalled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world: and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS,"

the plate costing nearly $4,000 to engrave, and contains nine teen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at $10, but any one subscribing for the Scientific American the paper will be sent for one year, together with a copy of the engraving, on receipt of $10. The picture is also offered as a premium for clubs of subscribers.

$1,500 CASH PRIZES

In addition to the above premium, the Publishers will pay $1,500 in Cash Prizes for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms of Scientific American, one year, $3.00; six months $1.50; four months, $1.00. To clubs of 10 and upwards, terms $2.50 per annum. Specimen copies sent free. Address the Publishers,

HARPER'S BAZAR.

A supplement containing numerous full-sized patterns of useful articles accompanies the paper every fortnight, and occasionally an elegant Colored Fashion Plate.

Harper's Bazar contains 16 folio pages of the size of Harper's Weekly, printed on superfine extendered paper, and is published weekly.

Critical Notices of the Press.

Harper's Bazar contains, besides pictures, patterns, etc., a variety of matter of especial use and interest to the family; articles on health, dress, and housekeeping in all its branches; its editorial matter is specially adapted to the circle it is intended to interest and instruct; and it has, besides good stories, and literary matter of merit. It is not surprising that the journal, with such features, has achieved in a short time an immense success; for something of its kind was desired in thousands of families, and its publishers have filled the demand. The young lady who buys a single number of Harper's Bazar is made a subscriber for life.—New York Evening Post.

The Bazar is excellent. Like all the periodicals which the Harpers publish, it is almost ideally well edited, and the class of readers for whom it is intended—the mothers and daughters in average families—cannot but profit by its good sense and good taste, which, we have, no doubt, are to-day, making very many homes happier than they may have been before the women began taking lessons in personal and household and social management from this good-natured mentor.—The Nation.

It has the merit of being sensible, of conveying instruction, of giving excellent patterns in every department, and of being well stocked with good reading matter.—Watchman and Reflector.

"Unquestionally the best sustained work of the kind in the World."

HARPER'S MAGAZINE.

Harper's Magazine, apart from the illustrations, contains from fifty to one hundred per cent. more matter than any similar periodical issued in the English language.

Critical Notices of the Press.

The most popular Monthly in the world.—New York Observer.

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 120,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fifty-144 pages of reading matter, appropriately illustrated with good wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S Guide to American Literature, London.

It is one of the wonders of journalism—the editorial management of Harper's. All the periodicals which the Harper's publish are almost idealby well edited.—The Nation, N. Y.

We can account for its success only by the simple fact that it meets precisely the popular taste, furnishing a variety of pleasing and instructive reading for all.—Zion's Herald, Boston.
