AND DISTRICT ATTORNEY

For 1st Judicial District. Office in Clark's block 3d street Lewiston, I. T. Will attend to business before the Land Office.

OWYHEE MINES.

This has been the most flourishing quartz mining camp in the Territory. There has been more capital invested in these mines than in all other parts of the Territory combined. They have produced a large amount of wealth, and have been worked principally by California capitalists. There was considerable Eastern capital brought into Owyhee in an early day, but it eventually drifted into the hands of Californians, a class of men who possess more energy and enterprise in mining operations than any other men in the world. Silver City has grown up, under the auspices of these mining operations, second to no town in the Territory. Thus far the mines are partially developed; there is no real cause for any back set or any down grade tendency in Owyhee county. While we give all credit to the energy and go ahead-ativeness of these California Companies, it cannot be denied that they have mismanaged their financial affairs, and things have come to pretty nearly a stand still. unnecessary to go over old sores dwell upon the causes which brought about these results. Life is too short to go back to try to recover what is positively lost. This world of humanity is like a passenger train destined for a distant port. If the engine gets off of the track, all hands must use the best means they can command to right the machine and set the wheels in motion. This is what is the matter in Owyhee, they have run off the track. In other words, they have got into a financial dead-lock. It matters very little whether A or B owns a mine, provided he will keep the machine in motion. Holding these mines locked up in litigation is death to everybody. The people there, as well as in other portions of our Territory, are interested in taking off the brakes in Owyhee and starting up work.—*Boise Statesman.*

ALMOTA.

Our Almota correspondent says: From 20 to 40 teams unload at the ware house here daily. Five hundred ton of produce were shipped this Spring, and there are now two hundred tons awaiting shipment. The Almota Hotel is crowded, and a good man keeps it. Three firms are selling agricultural implements here. A grist mill will soon be in operation, also a good ferryboat. Almota is the central point for all Palouse country which is fast filling up and is bound to be the main business point on Snake river. Nine threshers and a large number of reapers, sulkey plows and wagons were sold for this country and shipped direct to this place. In fact Almota and the whole country about it is looking "way up."—*W. W. Watchman.*

RUN OF SALMON.—A cor. writing from Astoria under date of yesterday, says: The run of salmon is on the increase and the high price paid the fishermen, causes them to be reckless, in venturing near the breakers on the bar. The Kinney's have lost two men and net. The boat came on to the weather beach. On Friday one of Badollet & Co.'s boats came near being lost. The tide was sweeping them rapidly into the breakers, but by hauling in their net in all haste, without stopping to kill or take the fish out of the net, they made their escape, and when the reached the cannery they found they had 110 fine large salmon fast in the net, for which they would receive $55. The fish were caught in two hours. The fishermen are very reckless of life.—*Oregonian.*

THE FIGHT AT BATOUM.

The *Telegraph's* special from Batoum says: At 5 o'clock Friday morning the Russians made a furious attack upon the heights defending Batoum on the land side occupied by Bashi Bazouks. The Ottoman troops were entrenched and opened a terrible fire of cannon and musketry, which literally mowed the Russians down in swaths. They fell by scores and hundreds on the plain below the Turkish position. In attempts to make way against this fire a body of Turkish horse and foot taking advantage of the thick forest, broke forth upon the flank of the Russian column and effected great slaughter, the Muscovites being upon ground which was perfectly open, having no choice but to fight or fly. In a short time the spot became covered with dead and dying Russians, but the enemy quickly brought up reinforcements and the battle was renewed with much determination. For many hours the efforts of the assailants were desperately maintained, but towards midday artillery fire gradually slackened and they at length withdrew, after suffering considerable losses. An eye witness of this important engagement testified that the Ottoman soldiers behaved admirably. They had the advantage of entrenchments, however on high ground, and it is due to this fact, no doubt, that their losses, compared to the Russians', were insiginficant.

The *Telegraph's* Batoum dispatch, dated Saturday, says the victory was won by the extraordinary courage of the Bashi Bazouks. The dead and wounded Russians exceed 4,000. The engagement lasted over eight hours, active fighting. The last of the Russians did not withdraw until near midnight. The Russians lost many guns. The only Turkish officer of note killed was Khad Bey, major of irregulars.

NO BIBLE AT BOISE CITY.

Idaho Territory does not now and never has possessed copies of the Bible and Webster's Unabridged. Shocking! No government is fully armed and equipped without both. Neither is a printing office; and the foregoing facts were discovered yesterday morning upon inquiry first at the office of Secretary Curtis and then at that of Gov. Brayman. The Governer informed us, however, that it would not always be thus in the catalogue of the Territorial Library. Dozens of friends stand ready to present us with a Bible; but a fourteen dollar dictionary that's quite another affair, altogether.—*Idahoan.*

We of North Idaho are better off, we can rejoice in the possession of several copies of each, if you can afford to pay express charges we will be enough of a missionary to send you a Bible.

CRICKETS IN SOUTHERN IDAHO.—From Ed. Jewell, who came in last Saturday from the Upper Weiser, we learn that the crickets are quite numerous in that section of country. While they are devastating the crops, the hogs are having a feast of crickets. He says they are moving north and are not checked by streams or anything else. They plunge into the river and float till the current drifts them at some bend to the opposite shore. Those that are unsuccessful in making a landing perish in the stream. The old sows have organized, and placing themselves in the water, stand there, head up stream, and gobble cricket swill.—*World.*

Bully for the sows [ED.]
