Notice is hereby given, that on MONDAY, 12th day of December next, I will adjudicate at my office, at 12 o'clock M. the above contract. n29 12t V. DUPLESSIS, Comptroller.

SPECIFICATIONS FOR THE CONTRACT for the construction of brick sidewalks, bordered by curbstones and wooden gutters, on the north side of Jackson street, from Bacchus to White street.

WIDTH OF THE SIDEWALKS.—These sidewalks shall be twelve feet in width.

CURBSTONES.—Hewed and dressed curbstones shall line the sidewalks, of North river blue stones or other stones of equally good quality with them, beveled, dressed on the top to answer the slope of the sides, from three to six feet long, from sixteen to thirty inches wide, and not less than three and a half thick. They shall be well set in good joints and in a workmanlike manner, and shall end with apertures nicely cut through the same, where required for draining lots. They shall be duly interspersed in lengths of from three to six feet throughout the work, according to the directions and levels which will be given by the Surveyor, and each curbstone shall have a slope of three inches for every foot of its height towards the line of the adjoining houses; shall also be solidly fixed and backed in the most approved manner, to prevent crevice wash and sinking of bricks, usually experienced from negligence in this respect; and no curbstones less than three and a half inches, or shorter than three feet, and having in no case less than six inches below the upper surface of the adjoining gutter, shall be admitted in the work.

WOODEN GUTTERS.—The gutters shall be made of the best saw mill cypress, twelve inches wide by four inches thick, in lengths of not less than twenty feet, (except in cases where shorter lengths are necessary) halved and scarfed ten inches at the joinings, pinned there and at every intermediate space of five feet, with oak pins not less than four feet long by two inches in diameter, driven through suitable auger holes in the gutter planks, pierced slanting. The edge of the planks nearest the curbstones shall be beveled to suit, and on the other or outside edge it is to have notches of eight inches long by two inches deep, cut out at every eight feet thereof, and in these, cypress braces of not less than four feet long by eight inches wide and two inches thick, pointed at the end which enters the ground, will be firmly driven down and spiked with said gutter plank, with at least three of five-inch cut spikes to each brace; and over these there will be a verge or facia of cypress sunk, of ten inches wide by two and a half inches thick, well nailed to the gutter plank aforesaid with six-inch cut spikes. The gutter bottoming shall be of dry river sand, four inches thick, and solidly bedded before the pins are driven. The top edge of the facing board shall project one and a half inches above the surface of the gutter plank, and the latter shall be laid with a slope of one inch towards the curbstones. Wooden-boxed gutters for draining lots shall be built by the contractor. They shall be four inches wide by eight inches deep, and shall be made of one and a half inch cypress plank for the sides and bottom, with two by four inches cross pieces on the top, to keep the sides from being displaced, and said gutters shall run through the whole width of the sidewalks.

BRICK PAVEMENT.—The walk pavement shall be laid with lake bricks of the best quality, in herring-bone, on a bed of lake sand or other sand of equally good quality with it, or on gas ashes, generally called "blue billy." The joints between the bricks shall be well filled with sharp sand, and a coating of half an inch thick spread over the whole surface of the bricking. Prior to laying the bricks, the earth or ground shall be cut up, broken and well rammed, and made level and graded smoothly, with a declivity or slope towards the outline of one-half an inch per foot. The ground where too low shall be filled up by the contractor at his own expense, and well rammed until completely solid. There shall be a bedding of one-half of an inch of sharp sand or "blue billy" under the bricks, and said bricks shall be properly bedded therein in herring-bone, regularly laid in close joints, without any rugged or hollow places, so that the pavement will bear a straight edge, otherwise it shall be rejected.

GENERAL CLAUSES.—The whole work shall be executed to the entire satisfaction of the City Surveyor, who, in conformity with the petitions, will be the sole judge of the quality of the work.

All the materials shall be of the best quality, and shall be furnished by the contractors, as well as the labor.

The contractors shall be bound to begin the work in the ten days following the approval of the adjudication by the Common Council, and to complete the same two months after, under a penalty of ten dollars per day for each and every day thereafter the same is not completed.

Good and solvent security in the sum of $500 shall be required from each of the contractors to guarantee the faithful performance of their contracts.

Payments to be made as follows, to-wit: the proportion to be paid by the city in cash, and the proportion to be paid by the property-holders in bills against said property-holders to be made by the City Surveyor in conformity with section 119 of the new city charter, said bills to be collected by the contractors, who shall be subrogated to all the rights of the city to sue and seize the property in case of non-payment of any or all of said bills; and the city of New Orleans not to be held liable or responsible for any of said bills should the same not be paid.

The contractor shall pay into the City Treasury, prior to receiving his certificates, the cost of publication of the petition of the property-holders, it being well understood that said contractor shall have the right of demanding of said petitioners the reimbursement of said cost of publication.

It is well understood that in case of failure by the contractors to begin or finish the work, or any part thereof within the period fixed, or in case the Council be dissatisfied with the manner in which the work is being executed, the Council shall have the right to annul the contract without putting the contractors in default, as required by article 1905 of the Civil Code, and without applying to a court of justice to annul the same and without indemnity; and it is also well understood that in case the contractor shall at any time abandon the work or not finish and complete the same in conformity with his contract, the said contractor shall forfeit all claim he may have for any part of the work done by him up to the date of the abandonment, and that the city shall be thereby discharged from any and all liability therefor; and it is also well understood that in case the contract be resold, the contractor and his securities shall be held and bound, in solido, to pay unto the city all loss or difference between the price at which the contractor originally contracted to perform the work and the price at which it may be adjudicated at a resale or readjudication.

