TO COTTON PLANTERS—I take PLEASURE in announcing that Messrs. MANDEVILLE & McILHENNY are my authorized agents in this city to make contracts for the use of

MY INVENTION
—For—
Spinning up the Seed Cotton on Plantations into Yarns,
And all business in relation to it.

I will only say here that I make the same capital, the same location, the same steam power, the same expenses very nearly that now raises, gins and bales the cotton, to spin it; that, with the addition of machinery, costing about half what the increased value of the yarns the first year will be, and which is attended by employing labor of the plantation, in little girls of 8 to 10, women, and old men—the Planter is enabled to HOLD HIS OR MORE THAN DOUBLE THE PLANTER'S NET INCOME!

We spin the best Yarns in the world! The danger from fire of the gin-house is immensely reduced, with many other advantages of great value. And what is of great importance is, that all this is fully demonstrated by its successful daily operation on the plantation of Col. Geo. S. Yerger, near Vicksburg.

Planters desiring more full particulars, are referred to my Agents, as above.

Applicants for agencies will please address them, enclosing testimonials.
