NEWS FROM OTHER PARTS OF EUROPE!

We are indebted to a young friend for a a copy of the Cincinnati *Enquirer* of Sunday, containing the following highly important and interesting news from Europe.

PHILADELPHIA, August 19, 9 P. M.

Both lines were cut between New York and this city to-day, which caused great confusion in the report of the foreign news, and prevented the receipt of the details until the express arrived with papers.

IRELAND.

The confederates, as soon as the proclamation of the Queen, reepecting the *habeas corpus* act, was issued, returned to tne southern strongholds.

The first encounter was with the police near Multyhone. The police retreated to a house, where a siege under Bryan commenced, but the insurgents were dispersed by cavalry.

All the southern counties are proclaimed.—Several leaders were arrested and taken to Dublin.

The repeal clubs in Dublin are dissolved.

The barracks at Thurles was attacked by the insurgents, who were almost immediately repulsed.

At Ballingarry a battle was fought between the insurgents and royalists. The former showed no concerted action. The royalists fought from a house, and each man took deliberate aim. They had two hundred and fifty rounds of catridge, which told dreadfully.

The Priests came in praying permission to bury the dead and remove the wounded.

The Tory papers say that O'Brien fled, but through other sources it is understood that he behaved bravely, received many wounds, and strove gallantly to rally his comrades.

The Irish doubtless acted travel, making bare their bosoms to shots in the sacred cause, but cool discipline had the advantage over raw levies, without practised military leaders.

The London Times says Dillon was wounded, and Brien had a narrow escape; his coat and neckcloth both perforated. He first summoned the constabulary to surrender, and negotiations failing, he gave orders to commence the seige of the house, shouting, "Blaze away, boys, slaughter them all." He is now probably concealed near Cullam, but Dillon was taken to Dublin.

The details are full concerning skirmishes, and it is impossible to digest them so as to give an intelligent report by Telegraph.

The Irish everywhere finally yielded and fled, and the triumph of the Government at present seems complete. A cloud evidently hangs over the hopes of Irishmen.

Gen. McDonald has command, but Viscount Harding reached Dublin and assumed the chief command if his services were required.

There are now 50,000 British troops in the field.

Billingarry was peaceful, but the withdrawal of the troops will be the signal for renewed outbreaks.

The search for arms was vigorously prosecuted.

The Irish were yielding to stern necessity.

The European Times says, it is evident that the Irish movement has totally failed, and the most sanguine of the confederates must now be aware that there never existed the smallest chance of success, or of the insurgents coping with the British arms.

Accounts from Dublin up to Friday night, state that all was quiet in the disaffected districts.

O'Brien and other leaders escaped.

MISCELLANEOUS.

FRANCE.—Lamartine was before the investigating committee, when it was proved that he was in no way concerned in the late outbreak.

The Assembly, by a vote of 691 to 2, rejected Prodham's plan for seizing two-thirds of the landlords' incomes, and declared it an odious attack on the principles of public morality—thus striking a death blow to communism.

The Danes had re-commenced the war with Germany; all negotiations having failed.

The Germanic Diet rejected the independence of Posen, refused to engage on the side of Poland.

The Emperor of Russia avows that the military preparations are defensive only.

It is rumored that the Emperor of Austria had abdicated.

Wallachia and Moldavia continue agitated.

The provisional government fled from Beucherist.

The Turks have landed at Galica.

INDIA.—The Sikhs have won two victories over the Moolton rebels.

Portugal continues tranquil.

The Sugar duties bill passed the British Parliament.

FAILURES.

Ellston & Bevan, of London have failed, also Dunlap & Rowan, of Glasgow.

COMMERCIAL.

LIVERPOOL, August 5th.

Funds were quiet at London yesterday, but after the receipt of the Irish news, Consols rose to 86¼@ 86¾, and were stiffened by a report that France would not interfere with Italy.

The sales of Cotton during the week comprise 32,000 bales.

Wheat has advanced 1s per 70 lbs.

Corn has declined 2s per quarter.

The Provision market is steady at full prices.

Rice 20 to 23s per cwt.

Tobacco unchanged.

AGUE AND FEVER OR CHILLS AND FEVER

CURED BY SMITH'S TONIC SYRUP.

THE proprietor of this celebrated medicine justly claims for it a superiority over all other remedies ever offered to the public for the safe, certain, speedy, and permanent cure of Ague and Fever or Chills and Fever. He refers to the whole Western country to bear him testimony to the assertion that, in no case whatever will it fail to cure if the directions are strictly followed and carried out, and with this assurance he is fully prepared to warrant a cure in all forms whatever of Ague and Fever or Chills and Fever whetaer of short or long standing; and all persons selling it are hereby authorised to return the money to persons who may have used it as directed when it shall have fairly failed to cure.

This remedy has now been extensively used throughout the West and Southwest for the last seven years and within that period has permanently cured **200,000** cases, in all its varied forms, many of which had been of from one to three years standing, and had resisted all the usual remedies known in this country, and in no case did this medicine fail where the directions were followed properly. Such is its invariable success that a larger number of respectable practitioners of medicine, in various parts of the country, use and prescribe it in preference to Quinine and all other rumedies.

The public are assured that it is not anly certain in its effects as a Tonic, but, being composed entirely of vegetable medicines, is perfectly innocent in any cases or circumstances, and may be given to females, intants, and all persons of debilitated and delicate constitutions without the least fear whatever of any unpleasant effect.

