Daily National Whig.

WHOLE NUMBER 674. WASHINGTON, D. C., WEDNESDAY, MAY 30, 1849. SINGLE COPY 6 CENTS.

PUBLISHED BY CHAS. W. FENTON.

TERMS:

DAILY,	per year,	$10 00
TRI-WEEKLY,		6 00
WEEKLY,		2 00

Payable in advance.

ADVERTISEMENTS: Fifty cents per square the first insertion—twenty-five cents per square for every subsequent insertion—fifty cents per square alternate insertions. A liberal deduction to yearly advertisers.

THE NATIONAL WHIG,

IS PUBLISHED DAILY, Tri-weekly and Weekly in the City of Washington.

Terms: Daily paper Ten Dollars a year,—Tri-weekly Six Dollars,—and Weekly Two Dollars—in advance.

THE NATIONAL WHIG was founded for the purpose of advocating the election of ZACHARY TAYLOR, to the Presidency, and it now supports and defends his administration of public affairs, without fear, favor or affection.

Its politics are those of the administration of Gen. TAYLOR—*national whig politics.*

☞ *THE NATIONAL WHIG* has been selected by the President of the United States, under the act of Congress of March 3d, 1845, for the publication of all notifications and advertisements emanating from the Executive Departments.

Its columns are open to the discussion of every public subject of interest to the country, and it invites contributions from the pens of all who may desire to elicit the truth and add to the sum of useful knowledge.

It regularly publishes the official intelligence of the Government in relation to public affairs, the next day after it is prepared for the press, by the Department or Bureau from which it emanates.

It publishes all the advertising of the Federal Government, and is therefore a vehicle of information of the greatest interest to those concerned in supplying the wants of the Government.

It publishes once a week exclusively, the official list of letters patents for inventions granted by the United States, together with the claims, and decisions from day to day, a large space to the publication of new scientific matter interesting to inventors and mechanics.

It aims to establish a high reputation for fair criticism, as a bold and truthful reviewer of books of every description, and it invites from book-sellers and Publishers contributions for that purpose.

The Agricultural always finds admittance to its columns, and it solicits communications from every farmer and planter, that may tend to spread useful information.

The mechanic arts are fostered by it, and every branch of them is heard in its defence, when assailed, or in illustration of improvements, or in promotion of their rights and interests.

The literateur too is welcome to its columns—the lawyer and the doctor and the merchant and the trader, and everybody who has any thing to give to the sum of human happiness or to add to the stock of common knowledge.

During the session of Congress the National Whig contains daily and complete reports of the proceedings of Congress. On this point, no pains is spared to make it the best Journal of Debate in the country.

In the news department, it is not only even with, but more frequently ahead of its contemporaries not only in Washington but elsewhere.

It reports the Lectures of the Smithson Institute regularly, and it gives a faithful account, from time to time of the doings of that establishment.

It reflects faithfully, from day to day, the sentiments of the Administration press throughout the country, and promptly answers the objections and arguments of our opponents both in Washington and elsewhere.

THE NATIONAL WHIG is a political journal, whose place the friends of the Administration of ZACHARY TAYLOR cannot supply.

☞ Post-masters and all others who may send us the money for five dollars will receive one copy gratis—for five tri-weeklies, one copy gratis—and for five weeklies one copy gratis.

No subscription received for less than six months!

☞ No letters taken out unless postage is pre-paid, so that persons sending money must be sure to pre-pay if they do not wish to lose their money.

☞ Orders for papers must be accompanied by the money, or they will not be attended to.

☞ All letters ordering the paper or containing advertisements, must be directed "To the Publisher of the National Whig."

☞ All communications for insertion in the paper, all intelligence of every description, all confidential communications must be addressed "To the Editor of the National Whig," and must be post-paid, or they will not be taken out.

☞ No drop letter taken out, if not pre-paid.

☞ All money sent will be credited at the par value in Washington City.

A CARD.

ANNUAL SUPPLIES FOR THE NAVY.

NAVY DEPARTMENT,

Bureau of Construction, Equipment, and Repair,

May 22, 1849.

