# DENTISTRY.

**DENTAL NOTICE.**—DR. J. WEST, Practical Dentist, No. 112 St. Charles street, near Poydras street.

J. W. would call particular attention to his method of constructing ARTIFICIAL TEETH. They are made perfectly natural in form and shape, set with false gums. The original form and expression of the mouth and face is restored, with a clear and distinct articulation of speech. This is effected by having the inside of the teeth and gum of a natural form, to which the tongue is readily adapted. This prevents that hissing sound so often observed in persons wearing artificial teeth. The Doctor has been practicing in this city fifteen years, and feels confident that he will give satisfaction to those who may honor him with their patronage. All persons desirous of obtaining his services, would do well to call and examine his specimens.

**IMPORTANT TO COTTON PLANTERS**—BY which their Incomes must be Doubled—The undersigned has invented and obtained letters patent from the United States for the arrangement and combination of machinery for converting Seed Cotton into Yarns by one continuous process, from the Gin through the preparation and spinning machinery, until it is ready for shipping or weaving. The saving of COTTON WASTE will be at least Ten Per Cent.; and as I exclude in my process the use of machinery to press the cotton into bales, or its handling at all, and those to open and disentangle it, which are very destructive in their operations on the fibre, but are indispensable to those of ginning and spinning as separate manufactures, my YARNS are made of unbroken fibre, and hence will be fifty per cent. stronger, will command advanced prices, and they will distance all competition in any market.

The undersigned is prepared to dispose of privileges to use his patent; and Planters will be informed as to terms, with complete instructions how to use it, how to obtain the best machinery, and all other necessary particulars, on application addressed to me here, or on consultation with me at my rooms, corner Front and Dauphin streets, up stairs.

**DOUBLING THE INCOME OF COTTON PLANTERS.**

*PATENTED IMPROVEMENT IN THE MANUFACTURE OF YARNS.*

Employing to Spin the Crop up but about one-fourth the number required to raise it—this number consisting of children of six years of age and above, and women unfit for plowing or picking cotton.

I am now prepared to furnish Planters with this NEW COMBINATION OF MACHINERY, inclusive of the STEAM ENGINE, if necessary—namely: The Gin with Lap Appendage in one Machine, and the Sequent Machines of the Spinning Series, and to have all arranged in the Spinning Room on the plantation, complete, with great dispatch. Also, competent Spinners.

ONE-HALF OF THE NEW PORTION OF THE INCOME the very first year, will MORE THAN PAY for the whole Machinery, inclusive of the Steam Engine and the Spinner's Wages.

My IMPROVEMENT, in its results to the Planter, is equivalent to his having purchased of me a plantation, negros, etc., more productive than those he now works; and while his Spinning interest will prove his diversion, it will be exempt from the cares and anxieties inherent to Planting, Gathering and Bailing up a crop.

MY TERMS.

MACHINERY is a CASH ARTICLE, but for good acceptance I can grant reasonable facilities; and for the RIGHT OF THE PATENT, one-fourth to be paid to me each of the first five years of the excess the Yarns bring over Ginned Cotton, with a contract insuring payment should the plantation change proprietors.

Propositions from Planters may now be made, and to know cost of Machinery in their particular case, they must not omit to state what has been the number of pounds of their crops—or how many pounds of Yarn a day they would Spin.
a22tf GEO. G. HENRY, Mobile, Ala.

**GILMAN'S PNEUMATIC STEAM GRANULATOR** is now in use on seven plantations, comprising the largest and smallest classes; on some of which it has taken off three crops, with a combination of the following advantages over any other known application of steam to a steam Granulator or an entire steam train:

1. It requires but a pressure of 30 pounds of steam to "strike a Battery."
2. It requires no additional water for the boilers.
3. Its pipes never "scale" or require cleaning.
4. Its heating surface is equally distributed throughout the body of Juice, so that an even and hard grained sugar is made.
5. The steam being all condensed and returned to the boilers direct, no additional boilers are required where the sugar-mill boilers are large and Gilman's Bagasse Furnace is used—one pair of cylinder boilers 30 inches in diameter and 24 feet long, with Gilman's Bagasse Furnace, now furnish steam to grind the cane and run the Pneumatic Battery, making 10 hhds. sugar per day.
6. The Pneumatic Battery or Granulator is put in operation at much less expense to the planter than any other steam battery or application of steam to making sugar, in part or entirely by steam.

For further information, a pamphlet with full specifications and drawings will be furnished on application to the subscriber, who is now prepared to make contracts for the Battery, Evaporators or Clarifiers, to be used with direct or exhaust steam.

