## DEMOCRATIC PRINICPLES AND MEASURES.

A strict construction of the Constitution, and on assumption of doubtful powers.

A Diplomacy asking for nothing but what is clearly right and submitting to nothing wrong.

No connexion between the government and banks.

An *ad valorem* revenue tariff.

No public debt either by the General Government or by the States, except for objects of urgent necessity.

No assumption by the General Government of the debts of the States, either directly os indirectly, by a distribution of the proceeds of the public lands.

No extensive system of Internal Improvements by the General Government or by the States.

A constitutional barrier against improvident State loans.

The honest payment of our debts and the sacred preservation of the public faith.

A gradual return from a paper credit system.

No grants of exclusive charters and privileges by special legislation to banks.

No swindling corporations.

No connexion between Church and State.

A preference for Democrats over Whigs for every office.

Acquiescence in the rule of the majority in all cases of party discipline.

No proscription for honest opinions.

Fostering aid to public education.

A "progressive" reformation of all abuses.

## A CARD.

I HEREWITH wish to inform the public, that I have now the most complete assortment of goods ever found in one establishment; a part of the goods, which I have lately received, are advertised in this paper. As the holidays are near at hand I wish especially to call attention to that part of my stock, which comes the most in conflict with the holidays. In the coming box, I have a choice selection of fruits and confectioneries, the candies are beautiful indeed. Toys I have got an endless variety; wax dolls almost equal to nature, from 25 cents to $2 a piece, also doll heads with glass eyes, from 15 cents to 150 cents. Teasets, wooden, pewter glass, porcelain and china; French fancy gewhawes, silver wire ware, baskets, and pincushions, some beautiful gilted chinaware as cups and saucers, mugs, flower vases, candle sticks, fruit baskets, etc. Tumbling dogs and children's candies of every variety, willow toy baskets and cedar pails, figures and animals a very large assortment; flower vases gilted, agate ware, painted, lovely wax fixtures, alabaster insignands and crucifixes, horsemen, furniture, etc. Also a choice selection perfumery. New figs, raisins, lemons and oranges, I have under way from New Orleans, they will be here in time for the holidays. I shall be very glad to get opportunity as often as possible to show my goods, as I am convinced that they will give entire satisfaction. Thankful for the liberal patronage I have so far received, I shall never lose a moment to show, that I appreciate the same, by keeping a good stock of goods and selling at reasonable prices. Respectfully,

CHARLES MAYER,

## INSURANCE.

**Protection Fire and Marine Insurance Company of Hartford, Conn.**

*INCORPORATED IN 1825.*

*Annual Premiums, Capital Stock, and Surplus Fund*

**$1,000,000.**

THIS old and responsible Company continues to issue policies on the most favorable terms on dwelling houses, household furniture, stores, stocks of goods, warehouses, and contents, mills and manufactories, &c. &c., against

**Loss or Damage by Fire:**

Also, on goods, wares and merchandize, against the hazards of

*INLAND TRANSPORTATION.*

and upon the

*CARGOES OF SEA VESSELS.*

Simon Yandes, Esq., having resigned the agency for this old and responsible office, and the subscriber having been duly appointed his successor to the agency, is now prepared to issue policies in both the Fire and Marine Department on the most favorable terms.

The Protection Insurance Company having, in the last 25 years, paid many *millions of dollars* at their several agencies throughout the United States and the British Provinces, have established a just reputation for solvency and fair dealing, which challenges comparison with any other insurance company on the continent of America. The annexed extract from an article on the subject of Insurance Companies, taken from the "New York Day Book," exhibits briefly the standing and policy of the Company.

"The 'Moneyed men' of the ancient and always prosperous city of Hartford, have for half a century been famous throughout the Union for the care, discretion, rigid honesty, and unswerving success, with which they have formed and managed corporations of this description. *No Hartford Bank or Insurance Company has ever failed!* These Companies have for more than a whole generation scattered their risks in nearly every State of the Union, and have never failed to pay the innumerable losses which they have incurred against."

All losses arising upon policies issued by the undersigned, will be promptly adjusted and paid at the General Agency Office, located at Cincinnati, O. A large portion of the funds of the Company, (including all premiums received at the Western agencies,) is deposited with the General Agent of the Company at Cincinnati, for the payment of Western and Southern losses.