Bids to be per running foot of sidewalk complete, including the turning of the corners.

[No. 4829.]

AN ORDINANCE concerning the Markets of the city of New Orleans, and providing for farming the Revenues thereof.

SECTION 1. Be it ordained by the Common Council of the City of New Orleans, That, on the first Monday in December of each year, the Comptroller shall adjudicate, or cause to be adjudicated, at his office, the collection of the revenues of the Markets, separately, for one year. He shall give ten days notice in the official journal of the city, of the day and hour at which said adjudication shall take place.

SEC. 2. That the farmers or lessees shall, immediately after said adjudications, furnish one-twelfth in cash, and their promissory notes for the balance, endorsed to the satisfaction of the Finance Committee, payable from the 1st of January, at 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11 months. Should any farmer or lessee refuse or neglect to furnish the one-twelfth in cash, and his notes, as aforesaid, the Comptroller is hereby authorized to cause a new adjudication to be made forthwith, for the account and risk of said farmer or lessee.

SEC. 3. That the farmer or lessee of said revenue shall not be entitled to collect other dues than those hereafter registered, to wit:

The occupants of the stalls and stands of the several markets of the city shall be, and they are hereby, required to pay for said stalls or stands at the following rates:

For butchers' stalls, 10 feet by 3, including the block, twenty-five cents per day.

For fish, game and vegetable stalls, 4 feet by 3, fifteen cents per day.

For coffee and chocolate stands, 8 feet by 3, one dollar per day; and should the tables or stands be of larger dimensions, (1¼) one and one-fourth cent per day for each and every additional superficial foot; and it shall be the duty of the City Surveyor to designate which are corner tables.

For every head of horned cattle, ninety cents; for every head of veal, mutton, pork or venison, twenty-five cents. (It being well understood, that when the fore-quarter of a veal shall weigh more than forty pounds, the farmer or lessee of the revenues may levy for the sale of said veal ninety cents.) All butchers and retailers of fish shall be answerable for the frames with hooks so rented to them by said farmer.

SEC. 4. That all kinds of meat, fowl, game, fish, vegetables, and all other articles destined for the daily supply of the city, may be bought and sold at the markets, excepting the Beef market of the Second District, at which no fish or vegetables shall be sold.

SEC. 5. That each vendor of meat, vegetables, or other articles permitted to be sold in the markets of this city, is hereby required to have his or her name painted on a tin sign, in a plain and legible manner, with the number of the stall or stand thereon, and to be placed in a conspicuous place over the stall, stand, or place occupied; and, in case any vendor, as aforesaid, shall not comply with this section within thirty days from the passage thereof, or shall thereafter, at any time, for more than three days consecutively, not have such sign so exposed, said vendor shall be liable to a fine of ten dollars, recoverable before any court of competent jurisdiction, for the use of the city.

SEC. 6. That said markets shall be open at the dawn of day, and shall close at 12 o'clock M., precisely; and the closing of the markets shall be announced by the market bell, which it shall be the duty of the Commissary to ring, or cause to be rung.

SEC. 7. That, during the half-hour immediately following the closing of said markets, the butchers and other persons hiring or occupying their respective stalls, stands and tables, shall be bound to scrape, wash and cleanse the same, so as to keep the said stalls, stands and tables in the highest state of cleanliness; and every person neglecting to comply punctually with the disposition of this section, or who shall not quit the said markets at the hours specified in section 6 of the present ordinance, shall pay a fine of five dollars for each offense; and no person shall be permitted to sub-lease any stall, table or stand, under a penalty of fifty dollars. Any butcher or other person vending in said markets, if absent therefrom three days, leaving his stall, table or stand unoccupied, shall be deemed to have abandoned the same, and the farmer may hire it to another.

SEC. 8. That it shall be the duty of the farmer, or other person authorized by the city to collect the above established duties, to keep an exact register of the persons to whom he lets the stalls, stands, tables, and frames with hooks, at market hours, and deliver certificates thereof to persons occupying the same. Any person occupying any table, stand or stall without the consent of said farmer or collector, and who shall refuse to deliver up the same on the first request which shall be made to them by the Commissary of the market, shall pay a fine of ten dollars for each offense, and shall be compelled to conform to the provisions of the present enactment.

SEC. 9. That it shall not be lawful for any person to erect or keep any stand, sell fish, shrimps, or have tubs to wash, or other encumbrance, on any of the banquettes of the markets of the city; nor to scale or cut fish on any of the square tables, but exclusively on the blocks located under the glass roof of the market, without permission of the Common Council, under a fine of not less than five dollars a day for each stand, and if said stand be not removed after six days' notice, it shall be the duty of the City Surveyor to cause the same to be removed, as an encumbrance, at the expense of the owner or occupant; provided, no stand now erected shall be removed, except on the written request of three or more residents of the vicinity; and that all parties, holders of stalls or otherwise, putting up racks, etc., in the markets of the city, are hereby ordered to construct the same in accordance with the plan and under the direction of the City Surveyor, that a uniformity in all of said racks, etc., be thereby had; and that all racks, etc., already erected, not in conformity with this section, be and the same are hereby ordered to be removed forthwith by the Commissary of the Market wherein the same exists.
