DRUGS AND MEDICINES.

B. A. FAHNESTOCK'S VERMIFUGE IN VIRGINIA. Richmond, Va., Feb. 21, 1854.

Messrs. B. A. Fahnestock & Co:

Gentlemen—Mr. James E. Ratcliffe, a resident of Henrico county, near the city of Richmond, Va., made the following statement to me:

A negro boy, two years old, was very sick; I presumed the cause to be worms. He became so much prostrated that I despaired of all hopes of his recovery, and, as the last resort, I concluded to try B. A. Fahnestock's Vermifuge, and purchased of G. A. Strecker one vial, of which I gave him a teaspoonful morning and night, for three days in continuation. In less than three hours after I had given him the first dose, the child commenced to pass worms of all sizes, from six to ten inches long, to the astonishing number of from four to five hundred, and the boy is now perfectly well.

I certify with pleasure to the truth of the above statement.

VALUABLE PLANTATION AND SLAVES AT AUCTION—The ARDOYNE PLANTATION, on the Bayou Black, parish of Terrebonne, La., with Slaves and Stock of every kind, will be sold at public auction in New Orleans, to the highest bidder, at Banks' Arcade, on the first MONDAY of February next, to effect a partition between the proprietors.

The property consists of over 2200 Acres of Land, inferior to none in Louisiana, heavily timbered, and nearly all susceptible of cultivation, about 700 acres of which are in cultivation; upwards of 80 Slaves, all family negroes; over 50 Mules; a stock of Cattle and Hogs; Circular Saw Mill; Farming Utensils; Mechanics' Tools, with which the plantation is abundantly supplied; Corn and Hay, supposed to be sufficient for the next season's consumption.

The Machinery in the Sugar-House is of the most valuable kind and works well. The quality of the sugar usually made is inferior to none made in the State, and in quantity equal to that of any other plantation in proportion to the number of hands. The growing crop is expected to be about 600 hhds.

J. J. HANNA will be on the plantation during the rolling season, and will take pleasure in showing it to any person desirous of examining it.

The terms of sale are one-fourth cash, (the purchaser to assume the mortgage debt due to the Bank of Louisiana,) and the balance to be payable in equal annual instalments, divided into coupons to suit the vendees, if required, at one, two and three years from the date of sale, bearing interest at eight per cent. per annum from date until paid, and secured by mortgage and privilege on the property sold; possession to be given when the terms of sale shall have been complied with; but the use of the hands, teams, etc., will be reserved for the purpose of preparing for market and removing from the plantation, whatever of the growing crop may still be on the plantation at the time of the sale.

A more particular description will be given before the day of sale.

For further particulars, apply to WM. E. LEVERICH & CO.
JAMES J. HANNA.

MEDICAL HOUSE, No. 82 Customhouse street, near Royal street—For the Cure of Old Chronic, Mercurial, Syphilitic and all Private Diseases, without Mercury, hindrance from business, or exposure to friends, and a cure guaranteed in all cases.

The unparalleled success which has attended Dr. James' practice in all parts of the United States and Europe—the many remarkable cures he has effected, which were pronounced incurable by the most eminent physicians, justifies him in offering his services to the confidence of the unfortunate. The following are some of the diseases termed "Private," and of which, in conjunction with newly discovered Remedies, Dr. James permanently eradicates, namely: Syphilis, primary, secondary and tertiary, Strictures, Urethral Discharges, Gleet, Gonorrhea, Nocturnal Emissions, Periodical Afflictions of females, however complicated they may be, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, Rheumatism, Hydrocele, Cancers, Ulcers, Tumors and all Diseases of the Skin.

Dr. James would also call the attention especially of those who have privately and improperly injured themselves in that secret and solitary habit which ruins the body and mind, unfitting them for either business or society, viz: Constitutional Debility or Impotency. The following are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of Back and Limbs, Pain in the Head, Dimness of Vision, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervousness, Irritability, Symptoms of Consumption, etc. Mentally, the fearful effects on the mind are more to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, etc., are some of the evils produced.

All persons afflicted with any of the above symptoms should not fail to call on Dr. James and be at once restored to perfect health; let no false delicacy prevent you, but apply at once and save yourself from the awful and dreadful consequences of this terrible malady.

