DEMOCRATIC PRINCIPLES AND MEASURES.

A strict construction of the Constitution, and no assumption of doubtful powers.

A Diplomacy asking for nothing but what is clearly right and submitting to nothing wrong.

No connexion between the government and banks.

An *ad valorem* revenue tariff.

No public debt, either by the General Government or by the States, except for objects of urgent necessity.

No assumption by the General Government of the debts of the States, either directly or indirectly, by a distribution of the proceeds of the public lands.

No extensive system of Internal Improvement by the General Government or by the States.

A constitutional barrier against improvident State loans.

The honest payment of our debts and the sacred preservation of the public faith.

A gradual return from a paper credit system.

No grants of exclusive charters and privileges by special legislation to banks.

No swindling corporations.

No connexion between Church and State.

A preference for Democrats over Whigs for every office.

Acquiescence in the rule of the majority in all cases of party discipline.

No proscription for honest opinions.

Fostering aid to public education.

A "progressive" reformation of all abuses.

BALD HEADS

Covered with a natural growth of Hair by the use of

SMITH'S Vegetable Hair Tonic and Restorative,

Patented September 17, 1848,

OR THE MONEY REFUNDED.

The inventor and proprietor of this extraordinary compound, has, after years of diligent research, discovered a preparation that will produce Hair on Bald Heads, and he is so fully satisfied of the fact, that he authorizes all his agents to REFUND the MONEY in case it fails.

SMITH'S HAIR RESTORATIVE

is now in use by many who had tried every other preparation without the least benefit. That

Hair has been produced by this,

we can easily satisfy any one by referring to the individuals, personally, who will show their heads.

THE EXTRAORDINARY EFFECT,

which this preparation produces has never been produced by any hair preparation before, and, from the great amount of deception heretofore practiced in preparations for the hair, there appears to be a skepticism existing with many as to any article possessing to be a hair restorative: but if any doubt what is said of this one, we will be pleased to give such "*HOME EVIDENCE*" as cannot fail to convince, if they can be convinced of any fact. Evidence is every day presented to us by those who are using it, and in no case has it yet failed. This article is offered entirely upon

Different Terms from any other;

such as there is no chance of loss in, to those who use it, and such as must of itself convince you that it will do all that is promised for it. *Try it then at once!*

It is folly to suppose that the restoration of the hair can be effected without attention and perseverance for a considerable length of time; but who would not prefer using a preparation which is so little trouble, to being bald or wearing a wig. The circumstances attending baldness are so varied that it is impossible to prescribe a time for the hair to become fully matured; it depends upon the extent of the barrenness, the time it has existed, and on the regular application of the Restorative.

This preparation can be applied to the most delicate head without the least danger, as there is not a particle of a chemical or any deleterious substance in it.

Those whose hair is coming out, or assuming a dead appearance, should not fail to procure it at once. It will stop it entirely from falling off, and it causes the fluids to flow with which the delicate hair tubes are filled, by which means many whose heads were turning gray have had it restored to the natural color.

There is a secretion of coloring matter in the tubes of the hair, which, as soon as stopped, the hair begins to turn gray. This can be kept up by the application of this preparation.

Notice.

If you value the hair you now have, beware of articles gotten up by quack medicine venders and barbers, under fictitious names, which are predictive of the worst results. They serve to eradicate the head, thereby destroying the roots of the hair, and positive it beyond the possibility of ever recovering. Do not run so great a risk—the testimony of all who have used it fully corroborates this statement—and we can refer to any number of persons of the first standing in this city, whose hair has been restored, and will fully confirm what we say.

When you go to buy the humbugs offered, ask for the evidence—and unless evidence is given, let them alone. Then call upon us and we will refer you to any number, for "Smith's;" some who have been bald twenty-five years, and have had their hair restored.

For further information call on us and get a treatise on the hair, gratis, which will be found quite interesting.

The tonic is put up in large bottles at $5 for bald heads, and in smaller bottles for $1, for preventing the hair from falling out.

Beware of Counterfeits! Each outside wrapper is signed W. E Smith

A liberal discount made to those who purchase to sell again.

State of Indiana, Boone County.

IN THE BOONE CIRCUIT COURT, APRIL TERM, A. D. 1849.

In Chancery.

