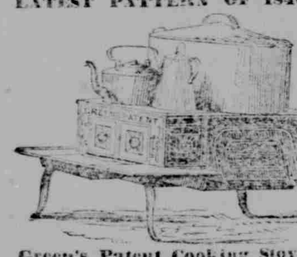
# HARDWARE.

LATEST PATTERN OF 1846.



**Green's Patent Cooking Stove.**

THE subscriber has received, direct from the manufacturer in Cincinnati, a lot of Green's new patent Cooking Stoves, which he will sell at the smallest possible advance on the Cincinnati price. These Stoves are very highly recommended, and numbers who have used them in Cincinnati and elsewhere, give them a decided preference over any other stove in use. In point of convenience, despatch in cooking, weight of plates, and economy of fuel,—and especially in baking,—it is believed by many to have no equal. Let those in want of such an article, at least call at my store and look at Green's Patent, before purchasing any other.
S. WAINWRIGHT,
36-tf Main street, Indianapolis.

**DOUBLE OVEN COOKING STOVE.**

THE subscriber has just received a lot of the above stoves. They are decidedly superior to any stove ever invented. Having two ovens, different articles can be baked at the same time, which could not be well baked in a single oven. This tends to great economy in fuel. At the same time all other culinary operations can be as well or better performed than in any other stove in market. Those in want of such an article are invited to call and examine this before purchasing any other. This is all that is necessary to secure for it the preference, for seeing is believing.
17 S. WAINWRIGHT.

# CLOTHING, &c.

TO TAILORS.

THE subscriber takes this method of making known to the trade, that he has invented an almost entire new system of garment cutting upon the principle of actual measurement.

In introducing this system to the trade, the subscriber has spared himself the mortification of having to combat objections to the use of any apparatus or machinery of any kind for the purpose of securing the measure—having reduced the plan of measuring to the simple tape alone.

To describe this system in all its points and bearings, would occupy more time and space than he can reasonably devote. Feeling assured that the accompanying testimonia cannot fail to satisfy even the most incredulous of its perfection and decided superiority over all others heretofore introduced to the trade, he is located in the city of Indianapolis, where he would be happy to impart instructions in the above system to all who may favor him with a call.

To young men who are fond of travelling he would say that he is prepared to furnish the work upon terms that would yield them a handsome profit. He will dispose of State rights, and furnish the work with all the necessary instructions so that the purchaser can readily impart instructions to others.

Those wishing instructions in the art of garment cutting would do well to call and spend a few days with him, as it would afford him a better opportunity of giving satisfaction.

The price of this system with oral instructions will be $15 00. To those who order it by mail, a copy with satisfactory explanations will be furnished at $20 00. Address J. KNOWLAND,
Indianapolis, Ind.

CERTIFICATES.

Extract of a letter, dated Cincinnati, Oct. 8th, 1846. The writer is acting as foreman and cutter for Mr. Shaninger, on Fourth street, who, it is said, does the largest and most fashionable business in that city.

MR. J. KNOWLAND—*Dear Sir*:—Yours of Sept. 29th is received, in which you ask me to inform you by return mail with what success I have used your system. In answer, I would say, sir, that it affords me great pleasure to say to you that your system is in every way equal if not superior to the character you gave it when here. I have used nothing else since you were here, and I am positively certain that I shall never dispense with it for another. I have not had a single coat to alter since I have been using your system; nor do I have the least dread that I shall ever again be troubled upon that point. I have only to add, go on, and success must and will crown your efforts. Respectfully, ALEX. BOYD.

NEW ALBANY, Ind., June 4th, 1846.

We have never before given a certificate in support of any system of garment cutting heretofore invented; from the fact that we never saw one, after having it a trial, that we thought worthy the patronage of the trade, until we tried J. Knowland's; which we have found upon fair trial to be as near the point of perfection as it is possible for the art of garment cutting to be rendered. By this system, we can fit even the most unaccommodating forms with the utmost precision. We would say to Crack Tailors that you can never be complete masters of the science of garment cutting until you secure the above system. HUNT & LAFTING.

