TO ENLARGE WESTERLY'S PARK

Beauty Spot in Center of the Town Will Have Addition to Northern Boundary—Industrial Trust Company to Erect Building of Native Granite—Friends' Ceremony at Funeral of Mrs. J. B. Foster—Latch String Out at Catholic Clubrooms.

For the second successive year Westerly is not represented in the freshman class of Brown university, although many Westerly young men have been graduated from that institution, the leader in education in the state. Three years ago the graduates of Brown resident in Westerly and vicinity held a reunion here in the hope of creating an interest among the high school students with special references to the advantages of Brown for a college education, but the results were not fruitful.

Those who have attended Brown and are, or were, residents of Westerly, include Edwin Babcock, Horace Babcock, John Howard Brown, Mary E. Collins, Arthur M. Cottrell, Charles Israel Gates, Mrs. Mary A. F. R. Gates, Harold D. Kenyon, Rev. Joseph L. Peacock, Mrs. Edna B. A. Peacock, James M. Pendleton, Arthur L. Perry, A. L. Saunders, Orlando R. Smith, John Ferguson, Jr., Harry Francis Cook, William Edward Larcour Mitchell, Marion Chace Austin, Katherine Eliza Everett, Ann Sheldon Briggs (Ashaway), James Ovington Hazard, William Pendleton Dodge, Jarvis Howard Alger, James Coutts Archie, Harold Dickins Livingstone, Charles Clarence Maxson, Jr., Charles J. Dutton. The great majority of these are nongraduates. At present Westerly is not represented at Brown.

In the freshman class four are enrolled from New London: Ismar Baruch, Harold Augustus Cone, Morgan Bulkeley Haven, and William Molus Sistare, Jr. Norwich is represented by Roy Cleveland Phillips. Nominations have been made for officers of the freshman class for the election which will soon take place. William M. Sistare of New London, a member of the football squad, has been nominated for basketball manager, with Karl Rice of Adams, N. Y., as the opposing candidate.

The Westerly public library has just received for the genealogy department a history of the descendants of Peter Spicer, a landholder in New London, Conn., as early as 1666, and others of the name, with appendix containing short accounts of allied families. The volume was compiled by Mrs. Susan Spicer Meech and Miss Susan Billings Meech.

The compilers give these anecdotes of the origin of the name: From a letter written by a grandson of Jacob Spicer of New York: "My grandfather, Jacob Spicer, once told me that the name originated in England at the time of the Gunpowder plot; that the king knighted the discoverer of the plot and gave him the name of Spy. Sir, since changed to Spicer."

Another explanation is given thus: "It is a fact that the Spicers are of Irish origin, though those emigrating to this country were born and reared in England. This is a tradition as to the origin of the name: In one of the early wars an Irishman was captured by the English; such were the appearances that they said to him, 'Teh are a spy!' The captive with ready Irish wit replied, 'Spicer? Spicer? Yes, Spicer begolle, that's my name.' 'But you are a spy, sir, and must die!' 'Yes, yes, begolle, that's my name. Spicer; but you don't hang people for having a name you know, do you?' The English were so much pleased with his wit that they let him live and he was ever after known as Spicer."

The third game in the series of bridge whist for points between the Mistuxet club of Stonington and Westerly club of Westerly was played in Stonington Wednesday night, and was won by Westerly by a score of 1416 to 1016. There were four tables and thirty-two hands played. The players and scores are as follows:

Mistuxet.

Knolb-Dewhurst	266
Bindloss-Stillman	150
Crandall-Pendleton	296
Fairbrother-Cowan	310
Totals	1016

Westerly.

Swain-Langworthy	316
Hillard-Sullman	330
Sherman-Harper	470
Livingstone-Haswell	300
Totals	1416

The Westerlys made the trip by automobile and were hospitably entertained. The first two games were won by Mistuxet, but the big score in the third game places Westerly in the lead on points. The next game will be played in Westerly.

The two-story brick building in Canal street, known as the beef-house, next the railroad track, is an impediment to the progress of the work in connection with the extensive railroad improvements and will be razed as soon as accommodations can be provided for the beef company, as it is a part of the purchase contract that another convenient site with spur-track accommodations be furnished. The Dixon bank of earth on the Canal street side is supplying the material for the concrete work being done by Ryan & Keon, and excavation has been made for that purpose.

Just as soon as possible, the track now being used by the railroad company's steam shovel will be extended along Canal street and the bank will be cleared along that street. When this is done a new building will be erected for the beef company on the plot cleared; then the brick building will be razed and the work of improvement be carried on even more rapidly than heretofore.