**B. A. FAHNESTOCK'S VERMIFUGE IN VIRGINIA.** Richmond, Va., Feb. 23, 1854.

Messrs. B. A. Fahnestock & Co:

Gentlemen—Mr. James R. Ratcliffe, a resident of Henrico county, near the city of Richmond, Va., made the following statement to me:

A negro boy, two years old, was very sick; I presumed the cause to be worms. He became so much prostrated that I despaired of all hopes of his recovery, and, as the last resort, I concluded to try B. A. Fahnestock's Vermifuge, and purchased of O. A. Strecker one vial, of which I gave him a teaspoonful morning and night, for three days in continuation. In less than three hours after I had given him the first dose, the child commenced to pass worms of all sizes, from six to ten inches long, to the astonishing number of from four to five hundred, and the boy is now perfectly well.

I certify with pleasure to the truth of the above statement.

**MEDICAL HOUSE,** No. 82 Customhouse street, near Royal street—For the Cure of Old Chronic, Mercurial, Syphilitic and all Private Diseases, without Mercury, hindrance from business, or exposure to friends, and a cure guaranteed in all cases.

The unparalleled success which has attended Dr. James' practice in all parts of the United States and Europe—the many remarkable cures he has effected, which were pronounced incurable by the most eminent physicians, justifies him in offering his services to the confidence of the unfortunate. The following are some of the diseases termed "Private," and of which, in conjunction with newly discovered Remedies, Dr. James permanently eradicates, namely: Syphilis, primary, secondary and tertiary, Strictures, Urethral Discharges, Gleet, Gonorrhea, Nocturnal Emissions, Periodical Afflictions of females, however complicated they may be, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, Rheumatism, Hydrocele, Cancers, Ulcers, Tumors and all Diseases of the Skin.

Dr. James would also call the attention especially of those who have privately and improperly injured themselves in that secret and solitary habit which ruins the body and mind, unfitting them for either business or society, viz: Constitutional Debility or Impotency. The following are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of Back and Limbs, Pain in the Head, Dimness of Vision, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervousness, Irritability, Symptoms of Consumption, etc. Mentally, the fearful effects on the mind are more to be dreaded, Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, etc., are some of the evils produced.

All persons afflicted with any of the above symptoms should not fail to call on Dr. James and be at once restored to perfect health; let no false delicacy prevent you, but apply at once and save yourself from the awful and dreadful consequences of this terrible malady.

Weakness of the organs immediately cured, and full vigor restored.

**A SIMPLE SOLUTION OF A SCIENTIFIC MEDICAL PROBLEM.**

**RADWAY'S RELIEF**

Will prevent and cure the most MALIGNANT FEVERS, whether contagious or non-contagious, infectious or simple, with the same safety, rapidity and efficacy, that it drives out and expels from the system the most simple d[illegible] or relieves, as it always does,

THE MOST TORTURING OF PAINS AND ACHES.

Physicians give Calomel, or Blue [illegible] for ninety nine complaints out of one hundred. It is seldom a prescription is given, but that Mercury or Calomel forms the principal part of the same. In fact, it is one of the most popular [illegible] laws among the medical faculty, "that when they do not know what to give a patient, or cannot clearly obtain a satisfactory diagnosis of the disease of the patient, to give Calomel." Now, we contend that RADWAY'S READY RELIEF or REGULATORS—either of them—possesses a greater variety of virtues than Mercury in any form, and is capable of restoring to health where Calomel would consign its victims to death.

FEVERS.

There is in every section of our country, at the present time, a greater prevalence of Fevers than usual. Among the most fatal and general, we notice that

Yellow Fever,
Billious Fever,
Fever and Ague,
Typhus Fever,
Scarlet Fever,
Ship Fever,
Chagres Fever,
Nervous Fever,
Congestive Fever,
Brain Fever,
Bone Fever,
Long Fever, etc.,

Are the most prevalent. The regular faculty in their treatment of Fevers, make but little progress. The same fearful loss of life follows the present practice as in the "good old times," when to be sick, with a pain in the toe was deemed sufficient "to lay the victim up for a week."

PREVENTIVE.

The experience of Dr. Frederick B. Page, of Edwards' Depot, Miss., with RADWAY'S READY RELIEF, as a preventive of Yellow and other infectious Fevers, together with the experience of hundreds of people who have been cured of the most malignant Fevers, Dysenteries, Cholera and other dangerous diseases, should induce every planter to keep a stock of this great remedy always on their plantations. With RADWAY'S READY RELIEF and REGULATORS, you will save the lives of your people. Sudden death, either by pestilential diseases or organic derangement, will never occur when the human system is under the life-renewing influence of Radway's Ready Relief and Regulators.

We refer the reader to the following extract from a letter written by Dr. Frederick B. Page, to William Rufus Page, M. D., of Norfolk, Va., during the late yellow fever epidemic at that city:

DR. PAGE'S RECOMMENDATION.