Weakness of the organs immediately cured, and full vigor restored.

Remember, "The Medical House of Dr. James" is 82 Customhouse street.

Private and separate rooms reserved. Hours of attendance from 8 A. M. to 8 P. M.

Consultations strictly confidential.

P. S.—Recent cases of Gonorrhea cured in twenty four hours, or no pay.

PORTABLE STEAM ENGINES—FROM 1 to 25 horse power, of the celebrated patent of Hoard & Sons (late Hoard & Bradford,) differing essentially in their economy and durable qualities from engines of any other patent or manufacture, are now in very extensive use in twenty-five States of the Union. Pamphlets, with full description, and letters from 137 different persons who are using them, will be sent by mail on application to the subscriber, who is sole agent in New Orleans.

Hoard & Son being sole proprietors of the patent, they only can furnish or manufacture the engines to which they have given a reputation; and all pretended imitations are frauds upon their purchasers, as they will learn by due experience with them.

DOUBLING THE INCOME OF COTTON PLANTERS.

PATENTED IMPROVEMENT IN THE MANUFACTURE OF YARNS.

Employing to Spin the Crop up but about one-fourth the number required to raise it—this number consisting of children of six years of age and above, and women unfit for plowing or picking cotton.

I am now prepared to furnish Planters with this NEW COMBINATION OF MACHINERY, inclusive of the STEAM ENGINE, if necessary—namely: The Gin with Lap Appendage in one Machine, and the Sequent Machines of the Spinning Series, and to have all arranged in the Spinning Room on the plantation, complete, with great dispatch. Also, competent Spinners.

ONE-HALF OF THE NEW PORTION OF THE INCOME the very first year, will MORE THAN PAY for the whole Machinery, inclusive of the Steam Engine and the Spinner's Wages.

My IMPROVEMENT, in its results to the Planter, is equivalent to his having purchased of me a plantation, negros, etc., more productive than those he now works; and while his Spinning interest will prove his diversion, it will be exempt from the cares and anxieties inherent to Planting, Gathering and Baling up a crop.

MY TERMS.

MACHINERY is a CASH ARTICLE, but for good acceptance I can grant reasonable facilities; and for the RIGHT OF THE PATENT, one-fourth to be paid to me each of the first five years of the excess the Yarns bring over Ginned Cotton, with a contract insuring payment should the plantation change proprietors.

Propositions from Planters may now be made, and to know cost of Machinery in their particular case, they must not omit to state what has been the number of pounds of their crops—or how many pounds of Yarn a day they must Spin.

a22tf GEO. G. HENRY, Mobile, Ala.

GILMAN'S PNEUMATIC STEAM GRANULATOR is now in use on seven plantations, comprising the largest and smallest classes; on some of which it has taken off three crops, with a combination of the following advantages over any other known application of steam to a steam Granulator or an entire steam train:

1. It requires but a pressure of 30 pounds of steam to "strike a Battery."
2. It requires no additional water for the boilers.
3. Its pipes never "scale" or require cleaning.
4. Its heating surface is equally distributed throughout the body of juice, so that an even and hard grained sugar is made.
5. The steam being all condensed and returned to the boilers direct, no additional boilers are required where the sugar-mill boilers are large and Gilman's Bagasse Furnace is used—one pair of cylinder boilers 30 inches in diameter and 34 feet long, with Gilman's Bagasse Furnace, now furnish steam to grind the cane and run the Pneumatic Battery, making 10 hhds. sugar per day.
6. The Pneumatic Battery or Granulator is put in operation at much less expense to the planter than any other steam battery or application of steam to making sugar, in part or entirely by steam.

For further information, a pamphlet with full specifications and drawings will be furnished on application to the subscriber, who is now prepared to make contracts for the Battery, Evaporators or Clarifiers, to be used with direct or exhaust steam.

DENTISTRY.

DENTAL NOTICE.—DR. J. WEST, Practical Dentist, No. 112 St. Charles street, near Poydras street.