This medicine is composed of articles of tea primest and purest quality, and is always made by the proprietor in person, after the established forms of pharmacy, (which cannot be said of the many Tonics now flooding the Western and Southwestern country,) and in this respect alone is rendered greatly superior to the remedies usually prepared and sold in the country.

By its aperient and powerful diaphoretic properties, added to its tonic qualities, it is rendered eminently superior to quinine and other remedies as a general and popular Tonic in all cases whatever where Tonics are proper to be administered. The proprietor, therefore, would respectfully invite practitioners add the public generally to give it but a fair trial, and they will then be convinced of its great superiority over all other remedies now in use for the purposes specified.

Persons living in districts of country subject to Ague and Fever, Chillt and Fever, or Bilious Fevers would do well to keep a supply of this valuable remedy always on hand, especially if medical aid cannot be conveniently had.

The proprietor has now in his possession hundreds of certificates of its value, given by persons who have used it, with many letters from merchants who have sold it largely in their country, as well as from many respectable practitioners, who have used it in preference to other remedies, attesting its value. For the satisfaction of those not aaquainted with its valuable curative powers the following letters and certificates are given from the many in his possession:

CINCINNATI, July 20, 1844.

MESSRS. WILSON, PETTET, & SMITH—Gentlemen: The author of this is the meagre subject who presented himself at your counter, on Friday, the 12th inst., under a complete state of debility from fever and ague. You will recollect I took a bottle of Smith's Tonic Syrup, at your earnest solicitation, and, being so very weak, I did not wish to take any medicine until I got home when I could receive proper attention. I got home on Sabbath morning in time to take two doses before my shake came on. It came on at its usual hour (10 o'clock, A. M.) as hard as usual, but it lasted but a short time. The fever also left me a great deal sooner than usual. In the evening I resumed the Tonic, as directed, and only had time to take three doses until bedtime. Next morning, after breakfast, I continued taking it until the hour of ague and fever had passed, when I dropped it, and was entirely free from the disease. I did not think it possible for medicine to restore a person as fast as the Tonic restored me. The greatest difficulty now is to govern my appetite. I do think, without exception, it is the best medicine I ever took.

Most respectfully, E. G. MAGUIRE.

PARIS, Tennessee, September 11, 1840.

MESSRS. WILSON, PETTET, & SMITH—Gentlemen: I wrote you, four days ago, requesting you to send me more of the Tonic Syrup. I am now entirely out, and have borrowed two dozen. The demand for it is very great. In every instance where it has been tried it has effected a cure. If you have not started the parcel for me before this reaches you, eight or ten dozen of it will not be too much to send.

Respectfully, &c., T. COONEY.

MOUTH SANDY, Tennessee, August 24, 1840.

MESSRS. WILSON, PETTET, & SMITH—Gentlemen: You will please send me two dozen Smith's Tonic Syrup. I cannot close my letter without informing you that, out of the three dozen of the Tonic Syrup I bought of you this last spring, I have only two or three bottles now on hand. It is called for almost daily and it has never failed in the first instance of producing an effectual cure. It is the best medicine for the cure of chills and fever or ague and fever that I have ever seen. Your early attention to the above order will much oblige your friend. JAMES T. EDMUNDS.

We, the undersigned, do hereby cheerfully certify that we have sold largely of Smith,s Tonic Syrup in our neighborhood, and in very many cases have personally seen and known it used among our customers and from what we have seen and know of its use, do without hesitation, recommend it to our friends and the public generally as the most speedy, permanent, and innocent remedy that we have ever seen or heard of in the cure of Ague and Fever or Chills and Fever, and we do believe that it will in no case fail to cure if the directions are properly followed.

Dr. Champion's Vegetable Ague Medicine!

A SAFE and warranted Cure for Fevers of every description.

Also, Dr. Champion's Vegetable Anti-Billious, Anti-Dyspeptic, Purifying and Cathartic Pills, possessing four important combined properties for the cure of Diseases, carefully and correctly combined, one article to assist the effect of another for the benefit of the Health of Mankind.

These pills contain the four leading properties for the cure of diseases. There is no chronic affection in which the Liver, the Stomach, the Bowels or the blood is not concerned. Therefore, these pills are carefully and correctly prepared to meet those several indications. In all Bilious complaints they cure by acting upon the liver, and carrying off the redundant, or excessive bile; and at the same time exciting the liver into full action. In dyspepsia, they carry off the accumulated mass of acidity, and correct the stomach and digestive organs. It is a fact well known and generally acknowledged, that a great part of chronic diseases depends upon impurity of the blood. These pills possess the power of purifying the blood, even in the most obstinate cases of scrofula or flaccid temperament; and as a cathartic, they act gently upon the bowels, removing all unhealthy accumulations. They are mild in their nature, and may be used with perfect safety in all ages, from infancy to old age. For sale by

EVANSVILLE, IND.

DRY GOODS AT WHOLESALE.

TO Country Merchants.—I take this method to inform Merchants visiting this City, that I am in receipt of one of the largest and best assorted stocks of Goods ever brought to this City. Among which I enumerate Ticks, Demins, Drills, Stripes, Janes, Plantation stuffs, Osnaburgs, Wickings, Waddings, Battings, Cotton Yarns, &c.

My assortment of brown and bleached Cottons is, I believe, the most complete west of the Alleghany mountains, comprising all the most desirable styles selected from the best manufactories. My bleached Cottons are mostly from the Lowell and Waltham Factories, and are eecidedly superior to any other goods either foreign or domestid, offered in this market With assurance that my terms and prices are more avorable to buyers than at any other house in this city. Very respectfully,

may 16 OLIVER LADD.
