NEW ORLEANS, August 11, 1857.
W. P. COLEMAN, Esq:
Dear Sir—The twenty-four inch Mill which I purchased from you for Mr. T. J. Packwood's plantation, has been attached to the sugar-mill engine, and put in operation last week. I am much pleased with it in every respect, both in regard to its simplicity, durability, and quantity it grinds. I timed the mill when in operation several times, and found to my surprise that the mill was grinding one hundred per minute; I therefore expect the mill to grind regularly thirty hogsheads per hour with ease. To Sugar Planters I would especially recommend your Mills, believing them to be superior to any mill ever manufactured.
Yours, respectfully,
JOHN S. McDONALD, Engineer.

They deem it unnecessary to detail its advantages over others, as its numerous endorsements by practical authorities, now using it, are sufficient to confirm its high reputation, and to make its adoption still more general.