There is a report that there is to be another enlargement of Wilcox park at the north end and for the entire width from High street to Grove avenue. It is stated that the park trustees have practically closed negotiations for the purchase of the Robertson property in High street and with favorable prospects of securing the property that adjoins in the rear and extends to Grove avenue from Patrick H. O'Brien of New London.

Through the munificent provisions made by the late Mr. and Mrs. Stephen Wilcox, the trustees have already more than doubled the park from the original size and so improved and beautified the place that it is one of the beauty spots of the state. The contemplated addition will enlarge the park fully one hundred feet for its entire width at the northern boundary and will make possible prospective improvements.

The Industrial Trust Company is to erect a two-story bank building of native Westerly granite on the site of the present bank building in Westerly, which is a branch of the home institution in Providence.

It is understood that the proposed new building will be considerably larger than the present and cover all the present space in front and south side of the present building. The Industrial Trust company building is one of the finest in Providence. When the new building is erected in Westerly for the branch bank it will be one of the most modern and completely equipped buildings in Westerly. The growth of business is such that the present banking house is inadequate and the erection of the proposed new building is a necessity.

Simple ceramony according to the custom of the Society of Friends marked the funeral of Mrs. Elizabeth Perry Foster, widow of J. Barclay Foster, at her home in High street Thursday afternoon. After a short session of meditation, remarks were made by three men and three women, intimate friends of deceased. There were in attendance many friends including several from out of town. Burial was in the family lot in River Bend cemetery.

The newly formed Catholic club held open house in their new quarters in the Potter-Langworthy building on Thursday evening, the visitors being received by the president, Dr. Michael H. Scanlon, and the other officers, who served as a reception committee. The richly furnished rooms were inspected by the visitors, a majority being ladies, and the club members were congratulated upon their admirably arranged quarters. An orchestra furnished music. During the evening vocal selections were rendered and light refreshments served.

BREAKS UP A COLD IN SEVERAL HOURS.

Most Effective and Harmless Way to Cure a Severe Cold and End All Grippe Misery.

There is not one grain of quinine in Pape's Cold Compound, which, when taken every two hours, until three consecutive doses are taken, will surely end the grippe and break up the mose severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, catarrhal affections, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed with the knowledge that there is no other medicine made anywhere else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

MEMORIAL CHAPEL.

Provided at Oxford Through Heirs and Friends of Judge Thomas Coman.

Through the generosity of the heirs and friends of the late Judge Thomas Coman, of New York, a memorial chapel is being erected in the town of Oxford, this state, which will prove a much appreciated place of worship for the people of that town. The edifice is to be of frame construction on a field stone foundation. Its exterior is to be covered with brown stained shingles, the memorial windows to be of imported glass of religious design. The complete set of vestments are being made by the nuns of Mt. St. Vincent's on the Hudson, and the interior fittings are likewise given, the generous donation of the friends and heirs of the deceased. The interest of the people in this act of generosity on the part of Judge Coman's heirs is shown by the free giving of the land for a site for the chapel by Mr. and Mrs. August Pelletier, who likewise promise with their children to attend to all the details of keeping the chapel in a tidy condition.

Deep River.—Very Rev. T. S. Duggan, vicar general of the Hartford diocese, has been the guest of his sister, Miss Mary Duggan.

Here's Something New

No more ashes to lug. No clumsy pan to spill dust and dirt on the kitchen floor.

The Glenwood Ash Chute

solves the problem. It is located just beneath the grate and connected by a sheet iron pipe straight down through the kitchen floor to ash barrel in cellar. No part is in sight. Not a particle of dust can escape. Just slide the damper once each day and drop the ashes directly into the ash barrel.

The Dust Tight Cover

to barrel is another entirely new Glenwood Idea and is very ingenious. The Ash Chute is sold complete with barrel and all connections, as illustrated, at a moderate price to fit any cabinet style Glenwood. This is only one of the splendid improvements of the Plain Cabinet Glenwood the Range without ornamentation or fancy nickel, "The Mission Style" Glenwood. Every essential refined and improved upon.

Up-To-Date Gas Attachments

This Range can be had with the latest and most improved Elevated or End Gas Range attachments. It has a powerful hot water front or for country use a Large Copper Reservoir on the end opposite fire box. It can be furnished with fire box at either right or left of oven as ordered. When the Ash Chute cannot be used an Improved Ash Pan is provided.
