All the articles named in a class must be included in the offer.

All the foregoing articles must be of the best quality, and comfortable in all respects to the samples deposited at said navy yards, and subject to such inspection at the navy yard where delivered as the Chief of the Bureau may direct; the inspecting officer to be appointed by the Navy Department.

Packages in which the above articles are delivered must be marked with their contents, and the name of the contractor, and be sufficient to insure their temporary safe-keeping.

The contractor must establish agencies at such stations other than his residence, that no delay may arise in furnishing what may be required; and when the contractor or agent fails, promptly to comply with a requisition, the Chief of the Bureau of Provisions and Clothing shall be authorized to direct purchases to be made to supply the deficiency, under the penalty to be expressed in the contract; the record of a requisition, or a duplicate copy thereof, at the Bureau of Provisions and Clothing, or at either of the navy yards aforesaid, shall be evidence that such requisition has been made and received.

Two or more approved sureties, in a sum equal to the estimated amount of the contract, will be required, and twenty per centum in addition will be withheld from the amount of all payments on account thereof as collateral security, to secure its performance, and not in any event to be paid until it is in all respects complied with; eighty per centum of the amount of all deliveries made will be paid by the navy agent, in Certificates of Indebtedness or Treasury notes, at the option of the Government.

Blank forms of proposals may be obtained on application to the navy agents at Portsmouth, New Hampshire, Boston, New York, Philadelphia, Baltimore, and at this Bureau.

A record, or duplicate of the latter informing a bidder of the acceptance of his proposal, will be deemed a sufficient compliance with the meaning of the act of 1846, and his bid will be made and accepted in conformity with this understanding.

Every offer made must be accompanied (as directed in the act of Congress making appropriations for the naval service for the year 1846-'47, approved 10th of August, 1846,) by a written guarantee, signed by one or more responsible persons, to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within ten days, with good and sufficient sureties, to furnish the supplies proposed. The Bureau will not be obliged to consider any proposal unless accompanied by the guarantee required by law; the competency of the guarantee to be certified by the navy agent, district attorney, or the collector of the port.

The attention of bidders is called to the samples and description of articles required, as, in the inspection before reception, a just but rigid comparison will be made between the articles offered and the samples and contract, receiving none but those fair and their attention is also particularly directed to the joint resolution of 2d March, 1861, and to the act of 10th August, 1846.

THE NAVY DEPARTMENT will, until the 26th day of July, receive sealed proposals for the construction of steam machinery for paddle wheel steamers.

Each steamer will have one inclined engine of not less than 100 cubic feet displacement of piston per stroke; the length of the stroke to be about 8 feet 9 inches. The frame to be of yellow pine, strongly braced, bolted, and braced.

There will be a Sewell's surface condenser, in which the condensing surface will be composed of drawn brass tubes five eighths inch outside diameter; tube plates and followers of brass; total area of condensing surface, 2,500 square feet; capacity of air pump (considered as single acting) 25 cubic feet; capacity of circulating pump (considered as single acting) 55 cubic feet; inlet and outlet pipes to pumps to have a net area of not less than two thirds of the pumps' pistons; reversing and delivery valves of pumps to have a net area of opening of not less than one and a half times the area of the pumps' pistons; valve seats of brass; valves of gum.

The cylinder is to have brass balance poppet valves of 17 and 18 inches diameter; valve seats of brass. Steam valve to be arranged with Stevens' cut-off. The whole valve gear to be finished and arranged for working hooked on back as well as ahead.

The crosshead to be of wrought iron and finished. The cranks to be of wrought iron, turned and planed. The shaft to be of wrought iron, turned. The out board journal to be 8 feet in length.

All cylinder covers, valve chest and pump bonnets, with their bolts and nuts, and links and connecting rods to be finished.

A plunger feed pump and bilge pump, of brass, to be provided of 24 cubic feet capacity; valves of gum, and to have a net opening of twice the capacity of the pump.

The pumps are to be worked by wrought iron arms, turned and planed, and secured upon a turned wrought-iron shaft, which is to be worked from the main crosshead by finished links, and wrought-iron levers turned and planed.

The paddle-wheel is to be overhung, to be of wrought iron, and 26 feet 8 inches in extreme diameter. Paddles to be twenty-four in number, 8 feet 9 inches long, and 15 inches wide.

There are to be two Martin's tubular boilers placed opposite each other, with the fire-room between. Length of boiler 18 feet, width 10 feet six inches, height about 9 feet 8 inches; to contain five furnaces each; the furnaces to be three feet wide; length of grates 6 feet 6 inches; total grate surface 195 square feet; total heating surface not less than 5,000 square feet. Shells, with the exception of the bottoms, to be of 5-16 inch plate; bottoms, furnaces, and air plate three-eighths inch plate; to be double riveted and braced for a hydrostatic test pressure of sixty pounds per square inch.

Each boiler is to have a No. 42 Dimpfel blower blowing into the back of the ash pits.

All the detail finish, quality of materials, and workmanship, to be first class, proportioned for a working boiler pressure of 40 pounds per square inch, and be adaptable to the specifications previously printed by the Department for paddle wheel steam machinery. There will also be furnished the tools, duplicate pieces, instruments, &c., required by those specifications.

The proposals will state the name of the bidders in full, and of their partners; the gross sum, covering all costs and claims against the Government whatever, on account of the machinery for which they propose to furnish it in the vessel, complete and ready for steaming, discriminating between the two cases of erecting it in the same port and of transporting and erecting it in another port, and the time from date of contract in which they will guaranty to complete it in the vessel ready for steaming, provided the vessel is ready to receive it twenty one days earlier if the vessel is at the same port, and one month earlier if at another port; if not ready, twenty one days or one month, according to the case, will be allowed for completion from date of readiness.

The contract will embrace the usual conditions, and payments will be made in the usual manner as the work progresses.

The proposals are to be endorsed "Proposals for Paddle-wheel Steam Machinery," to distinguish them from other business letters, and will be addressed to the Secretary of the Navy."

Proposals will be received for similar vessels of iron or iron and wood combined. jy 17—2aw