There is a popular remedy now much in vogue, for various purposes of health and comfort, which I am disposed earnestly to recommend as a disinfecting agent on this occasion. It is RADWAY'S READY RELIEF, and is much superior to the Eau Sedative of Raspail, so universally used by the French Creoles. It should be used by the nurses and attendants about the sick as a wash for the hands and face—a few drops of it, at the same time, being drank in water occasionally through the day, poor fortifies Pestomac, etc., during the existence of the epidemic. It is a highly refreshing and exhilarating agent, and quite innocent; and if used in season, will save a multitude of lives.

Capt. Shannon, of the bark Jane Shore, says:

METROPOLITAN HOTEL,
New York, August 1st, 1856.

While lying off St. Jago de Cuba, six of my seamen were down sick with the fever; both of my mates and myself were tired out with nursing; one day at dinner I was suddenly seized with pains in my head and eyes, dizziness, giddiness, cold chills, dreadful achings in my bones, and other frightful symptoms of yellow fever. Every moment I felt myself growing weaker, until I was unable to rise from my chair; I then thought that Radway's Ready Relief, which I always carry with me, would be of service to me; I took down a table spoonful and my mates both of them rubbed me freely with it; in fifteen minutes I took another spoonful, and so on every fifteen minutes for six hours. The mates seeing what a miracle the Ready Relief was doing for me, gave it to all the sick men. In six hours after we had taken the Relief, we took large doses of your Pills, and followed them up alternately with the Relief. Every one of us was saved. After this I applied the Ready Relief and Regulators to twenty-seven other men who were seized with yellow fever; every one of them was saved. WILSON SHANNON,
Master of the brig Jane Shore.

RADWAY'S READY RELIEF

is a life-saving and a life-renewing remedy. It has saved life when all other medicines failed, and has checked the most terrible pestilences when all other means proved useless.

In the West Indies and South America, where the regular doctors do not save more than five cases out of twelve, Radway's Ready Relief and Regulators always cures twelve cases of Yellow Fever and all other Fevers out of every dozen. Even in the most infectious places of the tropics, Radway's Ready Relief and Regulators would restore to new life and fresh health every single victim of Yellow, Billious, Typhus, Ship and other malignant Fevers. In Louisiana and Mississippi, the efficacy of Radway's Ready Relief in all Fevers has been effectually tried and satisfactorily proven.

The life-saving powers of Radway's Ready Relief and Regulators is manifested in the most wonderful and satisfactory degree in the treatment of Fevers. Even in our own latitudes it is not uncommon for a physician to lose every third and fourth patient in cases of Congestive, Billious, or Typhus Fevers; under the treatment of Radway's Ready Relief and Regulators not one patient has ever yet died.

In cases of Scarlet Fever Radway's Ready Relief and Regulators have been used in villages where half the children of the place were down sick. Under this treatment, every case would get well, while the doctors would generally lose half their cases.

We refer the reader to an extract from the Pulaski (Tenn.) Citizen, Abraham Watkins, editor:

See Radway's advertisement in another column. His medicines will do to recommend, and we like to advertise such. We have known Scarlet Fever to be cured by his Ready Relief. During the prevalence of this disease at Winchester, in this State, a few years ago, Radway's Relief was used with success in many cases. We have tried it ourselves, and know it will do. [March 7th, 1856.

In cases of Billious Fever, we will guarantee that Radway's Ready Relief and Regulators will cure any case, if taken before the patient is beyond the reach of medicine.

GENERAL NYE'S TESTIMONY.

General Nye, an eminent lawyer in Yazoo City, says that: "I am confident that Radway's Ready Relief saved me from the yellow fever. Whenever I would feel cool chills creeping over me, headache, pain in my head and shoulders, weariness in my limbs, and other yellow fever symptoms, I would take down a table spoonful of Radway's Ready Relief, and a good, large dose of Regulators, and bathe myself all over with the Ready Relief. In a few hours I would be entirely free from the distressing symptoms, and felt myself proof against Yellow Fever and other diseases."

In cases of Ague and Fever, Radway's Ready Relief and Regulators have never, to our knowledge, failed in one instance of breaking the chills, and eradicating every particle of Ague poison from the system. It will prevent those living in districts where the Ague prevails from its attacks.

100 NEGROES IN MISSISSIPPI.

Pierson Money, Esq., one of the wealthiest planters in Mississippi, works over one hundred negroes on the bottom lands of Mississippi, a district of country infected with the Ague. Radway's Ready Relief and Regulators are the only medicines used on this plantation. Before the Ready Relief was used, from twenty to thirty negroes would be on the sick list all the time. Since Mr. Money had circulated the Relief and Regulators among his negroes, he has not lost one hour's work of a negro from sickness. It is impossible for the Ague poisons to remain in the system that is under the influence of Radway's Ready Relief and Regulators.