Abner H. Longley vs. the unknown heirs of George L. Kennard, deceased, William M. Smith, Charles Epperson, and Henry H. Spencer.

IT is remembered, that on the 6th judical day of the April term of the Boone Circuit Court, 1849, the said Abner H. Longley, by O'veal his solicitor, filed in said court his bill of complaint against said defendants, with an annexed affidavit to said bill that the unknown heirs of George L. Kennard, deceased, are unknown to him, and that their residence is, as he verily believes, not in this State; and also on the 28th day of April, 1849, the affidavit of a disinterested person was filed in the clerk's office of said court of the non-residence of said defendant Charles Epperson.

Therefore, the said unknown heirs of George L. Kennard, deceased, and Charles Epperson above named, are hereby notified of the filing and pendency of said bill of complaint against them in said court; and that unless they appear in said court and answer or plead to said bill on the calling of the cause at the next ensuing October term thereof, the same and the matters therein contained will be taken and held as true and confessed as against them.

Proposals for American Water-Rotted Hemp.

NAVY DEPARTMENT,
Bureau of Construction, Equipment and Repair,
March 1, 1849.

UNDER the joint resolution of Congress, approved May 9, 1848, entitled a "Resolution respecting contracts for hemp for the use of the American navy," sealed proposals will be received at this bureau, or the United States hemp agencies at Louisville, Kentucky, or St. Louis, Missouri, (to be forwarded by them unopened to this bureau,) for delivering under contract, at either of the said Hemp Agencies, for a term not exceeding five years, *the best quality of American water-rotted hemp*, in quantities of five tons and upwards, the ton to consist of 2,240 pounds. No bid will be considered at a higher rate than two hundred and forty-one dollars per ton. The proposals to be opened on the 6th day of August next. The department will then determine whether the contracts shall be awarded. No delivery will be required sooner than the 1st day of January, 1850.

The said hemp must be equal in quality to the best foreign hemp; and in all cases of equality of bid, the contract will be given to the hemp grower. The quantity required annually will be about 500 tons.

The said hemp must be thoroughly dressed, cleaned, free from shives, and must not lose more than sixteen per cent of tow and waste when hatchelled to the satisfaction of the inspectors ready for spinning. Its strength must be such that a rope of one and three-fourths of an inch in circumference, made from twenty-one yarns, as prepared and tested by the inspectors, or by their direction, will bear at least 4,200 pounds, and its length, color, and other properties must be entirely satisfactory to the inspectors, or the chief of this bureau, or it will not be received; it will be inspected and tested at the respective places of delivery.

The respective United States hemp agents to certify bills for the hemp which may pass inspection and be received by them, according to the contracts which may be entered into; ninety per cent. of which bills to be payable within thirty days after their presentation to such navy agents as may be agreed upon and named in the contracts.

Persons offering must state the price, in words and figures, (clearly and legibly,) asked per ton of 2,240 pounds, when delivered, inspected, tested, approved and received by the said hemp agent, and payable as above specified.

Every offer must be accompanied, as directed in the act of Congress making appropriations for the naval service, approved 10th August, 1846, by a written guaranty, signed by one or more responsible persons, (to be certified by some official personage,) to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within fifteen days after the contract is submitted for signature, with good and sufficient sureties, to furnish the supplies proposed. No proposal will be considered unless accompanied by such guaranty.

Bonds with two approved sureties in one-half the estimated amount of the respective contracts will be required, and ten per cent in addition will be withheld from the amount of each payment to be made, as collateral security for the due and faithful performance of the respective contracts, which will in no account be paid until the contracts are complied with in all respects according to their terms.

Offers must be made in strict conformity with the terms of this advertisement. The persons offering must state *by which navy agent* they wish their bills paid, if their offer is accepted, and by *which hemp or navy agents* they wish to have contracts and bonds sent for their signature; and it they should not be executed within fifteen days after they are received by the agents, the department will consider itself at liberty to accept other offers in place of those thus neglected. 88-tawiAugs

Indianapolis Collegiate Institute.

ARRANGEMENTS have been made to establish a system of education in this city, commencing with the primary department and completing such a course of instruction, as is usually taught in High Schools.

When fully organized, a male and female department will be embraced, it being designed to complete a full course of female instruction, and fit male pupils for the common business of life, or for the junior class in college.