SEALED PROPOSALS, endorsed "*Proposals for naval supplies,*" (naming the yard for which the offer is made,) will be received at this Bureau until 2 o'clock, P. M. of the 30th June next, for furnishing and delivering, under contract, at the respective Navy Yards hereinafter named, the several articles specified in this advertisement. One-fourth part of all the articles required at each of said navy yards, comprising a due proportion of each kind, must be delivered on or before the first of September next; one other fourth part on or before the first of December next; one other fourth part on or before the first of April; and the residue on or before the thirtieth of June, eighteen hundred and fifty; and, in case of failure to furnish and deliver the articles within the time and in the proportion specified, the Bureau or the respective commandants of said navy yards to have the right to direct purchases to be made to supply any deficiency, and the contractor and his sureties to be liable in twice the contract price.

Proposals must provide for furnishing and delivering, *on like terms and conditions,* any additional quantity of the articles contracted for that may be required at either of the said navy yards before the expiration of the fiscal year ending on the said 30th June, 1850, on fifteen days' previous notice from the Bureau or the commandant of the yard where the articles are required.

Persons offering for more than one yard must make *separate and distinct proposals for the supply of each, keeping the classes of articles separate,* and embracing the *whole quantity of all the articles* enumerated in the class. The cost of each item must be distinctly carried out, and the aggregate of each class correctly footed up, which is material to a fair comparison of bids. An erroneous extension or an erroneous aggregate will constitute an informality, and the bid will not be considered.

No extension of time for deliveries under any contract will be granted, and penalties for nonfulfilment will in all cases be rigidly enforced; bidders are therefore requested to offer for no more than they are sure they can furnish within the time specified.

All the articles must be of the very best quality, conforming to samples which will be exhibited on application to the commandant of the yard at which they are to be delivered. They must be in good order and condition, in suitable vessels or packages, as the case may be; all vessels, articles, and packages to be subject to the inspection of the yard where they are received, and to be in all respects to the satisfaction of the commandant.

Approved sureties in twice the estimated amount will be required in the manner set forth in the form of contract, and ten per centum in addition will be withheld from the amount of each payment as collateral security for the faithful performance of the contract. Ninety per cent. of each delivery will be paid by the Navy Agent within thirty days after the presentation of approved bills, in triplicate, by the commandant of the yard at which the deliveries are made.

Every offer must be accompanied by a written guaranty (the responsibility of the guarantor or guarantors to be certified by a Navy Agent or other official person, or by some one known to the Bureau) that, if the offer be accepted, the bidder or bidders will, within five days after the receipt of the contract at the post office designated, execute the same, with good and sufficient sureties, to furnish the articles proposed, agreeably to the terms specified in this advertisement, and which may be embodied in the contract. The law of 10th August, 1846, forbids the consideration of all proposals not accompanied by such guaranty.

Bidders are particularly cautioned to *endorse their offers* as above required, that they may be distinguished from other business letters, in order to prevent their being opened before the proper time.

All offers not made in strict conformity with this advertisement in every particular will be rejected as informal. Those whose offers are accepted will be duly notified, and contracts forwarded without delay.

Persons offering are directed to designate the post office through which they desire to be addressed and the navy agent to whom the contract shall be sent for execution.

FORM OF AN OFFER.

WASHINGTON, MAY ——, 1849.

I hereby agree to furnish and deliver, at the Navy Yard at ——, in conformity with the requirements of the advertisement from the Bureau of Construction, Equipments, and Repair of the 22d May, 1849, the several articles embraced in classes one and two for that yard, to wit:

CLASS No. 1.

—— lbs. white lead at — cents $

—— lbs. lampblack at — do

—— lbs. red lead at — do

—— lbs. litharge at — do

$

CLASS No. 2.

—— gallons sperm oil at — cents $

—— lbs sperm candles at — do

$

Very respectfully, A. B.

To Com. CHARLES W. SKINNER,

Chief of the Bureau of Const'n, &c., Washington

We the undersigned, residents of ——, in the State of ——, hereby guaranty that in case the foregoing bid of —— be accepted, that —— will, within five days after the receipt of the contract at the post-office designated, execute the same, with good and sufficient sureties, to furnish the supplies embraced in said bid in conformity with the terms of the advertisement under which it was made. A. B. C. D.

I hereby certify that, to the best of my knowledge and belief, the above-named guarantors are good and sufficient. E. F.

NAVY YARD, CHARLESTOWN, MASS.
