ATTACKS POPE AND ASSOCIATES AS PRO-GERMAN

(Associated Press by U. S. Naval Wireless.)

ROME, Dec. 22.—The house of deputies was thrown into confusion last night when a bitter attack was made upon Pope Benedict and those around him at the Vatican by Deputy Pirolini, who declared that the Vatican was nothing but a "nest of spies," which should be constantly watched. He placed a large share of the blame for the internal dissensions in Italy which resulted in the Trieste collapse and the defeat of Cadorna upon the members of the pope's household.

The speaker singled out Colonel Jules Repond, commander of the Vatican Swiss Guard, for especial attack. He declared that Colonel Repond was actively working as an agent of Vienna and should be placed under surveillance.

This speech followed one by former Premier Giolitti, who defended himself against the charge that he was a pacifist at heart and had not adequately supported the armies in the field.

"I have never believed, nor will I ever believe, in the possibility of a peace not approved of by our allies," he said.

GERMAN PLOTTERS ARE CONVICTED AT DETROIT

DETROIT, Mich., Dec. 22.—Albert Kaltschmidt, Carl Schmidt and Maria his wife, Mrs. Ida Neef, a sister of Kalschmidt and Fritz Neef her husband, were convicted in the federal court yesterday of having plotted to destroy tunnels, railroad equipment, munitions and other property of the United States and in Canada, the latter in violation of the neutrality of the United States.

Franz Respa was acquitted.

Albert C. Kaltschmidt was one of the first of many alleged German sympathizers taken into custody on orders sent out by the department of justice at Washington immediately after the declaration of a state of war between the United States and Germany. He was arrested at Marine City, near Port Huron, April 6, 1917, and had been confined in the county jail here since that time, having failed to obtain the bail demanded of him.

BOLSHEVIKI PUBLISH ALLEGED SECRET TREATY

PETROGRAD, Dec. 22.—Under the heading of "Secret Treaty Between Russia and Japan," Bolsheviki papers publish what they claim was a joint demonstration against America and Great Britain in the Far East.

The Izvestia publishes the alleged text of this treaty in full, calls it a secret treaty and says that it was drawn up in 1916.

As published the purported treaty provided for joint action on the part of Russia and Japan to prevent any third country achieving political dominance in China. It stipulates "That this agreement shall remain a deep secret except for the contracting parties."

Other articles published provide for military cooperation against a third party.

It is claimed that it was signed for Russia by Sergius Sazanoff and for Japan by Viscount Motono.

ARMY AFFAIRS IN FOR A LONG INVESTIGATION

WASHINGTON, D. C., Dec. 22.—Investigation of the quartermaster's department by the senate committee on military affairs by no means is completed although the committee has turned its attention in other directions for the time being, members of the committee said yesterday. Quartermaster General Sharpe was excused after testifying yesterday until after Christmas.

Colonel Lewis, the machine gun inventor, was before the committee for most of its session yesterday. It was after his testimony had been given the statement was made that the committee had only just begun its investigation of the quartermaster's department. At this Senator Kenyon protested against the airing of the country's troubles to the world.

U. S. TO SEND FOOD TO STARVING FINNS

WASHINGTON, Dec. 22.—Some relief for the starving in Finland will be granted by the United States. Upon having received definite proof that thousands of Finlanders are actually starving the food administration has determined to issue the necessary licenses for the exportations which will at least relieve the most immediate necessities.

Forty thousand tons of corn and oats will be allowed to go to Finland under the permits which it is agreed shall be issued.

BIG COUNTERFEIT COUP BLOCKED BY UNCLE SAM

NEW YORK, Dec. 22.—A bold counterfeiting plot to float a million dollars in spurious $10 bills has been frustrated by the treasury department secret service men, who yesterday arrested six men and seized the plates and stock with which they were all prepared to print their counterfeit money.

QUEBEC SECEDE, SUGGESTION OF RADICAL MEMBER

(Associated Press by U. S. Naval Wireless.)

