TO PLANTERS, BUILDERS, etc.
SOUTHERN FIRE-PROOF ROOFING.
The undersigned offers to the public a Fire-Proof Roofing material possessing the following advantages over everything of the kind which has heretofore been discovered:
It is cheaper than SLATES, does not require heavy timbered and expensive roofs, will last as long, needs NO REPAIRS, and when finished has the appearance of STONE.
It is invaluable for repairing OLD ROOFS. Old Shingle Roofs may be covered without removing the Shingles. It supercedes the necessity of valley or hanging gutters.
OLD METALIC ROOFS may be made perfectly tight and secure. Roofs which have given trouble for years, and which have continued to leak in spite of all efforts, can be made perfectly tight.
It is incombustible, is impervious to water, is not affected by the atmosphere or by the sun, and is a non-conductor of heat.
It can be applied to any species of roofs, flat or inclined; may be applied to the sides of houses, taking the place of stuccoing or cement, and will give a building so covered the external appearance of being constructed of stone.
For the roofs of cars, omnibusses, and steamboats, it is invaluable, and would render railroad ties imperishable when coated with it, as they would no longer be exposed to the atmosphere or the water.
Planters and Builders can be furnished with the "Southern Fire Proof Roofing," with plain instructions how to apply it.
SUGAR HOUSES,
COTTON GINS,
RAILROAD CARS and DEPOTS,
BRIDGES,
MILLS,
WAREHOUSES,
all can be covered and made perfectly Fire and Water-Proof with our Roofing.
We are prepared to make contracts, which we will superintend, or furnish the material to any part of the country, with instructions how to use it.
We are prepared to negotiate with builders and others for the purchase of the right of States, Parishes, Counties and Territories.
Office of the Company, No. 83 ST. CHARLES STREET, basement of the Masonic Hall.
GLENNON, COLEMAN & CO.
Liberal inducements offered to Builders and others to act as Agents.
All communications addressed to Box C 186, New Orleans, will meet with prompt attention.

REFRIGERATORS—IMPROVED GALVANIZED IRON REFRIGERATORS on practical and scientific principles. The best and most convenient article in use for cooling and preserving meats, milk, butter, fruit, wines, etc. They are so arranged that the ice water runs slowly through each shelf, and being confined from the effects of the hot air, keeps them at the coldest point, causing the refrigerating influence to be the same throughout the whole apparatus. This is effected by the drippings from the ice, which is lost in all other refrigerators. They are open on the front and top, make a neat piece of furniture; can be placed in any room, and have a water jar, by which perfectly cold water can at all times be had without additional ice. These Refrigerators are no experiment. They have been in successful operation for upwards of ten years to the gratification of those who have them in use, as their certificates will show and are now the most approved before the public. The improvements recently added by which the most perfect ventilation is insured, a great saving of ice has been obtained, more frigid air produced and durability effected, certainly place them far in advance of anything ever offered for public patronage.
GALVANIZED IRON
Has been substituted for the shelving, in lieu of zinc, thereby enabling us to offer them entirely free from oxydization and corrosion, and consequently void of that disagreeable odor which has heretofore been most objectionable in other refrigerators. In addition to their being so vastly superior to others, owing to their convenient arrangements and unequaled principle, they are more serviceable, as it is now conceded that Galvanized Iron is more durable than any other metal, as it is not affected by acid, salt water, etc.

TONI-AROMATIC BITTERS—
A CORDIAL FOR LADIES AND AGED PERSONS.
This highly agreeable cordial is taken pure, and was prepared by me at the request of a number of families who had represented to me the inconvenience resulting from mixing those varieties of bitters which cannot be imbibed undiluted, the loss of time which they occasion, and the mistakes made from ignorance of the mode of administering them.
These well founded objections enabled me to understand the true causes which deter many persons from making use of their excellent and beneficial preparations. The one manufactured by me, to be taken pure, obviates all the difficulties alluded to. It is highly efficacious in cases of general weakness, and in nervous affections generally, and is a certain preservative from gastritis—that fatal disease so peculiar to warm and humid climates. It re-establishes the appetite, invigorates the general system, and in time restores a healthy color to persons who have acquired a lymphatic temperament.
This cordial possesses not only the property of stimulating the appetite, but of aiding digestion. If tempted by a sumptuous repast to indulge beyond the bounds of prudence, we suffer from a slow and impeded digestion, a small glass of this admirable liquor occasions speedy relief and facilitates the work of nature.
Persons in good health may use it as a preservative and pleasant beverage. Its delicious aroma and taste render it such. Those who are in the habit of taking lunch, and particularly ladies, will find it an invaluable addition to this repast, not merely on account of its exquisite flavor, but from its digestive qualities.
The most delicate constitutions, from infancy to old age, of both sexes, may employ it without the slightest inconvenience.
Directions will be given to persons using it for the first time.

