His Rise in the World.

"Henry," she observed sadly, "you certainly have changed! What has come over you lately to make you so haughty?"

"Miss Twilling," stiffly replied the young man, "while the pleasant relations which have heretofore existed between us will, I trust, remain unchanged, at the same time I find it necessary to maintain the proper amount of dignity in accordance with the more exalted position which I now hold in society. You are evidently not aware of the fact, but I have recently invested some of my capital in, and I am now wearing, a suit of genuine silk underwear."—Clothier and Furnisher.

Cause of Boils.

The predisposing cause of boils is a lowering of the health at some point. In the opinion of many students of disease the immediate cause is a microbe, which finds its way into some gland of the skin, where it sets up a peculiar inflammation. Generally the gland is an oil gland. In the armpits it is a sweat gland. On the eyelid, where the boil is known as a "stye," it is a gland of still another sort.—Youth's Companion.

A TREE FROG'S INSTINCT.

Showing That Tales of Animal Intelligence Are Sometimes Very Wonderful.

"Talking of instinct," remarked the man who used to be a great fisherman before he joined church, "I once had a tree frog that in my judgment beat the weather bureau all to pieces.

"I had read about their being able to predict weather changes, so I got a wide mouthed bottle, a little wooden ladder and the other articles usually recommended. I put them all together in the parlor and waited for developments.

"And I must say the developments startled me. Right along that frog when it was going to be good weather, came to the top of his ladder; when it promised to turn out threatening, he would rest half way down, and if a storm was on hand he always staid under water. Never knew it to fail.

"This was through the summer. The next fall I took him to the sitting room, and hang me, if he did a thing else but sit on his ladder with his legs crossed and mope, storm or sunshine, hot or cold, wet or dry. Prophesy he would not. He seemed to be half tired of life.

"I concluded, of course, he didn't like his new quarters, so I took him back to the parlor and presto! he brightened up and began business with the old reliability right away.

"Naturally this aroused my curiosity, and I finally found out the secret."

"Well," inquired the crowd of eager listeners.

"The cunning beast had been all the time watching and making use of a little barometer that stood right beside his glass on the mantelpiece."—Philadelphia Times.

The Original American Shoe.

So far as we can discover the aboriginal tribes of America never went barefooted. They always made and wore moccasins, the easiest shoe ever invented. On the other hand, the Australian natives knew nothing of shoes, and the natives of Africa are in the same box to this day.

Three Through Trains.

Two night, one morning, Kansas City to Chicago. The Santa Fe route. 46-tf

St. Louis to Colorado via Wichita.

Commencing Sunday, July 13, 1890, the Missouri Pacific railway will run through sleeping cars from St. Louis via Pleasant Hill, Rich Hill, Fort Scott and Wichita to Geneseo and from thence to Pueblo, Colorado Springs and Denver. This change was made on account of a great many people from the east going to Colorado being desirous of going via Wichita. The train will stop here two hours, giving all a chance to view the "Peerless Princess" and still land passengers in Colorado same time as if they had gone via Kansas City. It also gives the citizens of Wichita sleeping car service from here to Colorado. Returning, it gives us through sleeping car service Wichita to St. Louis, and gives the Colorado people a chance to go east via Wichita. This change will undoubtedly be appreciated by the traveling public, and especially by the citizens of Wichita. If you are going east or west go via the popular new through route. Through chair and sleeping car service. New route just completed between Fort Scott and Rich Hill goes through the finest mineral and agricultural country in the west. Don't forget the new short line to St. Louis or Colorado.

DOCTOR TERRILL

DISEASES OF WOMEN—Dr. Terrill has made diseases of women a specialty for the past twenty years and wishes to state that he has all the late instruments, batteries, electrodes, etc., for their successful treatment, including fibroid tumors, displacements, enlargements, prolapsus, ulcerations, leucorrhœa, diseases of the ovaries, painful, irregular or profuse menstruation, etc. Dr. Terrill has recently spent several months in the large hospitals of the east in the special study of electricity and is the only physician in the southwest thoroughly familiar with its scientific application.

NERVOUS DISEASES—Dr. Terrill wishes to call the attention of those suffering from nervous diseases, paralysis, nervous prostration, etc., to the wonderful curative effects to be derived from electricity when scientifically applied and desires to state that he makes the application of electricity in nervous diseases a special feature of his practice. The doctor has the finest fifty cell diamond carbon battery ever seen in the west, and all the appliances especially adopted to the treatment of lost manhood or sexual weakness, which he quickly and permanently cures by the aid of electricity.

CATARRH—Every case of catarrh is curable if properly treated. Dr. Terrill uses Bailey's new treatment.

SKIN DISEASES of all kind cured when others have failed.

PILES, FISTULA and all rectal diseases cured. No knife no pain. A cure guaranteed.

URETHRAL STRICTURE quickly and permanently cured by electrolysis. No cutting, no pain, no money until cured.

CHRONIC DISEASES—Bronchitis, asthma, hay fever, all throat and lung troubles, dyspepsia, diseases of the bowels, liver and kidneys, therapeutic drops, brights disease, bladder, kidney and urinary diseases, blood poison and private diseases.

SYPHILIS—That dread disease of mankind quickly and permanently cured by the new treatment without the poisonous drugs of days gone by. Medicine sent to all parts of the country. Consultation free. Send for question blank.
J. H. TERRILL, M. D.

DOCTOR PURDY.

SURGEON OCULIST AND AURIST—Gives special attention to diseases of the eye, including the scientific adjustment of glasses to correct imperfect vision.

CATARACT removed and sight restored to many who have long been totally blind.

CROSSEYES straightened, in many cases without operation.

GRANULATED LIDS and all forms of sore eyes quickly cured. Artificial eyes inserted.

DEAFNESS—All curable cases promptly cured.

GLASSES—Only those who have had special training should attempt to fit glasses, but they do be patient more harm than good. Many cases of nervousness, irritability, insomnia, headache, vertigo and twitching surgidity in children are due to defective vision and are removed at once by the application of proper glasses. If you have pain in the eye balls, orbits, temples or forehead, if the eyes water, if the letters run together when reading, if everything swims or becomes dim when attempting to use the eyes for a very short time, there is some fault in the organ of sight which can be relieved by the application of proper glasses. A few have no unpleasant feelings, but cannot see as well as their friends. Such persons must always wear a frowning expression, which is conspicuous and disfiguring, especially in young faces. Others complain of pain in the use of light with irritation of eyes, especially by artificial light. All such can be relieved by the scientific adjustment of glasses.

AS A GENERAL SURGEON Dr. Purdy has no superior in the southwest, having lately resigned the chair of surgery in the Western Medical college in order to devote his entire time to his specialties, which include deformities, club foot, curvature of the spine, hip joint diseases, white swelling, disease of the knee, cancer, tumors, all sores, ulcers, hare lip, varicocele, hydrocele, enlarged glands, stone in bladder, piles, fistula, diseases of the skin, kidneys and urinary organs.

HERNIA OR BREECH cured by an entirely new treatment.

Consultation and examination free.

WHY
Should you insure with the Connecticut Mutual Life Insurance Co?
BECAUSE it maintains a higher standard of reserve than any other company.
BECAUSE it pays cash dividends every year, thus giving insurance at cost, and permits no forfeiture of any part of premium.
BECAUSE it has for forty-four years paid larger dividends than any other company.
BECAUSE it guarantees, on life policies, a larger cash surrender value, for net premium paid, than any other company.
BECAUSE every man that can read the English language can understand its contracts.