QUEBEC, Canada, Dec. 22.—J. N. Francoeur, member of the legislative assembly at Quebec, has presented a motion before the legislature in which the proposal is advanced that Quebec should secede from the Canadian confederation and an independent government be set up. The motion has been laid on the table to be taken up for debate after the Christmas recess, the date of the debate being set for January 8.

The question of secession has been before the voters of Quebec more or less during the past two years, attaining some prominence as an issue in the last general election, being held out as a threat to the rest of the Dominion in the event that Quebec should be overridden in the matter of conscription.

PERSHING ORDERS ONLY LIGHT BEVERAGES USED

AMERICAN HEADQUARTERS IN FRANCE, Dec. 22.—Under a general order promulgated by General Pershing yesterday "hard liquor" will not be permitted for use by the officers and soldiers of the American contingent. His order prohibits absolutely the use of alcoholic beverages except only light wines and beer by any members of the American expeditionary force.

Hopes of a big Christmas dinner for the whole of the American contingent are going a-glimmering. The great bulk will have only ordinary fare and will not get the Christmas dinners, the turkey and "fixin's" which they had expected.

It is learned that owing to an attack by submarines the ship that was loaded with cranberries had to turn back and that two of the steamers that are loaded with turkeys will not arrive.

ROLPH LAYS INCREASED SUGAR CONSUMPTION IN PART TO BOOZE DECREASE

WASHINGTON, D. C., Dec. 22.—Chairman Rolph of the national sugar commission yesterday offered an interesting explanation of the sugar shortage when he assigned prohibition as one of the real reasons for a greater demand and consumption. Especially was this so, he said, in the army training camps of the south. In lieu of the alcoholic drinks to which many of the soldiers had been accustomed and which they now find it impossible to obtain, they now use "soft drinks," candy and chewing gum, all of which require quantities of sugar in their manufacture.

DENMAN-GOETHALS ROW COSTS COUNTRY VESSELS

WASHINGTON, D. C., Dec. 22.—Besides delaying construction work the Denman-Goethals dispute cost the government the loss of more than a dozen ships which it might have secured.

Chairman Hurley of the shipping board was the witness before the committee yesterday afternoon. His testimony as to the Denman-Goethals dispute and its serious results came toward the close of the session. He said that by reason of the dispute and the subsequent delays more than a dozen ships which might have been commandeered had prompt action been taken had gone to foreign owners and had gotten away from possible control before action was taken.

ARGENTINE STIRRED BY DISCLOSURES OF VON LUXBURG PLOTS

BUENOS AYRES, Dec. 22.—The revelations of the extent of the intrigues carried on by Count von Luxburg, the former German minister here, as related in the disclosures made yesterday by Secretary Lansing at Washington, have stirred the people tremendously and there were numerous street demonstrations yesterday demanding an immediate rupture with Germany. So serious were these demonstrations at times and so threatening were the crowds against German residents and members of the government suspected of pro-German sentiments that mounted patrols had to be called out to break up the assemblies.

ENGLAND TO USE HUN PRISONERS AS LABOR

LONDON, Dec. 22.—Premier Lloyd George, addressing a gathering of farmers yesterday, announced that the government had plans well under way for the employment of German agricultural laborers, now held as prisoners, in the tilling of the soil in England and Scotland. There are now thirty thousand prisoners who may be utilized in helping increase the farm crops of Great Britain, he said.

CANAL ZONE GOVERNOR WILL GIVE TESTIMONY

AN ATLANTIC PORT, Dec. 22.—Lieut.-Col. Chester Harding, governer of the Canal Zone, arrived here yesterday en route to Washington, where he will appear as a witness before the congressional appropriation committees.

AUSTRALIAN CONSCRIPTION DEPENDS ON SOLDIER VOTE

MELBOURNE, Dec. 22.—It is certain now, unless there is a heavy soldier vote to offset it, that conscription has been lost in Australia by a majority totaling a hundred and fifty thousand.