MEDICAL HOUSE, No. 82 Customhouse street, near Royal street—For the Cure of Old Chronic, Mercurial, Syphilitic and all Private Diseases, without Mercury, hindrance from business, or exposure to friends, and a cure guaranteed in all cases.
The unparalleled success which has attended Dr. James' practice in all parts of the United States and Europe—the many remarkable cures he has effected, which were pronounced incurable by the most eminent physicians, justifies him in offering his services to the confidence of the unfortunate. The following are some of the diseases termed "Private," and of which, in conjunction with newly discovered Remedies, Dr. James permanently eradicates, namely: Syphilis, primary, secondary and tertiary, Strictures, Urethral Discharges, Gleet, Gonorrhea, Nocturnal Emissions, Periodical Afflictions of females, however complicated they may be, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, Rheumatism, Hydrocele, Cancers, Ulcers, Tumors and all Diseases of the Skin.
Dr. James would also call the attention especially of those who have privately and improperly injured themselves in that secret and solitary habit which ruins the body and mind, unfitting them for either business or society, viz: Constitutional Debility or Impotency. The following are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of Back and Limbs, Pain in the Head, Dimness of Vision, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervousness, Irritability, Symptoms of Consumption, etc. Mentally, the fearful effects on the mind are more to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, etc., are some of the evils produced.
All persons afflicted with any of the above symptoms should not fail to call on Dr. James and be at once restored to perfect health; let no false delicacy prevent you, but apply at once and save yourself from the awful and dreadful consequences of this terrible malady.
Weakness of the organs immediately cured, and full vigor restored.
Remember, "The Medical House of Dr. James" is 82 Customhouse street.
Private and separate rooms reserved. Hours of attendance from 8 A. M. to 8 P. M.
Consultations strictly confidential.
P. S.—Recent cases of Gonorrhea cured in twenty-four hours, or no pay. DR. JAMES,

CULLUM SPRINGS, CHOCTAW COUNTY, ALA., Eighty-six miles above Mobile, twenty-five miles east of Mobile and Ohio Railroad, and five miles west of the Tombigbee river.
The undersigned takes pleasure in announcing to his friends and the public generally, that his establishment is now opened for the reception of visitors. During the past winter many improvements and additions have been made, with a single view to increased comfort and convenience, not only to the invalid, but to others seeking recreation and pleasure. These improvements consist of the erection of several new cottages, a commodious billiard-room, etc.; and the whole establishment has been repainted and renovated. The bath-houses for ladies, and the circular spring house fitted up expressly for their accommodation, have been particularly attended to; as also has the bar, bar's shop and its furnishing.
An experience in the management of a public house of more than twenty five years, and a determination to keep his on the list of "first class hotels," will, he trusts, continue to secure him a liberal share of patronage. A splendid band of music has been engaged for the season. Ten pin alleys and other places for amusement are provided on the premises. The cottages are all separate, and are neat, clean and airy.
Commodious light draught boats will ply regularly twice a week to the landing on the Tombigbee river, while those who prefer traveling by the Mobile and Ohio Railroad can do so, connecting at the State Line with a good stage road to the Springs. By this last route passengers can leave the Springs at 5 o'clock in the morning, and arrive in Mobile in the afternoon same day. This line will commence making daily trips to and from the Springs about the 10th or 15th of June.
As to the curative virtues of the waters, they have not only surpassed the most sanguine expectation of the proprietor, but he believes he can say with perfect propriety that there are no Springs in the United States, for the short time they have been made known to the public, that have effected so many cures of obstinate chronic diseases; none certainly present so great a variety of rare and valuable chemical or medical combinations.
The Springs are of all the three most valuable kinds of waters found in the country, viz: The celebrated Vichy, the Chalybeate and the Sulphur. Such advantages as these afford are not to be found upon any single place in the whole South—a fact which invalids cannot too well note.
Arrangements are being made so as to have an Express from New Orleans to Mobile to these Springs, in order to prevent the usual delay of letters and papers caused by the mails, which, however, are under contract to be carried regularly three times a week.