Apply to WILLIS W. WRIGHT, Agent for the city of Indianapolis, and for Marion county. 37 3mos w&sw

## INTERESTING TO FARMERS.

THE Farmers of Marion and adjoining counties are hereby informed that the undersigned is now having manufactured at Indianapolis, a number of *"Gatling's Patent Wheat Drills"* The subject of planting wheat in rows, or with a drilling machine, has long been familiar with the Husbandman, and for several years past has been in practice with many of the enterprising farmers of New York, Pennsylvania and other of the older wheat growing States. Agricultural papers have often alluded to the practice, advising its adoption, and giving many results showing a saving of seed and of labor, and a greatly increased yield of grain. Five bushels and upward per acre, or twenty to thirty per cent. less than the usual increased yield over the broadcast system. Wheat planted by this machine is equally distributed in rows to a uniform depth. Hence a uniformity in the size and better of stems, too to be found in wheat mixed with the earth at various depths, as by the other method. The advantages incident to the drill system, are given by writers, who have fully proved its utility by practice; one of the most prominent of which is, the protection of the wheat from being winter killed. About 10 acres per day with a machine adapted to this section of country, and 14 to 16 acres per day with those suitable for a prairie, may be estimated as the usual days' work for a hand and two horses to plant all complete. Another practice has also been added, to wit; that of *harrowing in the spring*; a process by which the earth between the rows, is loosened or cultivated, by a cheap and simple machine, by a man and horse, to the extent of six to ten acres per day. A writer in the Genesee Farmer, February number, 1849, page 40, speaking of *Drilling and Horse hoeing*, asserts, as the result of experiment, that "land that ordinarily produces only thirteen or twenty bushels per acre, will under favorable circumstances, yield from thirty to thirty five, and even as high as forty bushels per acre." Farmers of Illinois and Michigan, as well as central and northern Indiana, are desired to make themselves acquainted, as fully as possible, with this mode of cultivation. A field of ten acres of wheat, *drilled only*, now growing on the farm of James Blake, Esq. in the suburbs of this city, affords a practical experiment, to which attention is respectfully solicited.

## JUDSON'S STAVE-DRESSER.

THIS Machine, on which LETTERS PATENT were granted on the first of May, 1847, is one of the most important improvements of the age.

It will dress rived Staves in the most perfect manner, and challenges competition with any other Machine yet put in use, or even the drawing knife of the Cooper. It possesses the advantage of following the curve of the wood, so as to leave the full strength of the timber, on winding and crooked, as well as the straight inspected Stave, and runs at the rate of 540 per hour—which is as fast as an expert workman can examine and properly place a stave in a machine—making good work of every stave that should properly be worked into a barrel, reducing all to a uniform thickness.

The DRESSER is accompanied by a JOINTER of an entire new construction, which produces a most perfect joint, preparing staves without any rebbing, of sizes varying from a *half barrel to a hogshead*, that when set up will be found perfectly air-tight.

The Machinery is respectfully recommended with confidence to the attention of all persons engaged in the Cooperage business either for their own mills, or in the manufacture of cooperage-ware for the market.

The Machinery is in use in most of our large seaport cities; also at St. Louis, (Mo.) and Urbana, Ohio, and driven by water or steam power. Where the latter is used, with a boiler properly set, the savings will afford more fuel than an engine of a 15 horse power will require.

Machines and Rights for the counties in the States of Ohio, Indiana, or Illinois, can be had on application to the undersigned at Urbana, Ohio, where the Machinery is in successful operation.

## COOKING STOVE.

THE subscribers offer to the public four sizes of a new pattern of Buck's Cooking Stove, greatly improved, which they confidently assert to be not only the most perfect baking stove by use, but the most compact and beautiful Cooking Stove ever offered to the public. Its capacity for baking (which is the old Buck's stove excepted every other stove,) has been greatly increased by the addition of another oven, which enables it to bake at one time twice as much as ordinary cooking stoves. Being made airtight, and having dampers, the fire can be regulated to suit every occasion.

Those who want a good cooking stove, one that can be relied upon, should see this new stove, as it cannot fail to please.

We warrant the stove to give satisfaction, and can refer to hundreds of families which have them in use. We will in every case it should fail to please upon trial, take back the stove and refund the money.

We have on hand the largest and best selected stock of stoves ever brought to the market, consisting of *Premium Cooking Stoves* of the latest and most approved patterns, ten plate stoves, very heavy plate, seven pl
