PATENT COFFEE PRESERVER.

THE attention of the public is respectfully invited to the new patented apparatus. The object for which it is intended is perfectly to preserve coffee from decay for any length of time, without being any wise offensive to delicacy, or unsightly in appearance. The value of such a machine cannot be estimated but by those tender feelings which long for the preservation of a departed friend; to dismiss those who have been compelled to view it on account of the fast decaying of their friends, is general and pleasing satisfaction has been given; for none can speak too highly of such an important and useful invention. Benevolent institutions and all others who desire to delay funerals until the arrival of distant relatives, or to make suitable preparation for interment, can, by the use of this machine, preserve them for weeks in a perfectly inoffensive state, allowing all to gaze upon them.

The undersigned has secured the patent for Marion county of this valuable and much needed apparatus. It can be used in the best room in the house without the least inconvenience, and if it does not give satisfaction, no charges will be made. This apparatus can be seen and will be applied by the undersigned, the undertaker and Coffin Maker, at his old stand, sign of the Eagle, Main street, Indianapolis. J. I. STRETCHER.

N. B. The undersigned has two hearses and carriages, and the best and most careful hands in his employ; so that, if it should happen that he is absent on profession duty, that all orders left at his place of business, will be attended to in as good style, and as punctually, as though he himself was there. The impression being a road that when professionally absent no person would attend from calls, he wishes it to be known and the public to understand, that they can be attended to by those in his employ, to their satisfaction. Ready made coffins always on hand. Self personal attendance at all hours. 21 tf
