ALUMNI DAY EXERCISES

To Be Omitted This Month—Probable Reception During Easter Recess.

Following several meetings of the executive committee of the Alumni association of Windham High school, held in the school building, it is impossible to hold any exercises in the building because of the fact that the new addition is not yet furnished, it has been decided that the regular alumni day exercises usually held the Friday before Christmas, will be omitted this year. A general reception of the alumni and in all probability to the public as well will be held some evening during the Easter recess when the new building will be open for inspection, it being planned to have it especially illuminated.

Arrangements are being made to have one of the more prominent members of the older alumni present and deliver an address. An excellent musical programme is being arranged and it is thought that a dance will be a feature of the exercises.

W. E. Kay of the faculty has been president pro tem of the Alumni association since A. N. Colgrove's removal to Waterbury. Mr. Fay, Miss Gertrude Crane, Miss Hazel Dennisch, Arthur Potter, Miss Anna L. Bates and Miss Annie M. Muse of the faculty, Miss Cornelia Thompson and Miss Lillian Hibbard constitute the committee in charge of the arrangements for the exercises.

At the close of school Friday of this week the annual business meeting of the Alumni association will be held and the election of one trustee for the alumni fund.

Town Must Reimburse Owner of Chickens.

As it is understood that the town will have to settle for the chickens a further investigation of the matter will be made by the board of selectmen.

Proverbs of the Highway.

"One time," said Brother Williams, "I seen a man climb a tree ter git rid of Satan. I seen de man up de tree, an' went my ways. Next day I passed by whar de tree an' de man was, an' no tree wuz dar—only a smokin' stump showed de remains of de tree; which fetches de wholesome reflection dat de bes' way ter do is ter meet Satan face ter face an' argy de question wid him. But you got ter have mighty good arguments ter git de best of him, an' even den de case is doubtful!"—Atlanta Constitution.

Where Commission Government Didn't Work.

The commission form of city government doesn't always work without a hitch. In Topeka, where a mayor and four commissioners have the city all to themselves, it has run into serious trouble. The commission started to enlarge a sewer. It gave the contract to a firm which dug a big hole, constructed an awkward approach and then failed. Now the city has the hole and not much else. The work halted fire and the commission doesn't know just what to do. Its authority is in pretty nearly absolute and in personal it seems a bit too broaded. The commission ideas is attractive in centralizing power, doing away with red tape and fixing responsibility, but it demands a deal of discretion in the selection of the commissioners, which discretion the city with the average type of voting population does not always exercise.—Waterbury American.
