CONSIDERING TREATMENT OF ALIEN ENEMIES

To Give Them the Maximum Amount of Liberty in the Larger Cities.

Washington, April 10.—Department of justice officials have under consideration the adoption of plans with reference to the treatment of alien enemies which will permit resident Germans, particularly those in New York, Philadelphia, Boston and other large cities, a maximum amount of liberty, where such individuals can establish their pacific intentions ,under the terms of the president's proclamation of war.

To this end, Attorney-General Gregory announced tonight, it is likely that a number of exemptions may be issued in the case of Germans, long resident in poulous districts and known to be of peaceful intent, who would otherwise be required to change their place of residence to quarters more than one-half mile removed from fortifications and arsenals.

CABINET DISCUSSED MANY PHASES OF WAR ACTIVITIES

Most Pressing Needs Are Foodstuffs and Ocean Going Vessels.

Washington, April 10. — President Wilson and his cabinet at today's meeting reviewed the many phases of war activities, found that every step possible to equip the army and navy and turn out munitions is under way, and decided that the most pressing needs of the nation now are to increase the supply of foodstuffs and ocean-going vessels, and to raise sufficient money to finance America's part in the war and make liberal loans to the entente allies.

For present activities the allies are understood to be well supplied with munitions, and to have as many men in the field as they can equip and feed under present conditions. Through a co-ordination of the munitions industry in the United States and the raising of a large army, the United States will be in a position later to supply may need in either field.

Shipments of fresh and cured meats from Chicago last week totaled 44,313,000 pounds.

BRUSH YOUR TEETH WITH ALBODON AND THEY'LL BE CLEAN

There is no *mystery* about ALBODON DENTAL CREAM. Dentists and druggists know the ingredients. They will advise *you* to use ALBODON because it contains *the* highest percentage of *tooth-cleaning* and polishing properties.

Every dentist knows the formula
Every dealer sells it

On account of increase in price of tobacco, the Whitestone Cigar will be sold from now on at $35 per 1,000.

BASEBALL SEASON OPENS TODAY

First Time in History of Organizations That the Penant Race Will be Inaugurated While Nation is in State of War—Boston-New York Game Called Off On Account of Snow.

New York, April 10.—Preceded by a forecast of generally fair weather but low temperature, the major league baseball season will be formally opened tomorrow in seven of the sixteen cities composing the National and American league circuits. In the National league Pittsburgh will play at Chicago, St. Louis at Cincinnati and Philadelphia at Brooklyn. The opening game at Boston with New York has been declared off because the grounds are covered with snow. On the American circuit, Chicago will open at St. Louis, Cleveland at Detroit, Washington at Philadelphia and Boston at New York.

For the first time in the history of either of these baseball organizations the pennant races will be inaugurated while the nation is in a state of war. But once in the forty-one years of the senior league existence has war been proclaimed and in the case of the Spanish-American conflict the declaration was made six days after the beginning of the season. The opening games of the 1898 race were played on April 15 and the signing of the war proclamation came on April 21. Since the formation of the American league, in 1900, the junior organization has never been confronted with conditions such as prevail today.

The league executives and club owners are loath to predict the effect of the preseCnt international complications upon the national game. In a general way they believe baseball is facing a fairly prosperous season, but expect the receipts and attendance to fall below estimates made before the developments of the past few weeks. Precedents upon which to base calculations in the present situation are few. During the Spanish-American war baseball experienced little if any setback. Last summer the International league clubs in Canada enjoyed marked prosperity notwithstanding that a large proportion of young Canadians were in training or in the trenches.

Unusually close races are expected in both leagues. The clubs of both organizations have been strengthened to a point where at least six teams in each circuit are considered real pennant contenders.

WINDHAM TO OPEN SEASON WITH N. F. A.

Eleven Games on Baseball Schedule Announced by Manager Carcio.

(Special to The Bulletin.)

