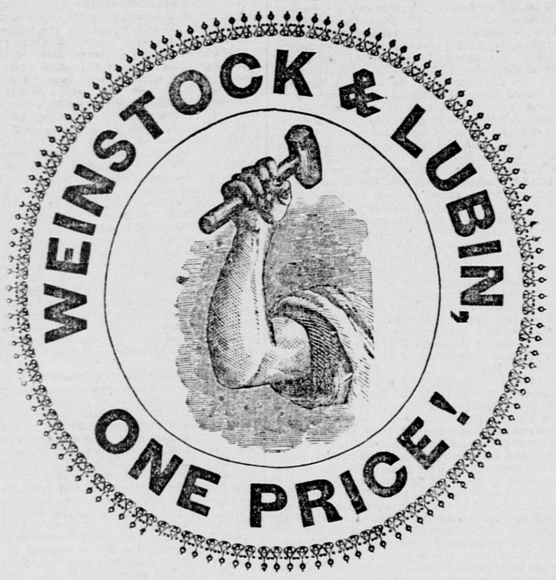
THE MECHANICS' STORE.



IT'S AN ILL WIND

—THAT—

BLOWS NOBODY ANY GOOD!

So say Certain Grasping Dealers, who have taken advantage of the recent advance in prices of goods.

For not alone have they added on the actual advance in prices, but they have taken good care to add an additional 10 or 15 per cent., even on such goods where no advance has really taken place. They propose, where it is possible, to bulldoze their customers into paying big prices for inferior goods. The newest dodge is to show hesitating customers Circulars, said to come from Manufacturers and Jobbers (but really gotten up for the purpose of deception), dwelling upon the enormous advances in prices, etc.

No doubt this so-called shrewd business trick would succeed very well, and would probably help to fill the coffers of our smarter competitors. But we are just mean enough to expose these little sharp practices, and just stupid enough to stick to the golden principle of laboring for the interest of our patrons, by being the first to reduce when the market declines, and the very last to advance when the market goes up.

Of course, our so-called shrewd merchants call this unwise business policy, and say they don't believe in it worth a cent.

It seems, however, that the public does not agree with them, but sees fit to appreciate our business stupidity. The result is, that notwithstanding the general cry of dull times, it is a fact that for the same season of the year our trade is livelier at present than ever before.

This encouragement on the part of the public cheers us on, and only makes us so much more determined to protect their interests, by keeping all advances down as much and as long as possible. For this week we have the following inducements to offer in our

Assembly Bill No. 6—An Act to transfer the records, papers and business of the Courts existing on the 31st of December, 1879, to the Courts now existing therein. Referred to the Committee on Judiciary.
