PATENT CORPSE PRESERVATOR.

THE attention of the public is respectfully invited to this newly invented apparatus. The object for which it is intended is perfectly to preserve corpses from decay for any length of time, without being at any time offensive to delicacy, or unpleasant in appearance. The value of such a machine cannot be estimated but by those tender feelings which long for the preservation of a departed friend; and among those who have been compelled to see it on account of the last destination of their friends, several individuals have been bereaved, for some reason, nearly two eighths of such an important and useful invention. Benevolent institutions and all others, who desire to delay funerals until the arrival of distant relatives, or to make suitable preparation for interment, can, by the use of this machine, preserve them for weeks in a perfectly inoffensive state, which may at any time upon the call.

The undersigned has secured the patent for Marion county of this valuable and much needed apparatus. It can be used in the best room in the house without the least inconvenience, and it it does not give satisfaction, no charges will be made. The apparatus can be seen and will be supplied by the undersigned, Undertaker and Coffin Maker, at his old stand, sign of the Eagle, Main street, Indianapolis. J. J. STRETCHER.

N. B. The undersigned has two hearses and carriages, and the best and most careful hands in his employ; so that, if it should happen that he is absent on professional duty, that no disappointment shall be felt in the place of business, will be attended to in as good style, and as punctually, as though he himself was there. This is mentioned being a fact that when professionally absent no person would attend to carrying the wishes of patrons and the public to understand, that there will be attended to by those in his employ, to their satisfaction. Rest assured that he will follow always on hand. 37-3m*opposite stand, sign of the Eagle. 21tf