Willimantic, April 10. — Manager Carcio of the Windham High school baseball team has completed the schedule of games up to June. It includes 12 games, half of them to be played in Willimantic. The schedule follows:

April 18—N. F. A. in Willimantic.
April 21—South Manchester in that city.
April 25—Killingly in that city.
April 28—Putnam in Willimantic.
May 5—Southbridge in that city.
May 9—Pomfret in that place.
May 12—Bartlett H. S. in Willimantic.
May 16—Killingly in Willimantic.
May 19—Bartlett H. S. in Webster.
May 26—Putnam in that city.
May 29—South Manchester in Willimantic.
May 30—Southbridge in Willimantic.

Outdoor practice was to have been started Monday, April 9, but was postponed because of the snow. Practice will begin in the park as soon as possible.

CLEVELAND AMERICANS ENJOY SWATFEST.

Indians Poled Out 15 Hits for a Total of 25 Bases.

Toledo, April 10.—Fifteen hits for a total of 25 bases, eight bases on balls and two hit batsmen netted the Cleveland Americans 13 runs and defeated the local American association club, 13 to 0, in an exhibition game here today. Toledo obtained only four hits.

FINANCIAL AND COMMERCIAL

SHORT SELLING MARKET.

General Unloading of Munition and Equipment Issues.

New York, April 10.—Measures already adopted by the federal government to prevent inflation of values were again an independent factor in today's stock market, precipitating further liquidation and short selling of the better known war shares. An increasing realization that war contracts will yield but moderate profits caused a general unloading of munition and equipment issues.

Rails were the chief element of strength, some high grade stocks scoring material gains in the intermediate session, but these were largely, or wholly forfeited in the more urgent offerings of the last hour. Delaware and Hudson was weak at all times, taking an extreme recession of 8 1-4 points to 119 1-2 in anticipation of the company's poor annual statement.

United States Steel manifested more resistance than most other industrials, declining only 1 1-2 to 108 5-8, while Bethlehem Steel new stock fell 5 1-2 to 122, with 2 to 4 points for Crucible and Sloss-Sheffield Steels, Virginia Iron and Gulf States Steel.

Petroleums, metals, sugars, motors and leathers fell off one to three points, with 4 3-4 for Baldwin Locomitive and 8 1-2 for Sears Roebuck. Utilities were inactive except for the gas issues, Ohio Gas losing 3 points.

Shippings were irregular at the outset, but strengthened in the latter dealings. Gains in rails were limited to the leaders, some of the secondary or inactive issues losing 1 to 3 points. Total sales amounted to 760,000 shares.

An advance in sterling exchange with cables quoted at the highest price in almost a year, was the outstanding feature of the foreign exchange market. Francs, rubles and lires were firm.

The new high record in unfilled orders reported by the United States Steel Corporation for March occasioned no surprise and failed to stimulate any demand for industrial securities.

Bonds were again irregular, the international or war group showing general strength, while domestic issues, rails as well as industrials, made variable concessions. Total sales, par value, aggregated $8,480,000.

U. S. bonds were lower by fractions to a point on call, except the registered 2's, which made a slight gain on actual stocks.

Prices Increased May 1st

Order Now and Order Quick

We have expected a price increase right along and only the immense quantity being produced will enable us to sell at the May 1st price—we, of course, have no assurances that further increases in price will not be necessary.

Everything that goes into the Maxwell is the best—this we do know and can prove.

The steel is the finest that money can buy—the motor—no finer, no tougher, no steadier can be built according to our experience and the steeper the hills and the tougher the roads the more the Maxwell seems to like them.

Our April allotment will be delivered to us at the old price. That's agreed and that's fair to us and we are going to be fair to our customers.

—But—after May 1st, we can't buy a Maxwell for a penny less than the new price and we shan't sell you one for a penny less than $665.

Come in—study this car—see if we are right or wrong about it.

When we say biggest value, we mean it and we can prove it by any known tests or standards.

We put it up to you to judge after you consider these features.

Maxwell Style Same as Highest Priced Cars

The Maxwell lines are pleasing to the eye. The design conforms exactly to the prevailing style, as illustrated by any number of high priced motor cars.

Comfort to the Point of Luxury

The Maxwell car is roomy. It seats five passengers in comfort. There is plenty of leg room in front and rear. The long semi-elliptic Maxwell springs and the soft, extra-deep upholstery make riding easy.