PAINS AND ACHES.

There is no pain so terrible and fierce in its paroxysm, so cute and severe, so sudden and excruciating in its attacks upon any part of the human system, but that RADWAY'S READY RELIEF will quickly relieve, mitigate, soothe, and remove it.

CHILDREN'S COMPLAINTS.

In case of whooping-coughs, measels, scarlet fever, croup, looseness of the bowels, cholera infantum and cholera morbus, small pox, and all fevers, RADWAY'S READY RELIEF and REGULATORS should be used. Under the influence of these life-giving remedies, your children cannot die, but will live and become strong, sound, hearty and healthy.

There are many families who use no other medicine, or ever think of sending for a doctor. RADWAY'S RELIEF and REGULATORS, for all general disorders, is the only medicine required.

We were called upon the other day by a lady from Sing-Sing N. Y: "Your READY RELIEF and REGULATORS do our family more good than all the physic and doctors we have had for years. If I have the headache I take RADWAY'S RELIEF and one of the REGULATORS—in an hour I am all right; if pain in my bowels, RADWAY'S RELIEF gives me ease and comfort; if rheumatism, I use the RELIEF; if sore throat or hoarseness, I use the RELIEF; if neuralgic pains shoot about my body, I stop them with the RELIEF; if I catch old, I take the RELIEF; if toothache, or earache, or faceache, I take the RELIEF—in a few moments the most severe pains are lulled. If my children fall and bruise or otherwise hurt themselves, the RELIEF removes all pain and discolorations of the skin; if they burn or scald themselves, the RELIEF takes out the fire, and relieves them from anguish. I could not sleep without a bottle of RADWAY'S RELIEF within my reach; so with the REGULATORS, the very moment my stomach or bowels is out of order, one of RADWAY'S REGULATORS is all that I may require to restore my system to order and regularity.

IMPORTANT TO STEAMBOATS, VESSELS, AND MARINERS GENERALLY.

If every vessel that leaves port will lay in a stock of READY RELIEF and REGULATORS, no man will be lost by sickness. You can sail in the most infectious of tropical latitudes with safety, for the Ready Relief is a disinfectant, and kills the infections of disease.

RADWAY'S READY REMEDIES are sold at the R. R. R. Office, 162 Fulton street, New York, and by Druggists everywhere in the country.

ENGLISH,
FRENCH,
SPANISH,
GERMAN or
ITALIAN LANGUAGES;
Or PENMANSHIP,
BOOK-KEEPING,
NAVIGATION,
PHONOGRAPHY, etc.,

in a practical manner, as used in business and every day life, can do so in the shortest possible time, as there are Special Professors and apartments for each branch.

None but the best and most experienced Professors and Assistants will ever be engaged. There are NINE APARTMENTS—a Reception Room elegantly fitted up for classes, so that Pupils are never compelled to their lessons, and an apartment for the Pupils of each Professor; and also, Practising Rooms, so that Pupils taking the full Course in any one of these branches, can have ten hours' practice each day.

All branches are taught as they should be practised in business and every-day life. The English, French, Spanish and German are now the Commercial languages of the world, and the social, literary and scientific languages of the greater part of Europe and America, are daily becoming more important to all persons. Pupils will be exercised daily in Reading, Writing and speaking any language they may wish to learn.

Board can be had with families speaking any of those languages.

No institution in the United States offers as great facilities for the acquisition of the living languages and a practical education. From 300 to 400 attend it annually.

These and other modern languages will be correctly translated at this institution.

No pain or expense will be spared to make all the departments worthy of the confidence of the public.

Twenty or thirty young men will be qualified as Teachers of my system of Penmanship. They will act as agents for my NEW WORK ON PENMANSHIP, and superior STEEL PENS. Young men make from $300 to $800 per month, when qualified to teach. Bad writing will be no objection to applicants, as this can soon be corrected. Energy and industry are needed. There is work enough for hundreds in the United States; and, besides, Mexico, Cuba and South America could employ as many more.

Time required to qualify Teachers, from five to eight weeks. Ordinary course in Penmanship, from one to three weeks. Book-keeping, double and single entry, from four to eight weeks; single entry alone, from one to three weeks. Languages, from three to four months. Phonography, from four to [illegible] weeks.

Planters and country merchants can be able to keep their own books correctly, and understand ANY books in five lessons.

South Carolina,
Missouri,

Ohio,
Michigan,
New York,
Mexico,
And Cuba.

And the applications for the ensuing fall are larger than any previous season.

It depends entirely on its OWN MERITS for support; and while many institutions in the South, liberally endowed by the State, have utterly failed, THIS has continued to increase. It is the INTEREST as well as the duty of all persons identified with the South to sustain its institutions of LEARNING, and educate their children in them.

All persons attend until THEY are perfectly SATISFIED.
