Proposals for American Water-Rotted Hemp.

NAVY DEPARTMENT,
Bureau of Construction, Equipment and Repair,
March 1, 1849.

UNDER the joint resolution of Congress, approved May 9, 1848, entitled a "Resolution respecting contracts for hemp for the use of the American navy," sealed proposals will be received at this bureau, or the United States hemp agencies at Louisville, Kentucky, or St. Louis, Missouri, (to be forwarded by them unopened to this bureau,) for delivering under contract, for a term not exceeding five years, *the best quality of American water-rotted hemp*, in quantities of five tons and upwards, the ton to consist of 2,240 pounds. No bid will be considered at a higher rate than two hundred and forty-one dollars per ton. The proposals to be opened on the 20th day of May next. The department will then determine whether the contracts shall be awarded. No delivery will be required sooner than the 1st day of January, 1850.

The said hemp must be equal in quality to the best foreign hemp; and in all cases of equality of bid, the contract will be given to the hemp grower. The quantity required annually will be about 500 tons.

The said hemp must be thoroughly dressed, cleaned, free from shives, and must not lose more than sixteen per cent of tow and waste when hatcheled to the satisfaction of the inspectors ready for spinning. Its strength must be such that a rope of one and three-fourths of an inch in circumference, made from twenty-one yarns, and spun and tested by the inspectors, or by their direction, will bear at least 4,200 pounds, and its length, color, and other properties must be entirely satisfactory to the inspectors, or the chief of this bureau, or it will not be received; it will be inspected and tested at the respective places of delivery.

The respective United States hemp agents to certify bills for the hemp which may pass inspection and be received by them, according to the contracts which may be entered into; ninety per cent. of which bills to be payable within thirty days after their presentation to such navy agents as may be agreed upon and named in the contracts.

Persons offering must state the price, in words and figures, (clearly and legibly,) asked per ton of 2,240 pounds, when delivered, inspected, tested, approved and received by the said hemp agent, and payable as above specified.

Every offer must be accompanied, as directed in the act of Congress making appropriation for the naval service, approved 10th August, 1846, by a written guaranty, signed by one or more responsible persons, (to be certified by some official personage,) to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within fifteen days after the contract is submitted for signature, with good and sufficient sureties, to furnish the supplies proposed. No proposal will be considered unless accompanied by such guaranty.

Bonds with two approved sureties in one-half the estimated amount of the respective contracts will be required, and ten per centum in addition will be withheld from the amount of each payment to be made, as collateral security for the due and faithful performance of the respective contracts, which will on no account be paid until the contracts are complied with in all respects according to their terms.

Offers must be made in strict conformity with the terms of this advertisement. The persons offering must state *by which navy agent* they wish their bills paid, if their offer is accepted, and by *which hemp or navy agency* they wish to have contracts and bonds sent for their signature; and if they should not be executed within fifteen days after they are received by the agents, the department will consider itself at liberty to accept other offers in place of those thus neglected.
