Strange Action of Magazine Solicitor.

A local clergyman had a rather peculiar experience Tuesday forenoon with one of two young men who were soliciting magazine subscriptions for the avowed purpose of earning enough money to pay for a scholarship in some university. The young man represented himself as a graduate of Putnam High school, two years ago, and claimed that the principal's name there at that time was "Jackson." The young man was questioned quite closely and did not seem to relish it. While the clergyman left him for a minute to attend to some small matter, the young man abruptly took his departure.

Doll and Toy Supply Will Be Short.

W. L. Dixon of a local store in discussinf the effect of the European war upon his business said Tuesday that he expects to have considerable difficulty this fall in securing his usual supply of dolls and toys, bought usually from German manufacturers through American agents. American brains are busy with the problem of getting an adequate supply of playthings for Young America.

WORSTED COMPANY RUSHED.

Elmville Plant Running Until 9 P. M.

Business is booming at the plant of the Sonnhill Worsted company at Elmville, the concern that recently took over the property of the Elmville Worsted company. Not only have they put their plant on a full time schedule with an increased number of help, but are running it until 9 o'clock nights. The concern is also operating about half the machinery in the Sayles mill at Elmville and will soon have it all running. One connected with the Sonnhill company said Tuesday that orders have come in so liberally that it is almost impossible to care for them. The company is now employing about 150 people and the payroll is in excess of $1,000 a week.

It is expected that the work of installing a new 200 horsepower turbine water wheel will be commenced at the Sonnhill plant this week. New machinery is also to be installed. The success of the plant since it was taken over by the new company measures up to all of the rosy forecasts that were made at that time and the advantage to the town of Killingly generally is so great as to be worthy of special notice.

Being Arranged for Labor Day by William N. Burnett.

William N. Burnett is promoting a motorcycle run for motorcyclists of Danielson and vicinity on Labor day that is already giving promise of being very successful. Practically all of the riders in Danielson have entered and it is expected that 30 to 35 will make the start.

On Labor day morning at 10 o'clock the riders are to get away from Danielson Center, leaving in teams of four men each, the teams starting two minutes apart. Over practically the entire run they will have state highways to travel over and should have no difficulty in making the trip comfortably within the limit set. Checking points are to be at Worcester, Boston and Providence. Teams and riders that finish with perfect scores are to be awarded suitable medals.

AUTOMOBILES COLLIDE

At Dangerous Turn Near Labelle's Building, Dayville.

Two automobiles were in a head-on collision at the sharp turn near the west end of Labelle's building at Dayville, at 5 o'clock Tuesday afternoon. The smash was due to the fact that neither driver could see the other until they were practically upon each other. The turn is one of the worst in the state.

One of the cars, a New York machine, is said to belong to John Morrison and the other, a Connecticut car, to be registered under the name of Russell P. Taber of Hartford. The names of the persons were not accurately secured by those who saw the accident. In the New York car were Mr. and Mrs. Morrison, and their chauffeur. Two men were riding in the other car, which was the smaller of the two. None of the persons was thrown out nor was anyone injured, but the cars were considerably damaged. Tripp's broad smile when he said guilty and his uncalled for levity during the time that the charge was being read to him caught the eye of the court and Judge Tuttle remarked that he should realize that he was not involved in a laughing matter. The sentence imposed, as recommended by the state's attorney, was a year in jail for each of the adulterers.

Why Pay For Expensive Lath and Plaster?
Fiberlic
Is Better, Cleaner, and Far Less Expensive

FIBERLIC wall board is admirably adapted to any sort of architecture or home furnishing—the finest or most inexpensive. If you're building or "fixing over," you should learn all about it.

Fiberlic is nailed directly to the studding for new walls or over the plaster of old ones.

Fiberlic may be quickly and easily applied—no muss or dirt. You can do it yourself if you wish.

Its use gives you a broader range of decorative possibilities.

Fiberlic lasts longer and wears better than lath and plaster. It cannot crumble and crack. By using it you secure beautiful, cleanly walls and ceilings.

Fiberlic is more nearly fire-proof than any wall board on the market. Test it any way you please and its superiority over other boards will be apparent.

Fiberlic is the only wall board made from root pulp. It's stronger, more rigid, and more adaptable to your needs than any other.

Let us show you the "Wall board ideal."

The White Man's Burden

People are finding out that a lot of the troubles that go to make up life's burden are caused by

Coffee Drinking

Coffee contains a drug, caffeine—about 2½ grains to the cup. It not only stands to reason, but has been demonstrated scientifically and in practical experience, that this steady drugging is a foe to health and comfort.

A great army of people have found freedom from coffee burdens, by changing to

POSTUM

—a delicious pure food-drink, made from whole wheat and a bit of molasses. No caffeine, no drug, no harmful ingredient.

Even children drink Postum freely with benefit; they can't do that with coffee.

Postum comes in two forms:

Regular Postum, must be boiled, 15c and 25c pkgs.

Instant Postum, a soluble form, made in the cup instantly, 30c and 50c tins.

Grocers everywhere sell both kinds and the cost per cup is about the same.
