"EXCELSIOR,"

1872. 1872.

Composed of 800 pounds of No. 1 Peruvian Guano, and 1200 pounds of Soluble Phosphate of Lime, (bones dissolved in sulphuric acid,) Potash and soda,

Forming the most concentrated, universal and durable fertilizer ever offered to the farmers—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones, in fine dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre; and it is the opinion of many close calculating Farmers, after THIRTEEN years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

Look out for imitations and counterfeits. The popularity of Excelsior has induced *unscrupulous* parties in this and other cities to copy our trade mark, and resort to other *dishonorable* means to sell their *worthless* compounds.

Farmers should see that every Bag is branded as above, with the ANALYSIS and OUR NAME in RED LETTERS. All others are counterfeits.

THE SCIENCE OF HEALTH.

PROSPECTUS OF A NEW

Independent Health Monthly.

The object of it is, to teach the people all that pertains to the preservation of Health, the prevention of Diseases, and how to live in order to develop normally in body and mind.

It is not a Medical Journal, but Physiological and Hygienic, a *family magazine*, containing just that practical information on the laws of Life and Health, useful to every member of the household, and cannot but be worth many times its price to every family in which it is read.

Quack Medicines, and quack doctors will be exposed, and swindlers will not be allowed to impose on the people where the Science of Health is generally circulated.

This Journal will be the exponent of all known means by which Health, Strength, Vigor, and a Long Life, may be attained by using and regulating those agencies which are always accessible and so vitally related to Health and the treatment of Diseases, including Air, Light, Temperance, Bathing, Eating, Drinking, Clothing, Recreation, Exercise, Rest, Sleep, Electricity, Mental Influences, Social Relations, and all Normal agents and Hygienic materials. All that is required to keep well and to preserve health, is a knowledge of the uses and misuses of these agencies.

The Science of Health will be the best exponent of the scientific principles of these subjects, and not the organ of any particular institution, or of the professional practice of any one, but devoted to the best interests of the whole people.

TERMS.—Published monthly at $2.00 a year in advance; single numbers, 20 cents. Clubs of ten at $1.50 each, and an extra copy to agent; we are offering the most liberal lists of Premiums. Local Agents wanted everywhere, and cash commissions given. Address all letters to

To Invalids and Lovers of Pure Rye Whiskey.

WE have on draught a very superior article of pure Baker Whiskey, eight Summers old. We especially recommend it to invalids. Some of our invalid customers have used it with Cod Liver Oil, and found it very beneficial, more so than any other whiskey they have ever used. And to the lovers of the article we will add, that one of our firm is an excellent judge, and says a finer whiskey he never drank. It far surpasses the great railroad Bourbon.

We are also just opening a fresh supply of LADIES DRESS GOODS, embracing all the late Summer styles, to which we respectfully call the attention of the Ladies.