150,000 Miles Not Unusual

There are Maxwell cars in daily use which have already run over 150,000 miles. Think of it—more than 20 years of average driving! There are Maxwell cars in the mountains and in sections where there are rough roads or no roads, that have gone 50,000 miles—50,000 miles that would wreck and tear most cars to pieces.

The World's Endurance Champion

This record was set by a five-passenger Maxwell stock touring car, by running for 22,022 miles—44 days and nights—WITHOUT A MOTOR STOP, AND WITHOUT ANY REPAIRS OR ADJUSTMENTS. The run was sanctioned and constantly observed by the supreme court of this industry—The American Automobile Association. The car was a stock car and was so certified. The facts are indisputable.

Maxwell Running Expense $8.19 Per Month

Maxwell cars, on account of scientifically correct balance and light weight are very economical to operate. Hundreds of instances are on record, showing from 30 to 44 miles per gallon of gasoline. Mrs. Miriam Seeley—Professor, Oregon Agricultural College—has just completed a trip from Corvallis, Oregon to Boston and return—9,700 miles—(about 1½ years of average driving). The total expense for gasoline, oil and repairs was 9½ cents per mile—or the equivalent of $8.19 per month.

Complete Equipment—No Extras to Buy

Maxwell cars have every device and accessory for the greater convenience and comfort of the owner. Not a single thing is lacking. When you buy a Maxwell, no further investment is necessary.

Remember—$665 May 1st. $635 Now. And get your order in now before these April Cars are gone.

ATHLETICS UNDER MILITARY SUPERVISION AT PENN.

Only Large Eastern University to Take This Course.

Philadelphia, April 10.—The board of directors of the athletic association of the University of Pennsylvania decided today to continue athletics at the university with every athlete under military supervision of Major William Kelley, U. S. A.

Pennsylvania is the only large eastern university to adopt this course during the international crisis.

CUBS RELEASE YERKES.

Steve is Under Federal League Contract Calling for $6,500.

Chicago, April 10.—Steve Yerkes, second baseman with the Chicago Nationals, was released tonight to the Indianapolis club of the American association. Yerkes, a former Pittsburgh Federal, is under a Federal league contract calling for $6,500 a year. His release is taken to mean that Larry Doyle will be in condition to play second.

Pirates Let Two Go.

Pittsburgh, April 10.—The release of Joseph Coffindaffer, pitcher, and William Ratsch, outfielder, to the Springfield, Ohio, club of the Central league was announced by officials of the Pittsburgh National league club today. The two men will report to the Springfield club at once.

Egan Punishes Graves.

Boston, April 10.—Joe Egan of Boston was given the decision over "Kid" Graves of Milwaukee, in a bout here tonight. The contest, scheduled for 12 rounds, was called off at the end of the tenth to prevent furher punishment of Graves.

English Fighter Loses.

Buffalo, N. Y., April 10.—Matt Wells, the English veteran, was defeated by Jimmy Duffy, of Lockport, in ten rounds here tonigfiht. Duffy was the aggressor throughout.

BASEBALL TO OFFER RELIEF FROM WAR

National Pastime, Which Starts Wednesday, Awaited With Great Interest.

Despite the fact that Uncle Sam is putting on his boxing gloves for what may come, it will take more than war to make him forget that the big league season again is here. Uncle Sam can do many things at the same time, and while he will keep both eyes open for submarines from 3 to 6 p. m. next Wednesday he will find a few moments to take sidewise glances at the bulletin boards showing how the sixteen major league clubs are faring in their first skirmishes of the 1917 season.

According to statements by Presidents Tener and Johnson of the National and American leagues respectively, the two major leagues established new attendance records last season. Baseball interest runs just as high this spring as it did last and there is far more interest than marked the springs of 1914 an 1915, the Federal league years, hence this should be a banner year.

In the opinion of many experts the awakened interest in baseball is directly due to the fact that the old championship mcahines of Connie Mack and John McGraw are now only memories and that in the last three seasons three different dark horses won the National league pennant.

The Athletics of several years back composed the greatest team baseball has yet known, but they did more to put a damper on interest in American league ball than anything which ever hit the Johnsonian circuit. While Mack killed Amercan league ball in Philadelphia by breaking up his great team, he revivified interest in the American league.

