HARPER'S MAGAZINE.

Notices of the Press.

No more delightful travels are printed in the English language than appear perpetually in Harper's Magazine. They are read with equal interest and satisfaction by boys of every grade from eighteen to eighty. Its scientific papers, while sufficiently profound to demand the attention of the learned, are yet admirably adapted to the popular understanding, and designed as much to diffuse correct information concerning current scientific discovery as it could be if it was the organ of the "Society for the Diffusion of Useful Knowledge." The great design of Harper's is to give correct information and rational amusement to the great masses of the people. There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly-welcomed guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—New England Homestead.

It is one of the wonders of journalism—the editorial management of Harper's.—The Nation, N. Y.

Harper's Weekly.

SPLENDIDLY ILLUSTRATED.

Notices of the Press.

The model newspaper of our country. Complete in all the departments of an American Family Paper, Harper's Weekly has earned for itself a right to its title, "A Journal of Civilization."—New York Evening Post.

The best publication of its class in America, and so far ahead of all other weekly journals as not to permit of any comparison between it and any of their number. Its columns contain the finest collections of reading matter that are printed. * * * Its illustrations are numerous and beautiful, being furnished by the chief artists of the country.—Boston Traveler.

Harper's Weekly is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone. Its reading-matter is of a high order of literary merit—varied, instructive, entertaining, and unexceptionable.—N. Y. Sun.

HARPER'S BAZAR.

A supplement containing numerous full-sized patterns of useful articles accompanies the paper every fortnight.

Harper's Bazar contains 16 folio pages of the size of Harper's Weekly, printed on superfine calendered paper, and is published weekly.

Notices of the Press.

Harper's Bazar contains, besides picture-patterns, etc., a variety of matter of especial use and interest to the family; articles on health, dress, and housekeeping in all its branches; its editorial matter is specially adapted to the circle it is intended to interest and instruct; and it has, besides good stories and literary matter of merit. It is not surprising that the journal, with such features, has achieved in a short time an immense success; for something of its kind was desired in thousands of families, and its publishers have filled the demand. The young lady who buys a single number of Harper's Bazar is made a subscriber for life.—New York Evening Post.

The Bazar is excellent. Like all the periodicals which the Harpers publish, it is almost ideally well edited, and the class of readers for whom it is intended—the mothers and daughters in average families—cannot but profit by its good sense and good taste, which, we have no doubt, are to-day, making very many homes happier than they may have been before the women began taking lessons in personal and household and social management from this good-natured mentor.—The Nation, N.Y.

MARYLAND LIFE

INSURANCE COMPANY.

THE progress of Life Insurance in the United States proves this great crowning triumph of modern science and philanthropy to be one of the marvelous features of our social economy.

The wisdom of all ages has devised nothing that compares with it. It is so manifestly good, that it is difficult to see how an intelligent man, with proper concern for the comfort and protection of his family, can fail to avail himself of its benefits.

Life Insurance leaves ready money to settle estates to advantage. It will prevent a sacrifice of property if a man die in debt. It is subject to no tax during life, nor Orphans' Court expenses after death. It is exempt by law from debt. It is rapidly becoming a rule that all men of just attributes insure.

Our Maryland Company commends itself to the confidence and patronage of our people in all parts of the State. Its directors are men of known integrity and ability, to whom the public may look with confidence for a just and careful supervision of its affairs. It must be clear to every intelligent mind that, if we would secure the largest prosperity to our State and people individually, we must build up our institutions and keep our capital at home.

Had the five million dollars sent out of the State annually for insurance been invested at home, it would have told favorably upon our own wealth and commerce. This is emphatically OUR COMPANY—gotten up by our best merchants to afford the opportunity for all to insure without sending the money out of our own State. The affairs of the Company are managed with economy.

Such has been our marked success that we were able after the second year to declare and pay in cash as large dividends as the oldest and LARGEST company in the United States. The Company feel greatly encouraged by the patronage and co-operation they have received, and solicit a continuance of the same. The laws of trade, commerce, self-respect and self-interest combine to make this the Company for us.

Now, dear sirs, in view of all the advantages of Life Insurance as an investment—the uncertainty of life—the strong claims of wife and children upon husband and father—the uncertainty of business, and all the ordinary forms of investment—is it not the moral duty of every man to put something in a form that will prevent want and distress, or trouble on the part of those he loves?

By all means insure, and do it at once in the Maryland Company. The officers of this Company are:

GEO P THOMAS, President.
A K FORD, Secretary.

The strictest order is maintained and accommodating servants always at call. The House is open at all hours. The advantage of a Hotel upon the plan of the Sherwood House is, that the guest can accommodate the price of his living to his own wishes, paying only for what he gets. The Sherwood House has recently been newly furnished and refitted, and, being in a central business part of the city, offers unusual inducements to travellers. A fair trial is asked, and patronage from St. Mary's county solicited.
