From the Washington Union.

Governor Whitcomb.---Correction.

In the transmission to us through a third person of the authorized remarks of Governor Whitcomb, referred to in an editorial in the Daily Union of the 23d instant, we are advised there was a misapprehension, which led to a mistake in that article. The mistake consists mainly in the expression, "So far from having any sympathy with the free-soil party, he regards it as mischievous in its designs, and hostile to the best interests of the country." Gov. W. did not design to be understood as making any such expression. To impeach motives or to impute improper designs is not his habit or disposition, and especially so large a class of his fellow-citizens of any party.

Gov. Whitcomb, it is conceded on all sides, had much to do in the diff sion and progress of sound democratic principles in Indiana. He was twice the regular nominee of his party in that State for governor, viz: in 1843 and 1846. In that State General Harrison had a majority in 1836; and in the face of a whig majority for him in 1840 of 13,798, Governor W. was elected the first time by about 2,000 majority; and the last time, although running under great disadvantages, he succeeded by above 4,000 majority; being a decided majority each time over both the whig and abolition candidates. Governor W. was the first governor elected as a democrat in Indiana. No one has ever pretended that he did not inculcate in his numerous addresses to the people during his canvasses the principles of the democratic party with great frankness, and in their radical purity. That the revolution in that State from whigism to democracy was effected, and that radically in his first canvass in 1843, was proven by the majority being about the same the following year for President Polk, and in its having remained democratic ever since. Now, then, to charge a man who has been twice elected governor of his State, and more lately senator in Congress, and each time as the *regular nominee of the democratic party*, with belonging to the free-soil party, betrays rather too much ignorance of passing events.

SUPPOSED SUICIDE.—Miss Mary Fenton, a young lady, who resided with her widowed mother, on Middle Fork, Monroe township, in this county, left home on Monday morning last. As she did not return in the course of an hour, her mother and family became alarmed, and, on search being made, she was found drowned in a mill-pond near by. She had no doubt committed the fatal act immediately after leaving the house, for her body had apparently lain in the water an hour, and of course life was extinct. Miss F. was a young lady of most estimable character and beautiful person, and was an exemplary member of the Presbyterian church in the vicinity, where she had attended church the previous evening. The incentive to this rash deed, which has thrown a gloom over the large circle of friends by whom she was known and beloved, is yet a hidden mystery.—*Madison Banner, 29th inst.*

TELEGRAPHIC REPORTS AGAIN.—The blunders of the telegraphic reports or reporters are really becoming intolerable, and, unless a reform can be brought about, the entire system of reporting for the press will have to be abolished. Incorrect reports, reports which give a false view of the markets, are infinitely worse than no reports at all; and, unless we can hereafter obtain accurate quotations, we shall dispense with them altogether.

We can at present do nothing more than warn our readers not to place much reliance on these telegraphic reports, but it is our intention at an early day to investigate this whole matter; and, unless we can obtain reliable reports of the markets, we will have no reports at all.—*Louisville Journal.*

Important to Consumptives!

Strange! That so many who are afflicted with a *COUGH* that is gradually wearing them down, and slowly, but surely stealing them into that dreadful disease, Consumption—that disease which carries off thousands daily, are doing nothing, or what is worse than nothing, gorging themselves with *nostrums*, that are puffed to the skies for cures which they are said to have effected on some foreign or unknown persons. When they can be positively cured by using *DR. ROGERS' COMPOUND SYRUP OF LIVERWORT AND TAR*, which still continues to effect the most *Wonderful Cures* ever recorded in the annals of medicine. A fact which is proved by reference to the vast number of certificates from the first and most respectable citizens, such as—Dr. Wm. A. Richards, Judge Wm Burke, the wife of the Rev. G W. Maley, Dr. Hiram Cox, late Professor in Eclectic Medical College of Cincinnati, and others of this place. Certificates not only of remarkable cures of distressing Cough, but Consumption actually cured, after the Physicians of the highest standing had given them up to die? If men of such high standing will *vouch* for the *great virtues* of this medicine, we cannot but infer that it is at least all that it is represented to be.

For sale by TOMLINSON BROTHERS, WM. HANNAMAN, and D. CRAIGHEAD, Indianapolis. 94-sw&w2w

GATES, STEDMAN & COMPANY,
116 *Nassau St., New York,*
ARE NOW PUBLISHING
THE POPULAR CYCLOPEDIA
Of Modern Domestic Medicine.
BY KEITH IMRAY, M. D.
Fellow of the Royal College of Physicians and Licentiate of the Royal College of Surgeons, Edinburgh.

THIS Work gives a clear and concise idea of the nature of the distinctive symptoms, of the premonitory signs of diseases, of their predisposing causes, and of the methods of their treatment recommended by the most distinguished physicians.

The best modes of employing the medicines in general use are faithfully described; as are also the diet and regimen necessary under various diseases, and during convalescence.

Diet, Atmosphere, Temperature, Bathing, Climate, Clothing and Exercise are also specially treated upon.

The publishers of the American Edition prefix to Dr. Imray's short illustrated, and very valuable Treatises upon Anatomy, Physiology and Surgery; also Directions for the Treatment of the Sick, Management of the Sick Room, Preparation of Food for the Sick, &c., &c.

Many valuable articles have been furnished by the courtesy of medical gentlemen of the United States.

The entire volume, with its full Index, Tables of Doses, &c., will prove, it is confidently believed, a most valuable book for Family use.

The work will be completed in twelve weekly numbers, forming one large octo. volume of about 1000 pages.

Gentlemen of respectability and address wanted as canvassers for the above work in every town and village of the United States. Address (post paid), GATES, STEDMAN & CO.,

Proposals for American Water-Rotted Hemp.

NAVY DEPARTMENT,
Bureau of Construction, Equipment and Repair,
March 1, 1849.

UNDER the joint resolution of Congress, approved May 9, 1848, entitled a "Resolution respecting contracts for hemp for the use of the American navy," sealed proposals will be received at this bureau, (or the United States hemp agencies at Louisville, Kentucky, or St. Louis, Missouri, to be forwarded by them unopened to this bureau,) or delivering under contract, at either of the said Hemp Agencies, for a term not exceeding five years, *the best quality of American water-rotted hemp*, in quantities of five tons and upwards, the ton to consist of 2,240 pounds. No bid will be considered at a higher rate than two hundred and forty-one dollars per ton. The proposals will be opened on the 20th day of May next. The department will then determine whether the contracts shall be awarded. No delivery will be required sooner than the 1st day of January, 1850.

The said hemp must be equal in quality to the best foreign hemp; and in all cases of equality of bid, the contract will be given to the hemp grower. The quantity required annually will be about 500 tons.

The said hemp must be thoroughly dressed, cleaned, free from shives, and must not lose more than sixteen per cent of tow and waste when hatcheled to the satisfaction of the inspectors ready for spinning. Its strength must be such that a rope of one and three-fourths of an inch in circumference, made from twenty-one yarns, as prepared and tested by the inspectors, or by their direction, will bear at least 4,200 pounds, and its length, color, and other properties must be entirely sat