When it was only a uestion as to whether the Athletics would win the pennant by ten or fifteen games there could be little interest in New York, Cleveland or St. Louis. When one knows before a ball is pitched that the best thing you can hope for is second place he cannot arouse himself to the zenith of excitement.

This spring six clubs in the American league feel they have a chance for the pennant—New York, Chicago, Boston, Detroit, St. Louis, and Cleveland, while Griffith of Washington believes he has an outside chance and Mack of the Athletics says this is the year he will come back.

The fans in New York never had the confidence in a local American league club that they have this spring. Chicago writers are telling their readers it will be a miracle if the White Sox do not come through this year. Detroit, after being thwarted twice by a few games, is now convinced that some of Jenning's young pitchers have sufficient experience to bridge over the few games which cost the club the pennant in 1915 and 1916.

In St. Louis the fans believe the Browns did not show true form until Jones' men made the great midsummer dash, and feel the club will start in this spring where it left off last fall. Cleveland, like New York, believes only injuries beat the club out of the American league pennant last year, while Boston still has implicit confidnce in its twice world's champion Red Sox.

I' is most natural therefore, that with so many entries entertaining championship hopes the interest should run high. These clubs should run neck and neck right to the finish as they did last season.

In the National league the fans have been told so often that the Giants will have the pennant won by July that they now are beginning to doubt it—outside of Manhattan and The Bronx. The interest in the National league must of necessity hinge on the Giants. Though Brooklyn is the league champion, every baseball man knows that last fall the Giants stood head and shoulders above any team in the National league.

During midwinter Stallings, Moran and Robinson were gloomy in discussing the National league race. With their teams on the field they have taken on fresh hopes. After what Stallings accomplished in Boston in 1914 he is not likely to concede any team the pennant. With all his players signed except Mowrey, and Fabrique a bright prospect, plugging his hole at short, life has taken on a brighter hue for Robby of Brooklyn. No sooner did Moran of Philadelphia get his first glimpse of Alexander than he forgot all about how those four straight defeats at the hands of the Giants on the Polo Grounds last fal' beat hi mout of the 1916 pennant.

Even in Chicago they have taken new hope since the appointment of Fred Mitchell as manager, while Cincinnati expects Mathewson to work some sort of a miracle there. As St. Louis fans have purchased the Cardinals they naturally will be greatly interested in their investment. The Pittsburgh lineup is unlikely to bring much glee to Pirate fans.

Three teams given little consideration in the spring dope won the National league pennant in 1914, 1915 and 1916. Where the pennant changes so often it freshens interest, especially after the Cubs and Giants had so long bossed the league. For that reason fans in other cities are expecting another miracle and are overlooking the great strength of McGraw's team.

Carmania Sighted No Submarines.

New York, April 10.—The Cunard liner Carmania arrived here today from a European port, bringing 38 passengers and 1,800 sacks of mail. Her officers reported that no mines or submarines were encountered.

CONVERSION OF OTHER PLANTS INTO MUNITION FACTORIES

Discussed With Officials of the Army Ordnance Bureau.

Washington, April 10.—The problem to munition factories if the need arises to munition factories if the eed arises was discussed by representatives of a score of munition companies today with officials of the army ordnance bureau and the bureau of standards. The company representatives pledged their co-operation in any steps the government might decide to take and suggested that private plants be put to work preparing machinery for turning out heavy artillery shells and army service rifle shells.

Representative Tilson of Connecticut, author of the appropriation of $1,500,000 passed by the last congress to equip private plants for munition making, was present at the conference and urged that a much larger appropriation for the purpose be requested immediately by the administration.

MAN'S DEATH FOLLOWED QUARREL WITH SHOPMATE

Albert Jacquemin of Torrington the Victim—Antagonist Held.

Torrington, Conn., April 10.—Albert Jacquemin, 23 years old, an employe of the Turner and Seymour Manufacturing company, died here tonight, presumably from injuries received in an exchange of blows with Stephen O'Shaughnessy, a fellow worker, this afternoon. The men were quarrelling in regard to some work they were doing when O'Shaughnessy, it is said, struck Jacquemin a heavy blow on the face. O'Shaughnessy is being held by teh police pending the outcome of an investigation by Coroner Herman.