The necessary buildings for the male department are expected to be erected by the first of October next. In the meantime, that department will be commenced on *Monday, the 21st day of May next*, for a term of three months, at the old Presbyterian Church, which will be fitted up for the purpose.

Rev. John McArthur, late Professor of Greek Literature in Miami University, has been chosen Principal, and will enter upon his duties at the May session, and as it is designed that only a limited number of pupils shall be committed to any teacher, Mr. McArthur will be assisted, as shall be requisite, by well qualified Instructors.

Special attention will be given to religious instruction, the cultivation of the affections of the heart, as well as the training of the understanding.

Besides the usual devotional exercises of the morning, a regular course of Biblical Instruction will be pursued.

No pains will be spared to preserve the pupils from immoral influences and habits.

The rates of tuition will be the same as in other similar Institutions.

Until Professor McArthur arrives, about the first of May, applications for admission may be made to Dr. Isaac Coe, or any of the undersigned.

PATENT CORPSE PRESERVER.

THE attention of the public is respectfully invited to this newly invented apparatus. The object for which it is intended is perfectly to preserve corpses from decay for any length of time, without being any way offensive to delicacy, or unseemly in appearance. The value of such a machine cannot be estimated but by those tender feelings which long for the preservation of a departed friend; and among those who have been compelled to use it on account of the fast decaying of their friends, a general and pleasing satisfaction has been given; for none can speak too highly of such an important and valuable invention. Resident physicians and all others who desire to delay funerals until the arrival of distant relatives, or to make suitable preparation for interment, can, by use of this machine, preserve them for weeks in a perfectly inoffensive state, allowing all to gaze upon them.

The undersigned has secured the patent for Marion county of this valuable and much needed apparatus. It can be had on the best room in the house without the least inconvenience, and if it does not give satisfaction, no charge will be made. This apparatus can be seen and will be applied by the undersigned, Undertaker and Coffin Maker, at his old stand, of the Eagle, Main street, Indianapolis. J. L. TRETCHER.

N. B.—The undersigned has two hearses and carriages, and the best and most careful hands in his employ; so that, if it should happen that he is absent on professional duty, that all orders left at his place of business, will be attended to in as good style, and as punctually, as though he himself was there. The impression being abroad that when professionally absent no person would attend funerals, he wishes his friends and the public to understand that they can be attended to by those in his employ, to their satisfaction. Ready made coffins always on hand. Punctual attendance at all hours. 214f

NOTICE TO CONTRACTORS.

Canal Letting.

THE undersigned, Trustees of the Wabash and Erie Canal, hereby give notice that they will receive sealed proposals at Washington, Daviess county, Indiana, on the 27th day of June next, for the construction of about twenty four miles of said Canal, extending from the proposed dam across the west fork of White river, near the south line of Greene county, to Maysville, in Daviess county. On this portion of the line are to be constructed five Lift Locks and one Guard Lock, to be built of timber, a dam across Sinkard's Creek, and one or two small aqueducts, together with the usual variety of earth work common to a canal. The line will be divided into sections averaging about half a mile in length.

At the same time and place, proposals will be received for building, with cut stone masonry, the piers of the aqueduct over east fork of White River. The stone for this masonry must be procured from the quarries of durable limestone to be found on or near either the east or west fork of White River, from which point they can be delivered by water.

The line to be placed under contract, will be ready for inspection ten days previous to the time of letting, and all necessary information in reference thereto will be given by the resident engineer.

Carding, Spinning, Weaving, and Fulling.

THE undersigned has taken in firm of years the extensive *Carding, Spinning, Weaving, and Fulling Establishment* heretofore conducted by Scubler & Hannaman, situated on the bank of White River, on the outskirts of the city of Indianapolis, and informs his old friends and customers, and the public generally, that he feels confident he will be able to give satisfaction in every department of the above business. He will conduct the same in person, and warrants that

No Establishment in the West

shall surpass this in the character of the work turned out.

The Machinery

In every department is now in excellent order, and will soon be put in the most perfect trim.

The undersigned is an old experienced Eastern workman, having been all his life engaged in the business, and having worked in the best establishments in the United States, he flatters himself that he understands it thoroughly.

☞The best of workmen will be employed, and no pains spared to give satisfaction to customers.

☞*All work insured*, and done on as *good terms* as can be had anywhere. ELIJAH JAMES.
