THE SCIENCE OF HEALTH.

PROSPECTUS OF A NEW
Independent Health Monthly.

The object of it is, to teach the people all that pertains to the preservation of Health, the prevention of Diseases, and how to live in order to develop normally in body and mind.

It is not a Medical Journal, but Physiological and Hygienic, *a family magazine*, containing just that practical information on the laws of Life and Health, useful to every member of the household, and cannot but be worth many times its price to every family in which it is read.

Quack Medicines, and quack doctors will be exposed, and swindlers will not be allowed to impose on the people where the Science of Health is generally circulated.

This Journal will be the exponent of all known means by which Health, Strength, Vigor, and a Long Life, may be attained by using and regulating those agencies which are always accessible and so vitally related to Health and the treatment of Diseases, including Air, Light, Temperance, Bathing, Eating, Drinking, Clothing, Recreation, Exercise, Rest, Sleep, Electricity, Mental Influences, Social Relations, and all Normal agents and Hygienic materials. All that is required to keep well and to preserve health, is a knowledge of the uses and misuses of these agencies.

The Science of Health will be the best exponent of the scientific principles of these subjects, and not the organ of any particular institution, or of the professional practice of any one, but devoted to the best interests of the whole people.

TERMS.—Published monthly at $2.00 a year in advance; single numbers, 20 cents. Clubs of ten at $1.50 each, and an extra copy to agent; we are offering the most liberal lists of Premiums. Local Agents wanted everywhere, and cash commissions given. Address all letters to

HARPER'S MAGAZINE.

Notices of the Press.

There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly-welcomed guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—New England Homestead.

A repository of biography and history, literature, science, and art, unequaled by any other American publication. * * * The volumes are as valuable as a mere work of reference as any cyclopædia we can place in our libraries. Harper's Magazine is a record of travel every where since the hour of its establishment. Livingstone and Gordon Cumming in Africa, Strain among the Andes and Ross Browne in the East, Speke on the Nile and Macgregor on the Jordon—indeed, all recent travellers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—*N. Y. Standard.*

It is one of the wonders of journalism—the editorial management of Harper's.—The Nation, N Y.

HARPER'S BAZAR.

Notices of the Press.

It is really the only illustrated chronicler of fashion in the country. Its supplements alone are worth the subscription price of the paper. While fully maintaining its position as a mirror of fashion, it also contains stories, poems, brilliant essays, besides general and personal gossip.—Boston Saturday Evening Gazette.

There never was a paper published that so delighted the heart of woman. Never mind if it does cost you a new bonnet; it will save you ten times the price in the household economy it teaches.—Providence Journal.

The young lady who buys a single number of Harper's Bazar is made a subscriber for life.—New York Evening Post.

The Bazar is excellent. Like all the periodicals which the Harpers publish, it is almost healthy well edited, and the class of readers for whom it is intended—the mothers and daughters in average families—cannot but profit by its good sense and good taste, which, we have no doubt, are to-day, making very many homes happier than they may have been before the women began taking lessons in personal and household and social management from this good-natured mentor.—The Nation, N.Y.

Its columns contain the finest collections of reading matter that are printed. * * * Its illustrations are numerous and beautiful, being furnished by the chief artists of the country.—Boston Traveler.
