[illegible]

A Spiritualist Revelation.

[illegible]—THREE CHILDREN POISONED.

[From the Detroit Tribune.]

Last spring a Mrs. Leonard left her husband at [illegible] and went to Battle Creek, taking with her five children, two by Leonard and three by a former husband. It seems that she was a believer in the doctrines of modern spiritualism, and was led to desert her husband through instructions from the spirit world. She herself possessed the power of communicating with spirits, being, in the parlance of that sect, a "medium." By advice from the same supernatural source, she dropped the name of Leonard, and, being matrimonially joined, according to the ordinances in vogue in the spiritual world, to her first husband, again assumed his name, and called herself Mrs. Haviland.

When she reached Battle Creek with her children, she had $500 in money, and set up in housekeeping by herself. About this period, another character appears upon the stage, in the person of a Doctor Baker, of Adrain, who was also a spiritual medium of great repute among his sect. Dr. Baker boarded with Mrs. Haviland. The house was a great resort for spiritualists, there being many of that sect in and about Battle Creek, and "circles" and "seances" were the principal occupation of the gifted doctor and his pupils; for it appears that the Haviland house was a sort of spiritual academy for the training up of female mediums through the superior knowledge and gifts of the doctor. A Miss Merritt, of Iona, a medium, was of the household, and a Miss Thomas, of Battle Creek, a young lady of seventeen years of age, was a boarder in the family. She was developing her gifts, with the help of the other mediums, as a "test medium," that is, the veracity of spirits in general, and loquacious ones in particular, was tested through her superior gifts. It was said that she "developed" more rapidly than any test medium ever known in these parts, being quick-witted and shrewd. This academy went on with swimming success through the summer and fall, and furnished incontrovertible spiritual evidence for the conversion of the unbelieving.

About four weeks ago the doctor borrowed $600 of Miss Merritt and bought a lot in the outskirts of the town, upon which he built his castle in the shape of a board shanty. Into this shanty the doctor moved the three women above mentioned, and the five children and they all lived together, continuing to "develop" the young lady as a test medium.

The party were getting ready to travel and astonish the world by a public display of their intimacy with the spirits. Mrs. Haviland had procured a place for her two children named Leonard, and had told the other three that she would take care of them. On Saturday afternoon last some children living in the neighborhood were playing near the shanty, when the two Leonard children made their appearance. On being asked where their elder brothers and sisters were, they said they were dead. The children ran home and told their parents, some of whom immediately visited the shanty and found the report to be true. The woman Leonard, *alias* Haviland, said that the youngest, a girl aged four years, died on Thursday about noon; the second, a boy aged six years, died on Friday morning at ten o'clock; and the third, a boy eight years old, died on Friday afternoon at 5 o'clock.

Miss Merritt says she asked the doctor what they should do with the children if they should die, and he said he would make a box and bury them in his lot. They claimed that the children died with scrofula. It was generally believed, however, that these mediums, wishing to travel and not be encumbered with the children, determined quietly to remove them to a better sphere. Considering that they could be with them and enjoy their society quite as much in the spiritual world, without the inconvenience of taking care of them and providing them with bread and butter and clothes, the plan, no doubt, seemed a very sensible one.

A post mortem examination of the bodies of the children was made by Drs. Cox, French and Saunders, the result of which was, that the children were healthy, and had the appearance of having been poisoned.

A vessel which lately arrived at New York from China, reports having picked up, about six weeks ago, midway between Africa and South America, an empty half-barrel, painted with the name "Vision," and supposed to have belonged to the little shell which sailed for Europe eighteen months ago, with two men and a dog, and has never since been heard from.

A Mr. Morrison, and his wife, of Madison county, Ill., were drowned on the 22d, while attempting, with a team, to cross the river at St. Louis on the ice.

At Fort Kearney, on the morning of the 22d, the thermometer indicated a temperature of 28 degrees below zero. In the hollows between the fort and the Missouri river, snow has drifted to the depth of 15 to 20 feet.

Why are seeds and gate-posts put in the ground? To *prop-a-gate*.

LOWEST MARKET PRICE.

A Few Reasons

WHY WILCOX & GIBBS' SEWING MACHINES

Are Superior to All Others.

First—The superiority of their construction.

Second—Their noiseless motion; hardly perceptible in a large room.

Third—Their utility; performing all kinds of sewing in the neatest and strongest manner.

Fourth—The Needles cannot be set wrong, hence do not break, as do others.

Fifth—They do not get out of repair, or require frequent expenditures for "new improvements."

Sixth—Their economy; costing not more than one-half the price of inferior Machines.

Seventh—Their popularity, which is the best indication of their worth; they are now disposed of readily in every city in Europe, superseding every Sewing Machine hitherto in use.

Eighth—They perform their work with regularity and strength, without a false stitch or break, so frequent with others, and can be managed and made to work by a child.

It needs but a trial of these beautiful and simple Sewing Machines, to convince the most skeptical of their superiority over all others manufactured.

GREY JACKET STOMACH BITTERS,

A Purely Southern Manufacture,

From the recipe of a well known and justly celebrated

GREY JACKET CHIEF.

The peculiar properties of these Bitters are that, whilst possessing all the good qualities of Bitters in general, they INVIGORATE WITHOUT INTOXICATING; are one of the best Tonics ever known, and having been the means of relieving and in many instances saving the lives of thousands on the battle field, can be relied on in all dyspeptic and flatulent disorders.

Every ingredient contained in the article, and everything used in the putting up of these Bitters ARE PRODUCED ON SOUTHERN SOIL, and contain no injurious property.

For sale to dealers and merchants only, at

Manufacturers and Sole Proprietors.

And at retail everywhere.

CARD.

The Proprietors, in presenting to the public the above incomparable Bitters, assure them that but for a sense of gratitude to the generous donor of the recipe, and in response to the importunities of the hosts of Southern friends who have experienced their efficacy, they would have hesitated before placing an article of such sterling merit on a market flooded with deleterious compounds, libelling the name of Stomach Bitters. Our Senior, however, having, at the solicitation of those friends, expended on the manufacture of the GREY JACKET BITTERS the experience acquired in half a lifetime devoted to the preparation of Tonic Digestive Stimulants, and discovered their immense superiority over all other Stomach Bitters, we have unhesitatingly added these to the list of articles already prepared at our establishment, and so well-known and largely patronized by the community at large.

BARNETT & LION take this seasonable opportunity of thanking their numerous friends for the immense increase in their business during the year, and inform them that, although the manufacture of the GREY JACKET BITTERS must necessarily cause an additional tax on their energies, yet, from large additions to the improvements made and making in the manufacturing department of the establishment, their orders will be filled as promptly and they hope as satisfactorily as usual.