J. W. would call particular attention to his method of constructing ARTIFICIAL TEETH. They are made perfectly natural in form and shape, set with false gums. The original form and expression of the mouth and face is restored, with a clear and distinct articulation of speech. This is effected by having the inside of the teeth and gum of a natural form, to which the tongue is readily adapted. This prevents that hissing sound so often observed in persons wearing artificial teeth. The Doctor has been practicing in this city fifteen years, and feels confident that he will give satisfaction to those who may honor him with their patronage. All persons desirous of obtaining his services, would do well to call and examine his specimens.

TERMS LIBERAL.

au 1y L. GABICI.

IMPORTANT TO COTTON PLANTERS—BY which their Incomes must be Doubled—The undersigned has invented and obtained letters patent from the United States for the arrangement and combination of machinery for converting Seed Cotton into Yarns by one continuous process, from the Gin through the preparation and spinning machinery, until it is ready for shipment or weaving. The saving of COTTON WASTE will be at least Ten Per Cent.; and as I exclude in my process the use of machinery to press the cotton into bales, or its handling at all, and the use of machinery to open and disentangle it, which are very destructive in their operations on the fibre, but are indispensable to those of ginning and spinning as separate manufactures, my YARNS are made of unbroken fibre, and hence will be fifty per cent. stronger, will command advanced prices, and they will distance all competition in any market.

The undersigned is prepared to dispose of privileges to use his patent; and Planters will be informed as to terms, with complete instructions how to use it, how to obtain the best machinery, and all other necessary particulars, on application addressed to me here, or on consultation with me at my rooms, corner Front and Dauphin streets, up stairs.

RURAL RESIDENCES—
MANUFACTURING SITES!
RARE OPPORTUNITY!!
LONG CREDIT!!!

FOR SALE—120 SQUARES OR ABOUT 3400 LOTS IN THE TOWN OF KENNER.

This property is situated on the line of the N. O., Jackson and G. N. Railroad, ten miles from the city. The ground, forming a part of the Metairie Ridge, is higher than any other place within forty-five miles, and will drain itself rapidly, without any artificial means.

To secure airy, healthy and agreeable neighborhoods, as rural retreats for the families of the business men of the city, certain sections of the higher grounds have been set apart for private residences, with ample space and under uniform regulations, all the streets of which it is designed shall be lined with shade and ornamental trees. To meet their wants, grounds have been set apart and will be donated to the proper parties for schools, churches, colleges and public squares. Here taste and wealth may combine to make a place unsurpassed for rustic beauty.

Other sections are set apart for business purposes. This locality presents more decided advantages for a manufacturing town than any other point in our State. It has a front on the Mississippi river of more than a mile and a half, and a rear upon the navigable waters of Lake Pontchartrain, only about four miles distant. It is the only place where the N. O., Jackson and G. N. Railroad connects directly with the river, and offers at the same time easy access to the piney woods and lumber districts. For the establishment of manufactories of all descriptions, dry docks and steamboat building, it has not a superior; and for the encouragement of artisans and the mechanic arts, so much needed in our midst, liberal inducements will be offered.

Lumber by the daily trains, and brick made on the spot, can be delivered here at less than city rates. The Railroad Company will render the accessory facilities to the traveling community, and will run an accommodation train to and from the town at hours to suit the convenience of those doing business in the city, as soon as a sufficiency of travel may require it. Mr. P. Irwin will also run his line of omnibusses to the depot at the requisite hours, thus making the connection with Canal street.

A portion of this property will be sold at low prices, for the small payment of five per cent. in cash, balance five years credit with interest at six per cent. per annum.

For further particulars, apply to MINOR KENNER, at the town of Kenner; W. P. COLEMAN, 36 St. Charles street; or J. E. VOSE, 145 Magazine street. au20 1y

A NEW DISCOVERY—THE GREATEST AND MOST WONDERFUL IN THE WORLD.

SARSAPARILLA LOZENGES,

Simple and Compound.

Prepared by N. HEREU, Druggist and Physician.

Superior to all Essences, Syrups and Extracts so named, and to all specialities heretofore known.

I have for a long time thoroughly investigated the idea of a general therapeutic agent, susceptible of being applied to all diseases, the development or morbid principle of which proceeds from an internal cause, either in the blood or any of the organs.