MADISON, Ind., Jan. 16, 1847.

We purchased of Mr. J. Knowland, some time last summer, a copy of his new system of garment cutting. We have tested it faithfully, and with the greatest pleasure, recommend it to the trade as the only system now in use, that we have seen, worthy of patronage. It is all it professes to be. B. N. LANHAM,
O. H. ONG,
M. APPLE.

LOUISVILLE, KY., July 15th, 1846.

MR. J. KNOWLAND:—It gives us great pleasure to be able to render our aid in favor of the value of your system. Hundreds in all ages, of the trade have labored in vain to win the same achievements in the art of garment cutting that you have gained. Nothing is wanting to bring your system into universal use among the trade, but a knowledge of its merits; and that it may speedily find its way amongst all who can appreciate its merits, and that you may reap the reward of your labors to advance the interests of the profession, permit us to subscribe ourselves, Yours, &c.,
Respectfully, SHERMAN & COLLINS.

Extract of a letter, dated LOUISVILLE, KY., Dec. 9th, 1846.

"I have used your system upon many forms that were never before fitted, and succeeded beyond my most sanguine expectations. That your system may continue to spread amongst the trade, is the sincere wish of your old friend, J. B. WALKER."

Extract of a letter, dated PARIS, KY., Dec. 3, 1846.

"I believe your system to be the best one *now in existence*. C. C. DAUGHERTY."

Extract of a letter, dated BARDSTOWN, KY., Dec. 9th, 1846.

"All who tempt your system in this section of the country, have found it most perfect, and have completely revolutionized the trade in this part of Kentucky. To deprive us of the knowledge of your system, and to prevent us from the use of it would be the means of destroying our business to a great extent. MOORE & HEFNER

LAFAYETTE, Ind., Dec. 20th, 1846.

Mr. J. Knowland was in this city teaching his system. It was purchased by nearly all the cutters in this place. He cut three coats by his system for my customers, and they pronounced it to assure you. I saw a number of other coats that he himself and others cut by the same in this place, and they all, without a single exception, were complete in all parts. Respectfully,
R. C. NABB.

The above is an extract of a letter of introduction to D. Preston of Logansport, Ind.

CAMBRIDGE CITY, Ind., Nov. 20th, 1846.

Knowland's system of cutting is amongst some fifty or sixty different works on garment cutting that we have purchased and tested, with a view to find correctness of the discernable necessity of having garments. We have found no relief from those difficulties until we received instructions in the above system; since which all those troubles have vanished. We therefore with the utmost confidence recommend it to the trade generally.
Respectfully, CUSTER & HAMILTON.

INDIANAPOLIS, Ind., Jan. 30th, 1847.

This is to certify that Mr. Hunt, who has been instructed by J. Knowland, has proved itself in my hands to be fully equal to what it is recommended to be, and I am bold to say, that to supercede it with another, is impossible. No one, after getting a correct knowledge of it would dispense with the use of it for any reasonable amount. 7-tf J. C. REED.

**NEW TAILOR SHOP.**

THE subscriber would respectfully offer his services in the above business to the citizens of Indianapolis, and the public generally. His shop may be found two doors south of Mr. Peck's store, on Meridian street, where he would be happy to have his friends call and see, and judge for themselves. He would also refer to those gentlemen he has dressed during the last year, and ask them how he has succeeded in pleasing them, as he feels confident that he can please all who may favor him with a call. He would say to those who want a good coat, that he has just received a large and well selected assortment of cloths, cassimeres, satinetts, and vestings, which he will make up in the best manner, and in a style not to be surpassed by any house in the city, and at as low prices as any other establishment can afford, who do not employ the best workmen. Those who know him, know that he does not boast of his ability to please, and in a style not to be surpassed any where. None but the very best workmen will be found in his employ. Cutting of every description done at short notice, and warranted to fit. Many articles of country produce will be taken in exchange for work.
JOSEPH KNOWLAND.