A careful and uninterrupted analysis of the animal, vegetable and mineral kingdoms had induced the hope that I could bring about such a result, and, thanks to my indefatigable researches, it is now obtained.

I have found in some vegetables the necessary means for this grand idea, which is based upon an oleaginous principle of Sarsaparilla partly known to the public. Such is the discovery which I have the honor this day of advertising. The form of Lozenges has been given to it, because its nature precluded the possibility of doing otherwise; and I have divided it into simple and compound Lozenges, in order that they might be given to children as well as adults.

My first experiments were made privately, and remained unknown until wonderful results had satisfied me that I had succeeded, and that the charge of quackery could not be brought against me.

The attention of physicians and of the public is called to these Lozenges, in order that every one may witness the admirable results of the same.

GENERAL EFFECTS.

Testified to by upwards of a thousand persons.

The stomach is cleansed, the blood is purified and renovated by removing all impurities from this precious organ and fluid.

SPECIAL EFFECTS.

1. Prompt and radical cure of all diseases generally.
2. Persons who have used these Lozenges have never had the cholera nor the yellow fever.
3. Venereal, syphilitic, hepatic, scorbutical, gouty, rheumatic and nervous and bilious diseases, are completely cured a few days after the remedy is resorted to.
4. All diseases of the lungs, head, eyes, stomach, bowels and other internal and external complaints disappear entirely; provided the Lozenges are resorted to.

For sale by the box, with a prospectus, showing how they must be used.

THE GREAT NATIONAL ROUTE TO THE EAST—BALTIMORE AND OHIO RAILROAD.—Which forms the grand central link in the chain of communication between the Mississippi and the Atlantic, terminates at

WHEELING, BENWOOD and PARKERSBURG, ON THE WEST; and

WASHINGTON CITY and BALTIMORE ON THE EAST.

At which places it unites with RAILROADS and STEAMBOATS etc., for all points, East and West, is the ONLY ROUTE by which THROUGH TICKETS TO WASHINGTON can be procured, to which point, as well as to BALTIMORE, it is the shortest, most direct and in every respect the most reliable route. It is the only route by which purchasers of Through Tickets to New York are enabled to reach the cities of Baltimore, Philadelphia and New York, at the cost of a ticket to New York only, thus enabling business men and travelers for pleasure or information to visit four of the principal cities in the Union for less cost than can be afforded by any other route.

To passengers from New Orleans, Vicksburg, Natchez, Memphis and the South-west generally, traveling by the boats upon the Mississippi river, a CHOICE OF ROUTES to the East, by the Baltimore and Ohio Road and connections, is offered.

FIRST.—They may leave the boats at CAIRO, (at the mouth of the Ohio,) and thence by the Illinois Central Railroad go to SANDOVAL, (118 miles) or PANA, (172 miles) and thence by Ohio and Mississippi, or Terre Haute and Alton Railroad, turn eastwardly. By this route the traveler passes through Terre Haute, Indianapolis, Dayton and Xenia, to Columbus, Ohio.

SECOND.—The South-western river traveler may continue upon the U. S. Mail boats up the Ohio to Louisville or Cincinnati, and then take the CARS FOR THE EAST, via. the Little Miami and Central Ohio Railroad, which takes him directly to BELAIR, four miles below Wheeling, where he takes the cars on the Baltimore and Ohio Railroad.

Travelers are requested to notice that while this is the only route affording Through Tickets to all the Eastern cities at the same rates as charged by other routes to New York only, it is also the shortest, most speedy and direct, to all the leading points in the East. The distance from Columbus to Baltimore is only 576 miles, being about 100 miles shorter to New York than by any other route. There are less changes of cars by this route, and consequently less detention than by any other.

By the Express Train of this route the time from CAIRO to BALTIMORE or WASHINGTON is but FORTY-THREE HOURS.

Be particular and ASK FOR TICKETS VIA BALTIMORE AND OHIO RAILROAD.

Through Tickets, allowing the holders to stop at any point on the route, and resume their journey at pleasure, may be purchased of W. R. REDDING, at the office of the Illinois Central Railroad, under the St. Charles Hotel, New Orleans.
