THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,

Liver Complaint,

WEAKNESS OF ANY KIND,

FEVER AND AGE,

And the various affections consequent upon a disordered STOMACH OR LIVER, such as Indigestion Acidity of the Stomach, Colicky Pains, Heartburn Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fellow-countrymen scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION.

The great popularity of this delightful Aroma has induced many institutions, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

Horace Waters' modern improved Pianos, with or without iron frames, have, in their new scale and improved scoring, a power and compass of tone equalling the grand, with the beauty and durability of the square piano. The Press and first Music Masters have justly pronounced them equal if not superior to any other make. They are guaranteed to stand the action of every climate.

Horace Waters' Melodeons (tuned the equal temperament), superior in each desirable quality—with extra finished cases, and beautifully flute-like tone—are also furnish Melodeons of all other makers—two banks of keys, $250; Organ pedal bass melodeons, $275 and $300. "The Horace Waters' Pianos are known as among the very best. We are enabled to speak of these instruments with some degree of confidence, from personal knowledge of their excellent tone and durable quality."—*New York Evangelist.*

"Having inspected a large number of the Horace Waters' Pianos, we can speak of their merits, from personal knowledge, as being of the very best quality."—*Christian Intelligencer.*

"Nothing at the State Fair displayed greater excellence in any department than the Piano-Forte manufactured by Mr Waters, of this city."—*Churchman.*

"The finest among the many pianos at the Crystal Palace are those placed there by Horace Waters, whose instruments are always popular."—*Christian Inquirer.*

"The Horace Waters' Pianos are built of the best and most thoroughly seasoned material. From all we can learn of this establishment—said to be the largest in the United States—we have no doubt that buyers can do as well, perhaps better, at this than at any other house in the Union."—*Christian Advocate, Memphis, Tenn.*

"Mr. Waters has been long established and is favorably known. We speak from experience when we assure our readers that his prices are below those usually charged for articles in his line."—*Jacksonian, New Jersey.*

"The treble is clear, pure, powerful, and very melodious, the base is deep, rolling, and sonorous; the middle part is rich, and sympathetic, and possessing the power of singing, i. e. of uniting the sound of each tone, in a degree but rarely achieved."—HENRY C. WATSON.

"For power of tone, depth of bass, and brilliancy of treble, together with accuracy of touch, they are equal to any make I am acquainted with, and I cordially recommend them to those wishing to purchase.—V. C. TAYLOR.

"Our friends will find at Mr. Waters' store the very best assortment of music and of pianos to be found in the United States, and we urge our southern and western friends to give him a call whenever they go to New York."—*Graham's Magazine.*

We consider them worthy of special attention, from the resonant and exceedingly musical tone which Mr. Waters has succeeded in attaining."—*N. Y. Musical World and Times.*

"Waters' pianos and melodeons challenge comparison with the finest made anywhere in the country."—*Home Journal.*

"The Horace Waters Pianos are pronounced by musical amateurs as a decidedly superior article in *all* the requisites of this instrument, and it is fast superseding those of other manufacturers."—*N. Y. Express.*

The New York Evening Post says: "The Horace Waters Pianos are *excellent* as well as *cheap;* but he has those of other makers, as well as second-hand ones, capitally adapted to limited means."

The Sunny South, reaches us with the following: "This gentleman is one of the most extensive music-dealers in the Union. His pianos and melodeons have obtained great celebrity for their *excellent tone and durable quality.*"

Says the Valley City Advocate; "We have taken a look at a piano which has just arrived from the celebrated establishment of Horace Waters, and must say that for tone and beauty of finish, it surpasses any we *ever saw for the price.*"

Horace Waters' Piano-Fortes are of fall, rich, and even tone, and powerful.—*N. Y. Musical Review.*

IMPORTANT INFORMATION!

DR. WHITE, having removed his office from No. 39, Vine Street, to No. 7, Pine Street, St. Louis, Mo., continues to confine his practice to the treatment of *delicate* nature. By a long course of study and practical experience of unlimited extent, Dr. W., has the gratification of presenting the unfortunate with remedies that have never failed to cure the most alarming cases of

Gonorrhea and Syphilis!

Beneath his treatment all the horrors of Venereal and Impure Blood, Scrofula, Gonorrhea, Ulcerations and distress in the regions of Procreation, Inflamation of the Bladder and Kidneys, Abscesses, Humors, Frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailments of a child.

Seminal Weakness.

Dr. W., devotes a great part of his time to the treatment of these cases caused by a secret and solitary habit which ruins the body and mind, unfitting the unfortunate individual for either business or society.

Some of the sad and melancholy results produced by these early habits of youth, are Weakness of the Back and Limbs, Dizziness of the Head, Dullness of Sight, Palpitation of the Heart, Dyspepsia, Nervous ness, Derangement of the Digestive Functions, Symptoms of Consumption, &c., &c.

The Fearful Effects on the Mind are much to be dreaded, viz: Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Timidity, &c., &c., are among the evils produced. Such persons, before contemplating marriage, should consult a physician of skill and experience and be at once restored to health and happiness.

Fever and Ague Cured—Warranted

All letters containing a fee, addressed to C. D. White, M. D., St. Louis, Mo., will meet with prompt attention and medicine forwarded secure from observation. The strictest secrecy observed in all cases.

☞ Don't forget the place, No. 7, Pine street, St. Louis, Mo.

Terre-Haute Female College,

TERRE-HAUTE, INDIANA.

THE Second Session of this Institution will commence on TUESDAY, the first of February, and continue Twenty Weeks.

Eighteen Professors and Teachers of superior qualifications, and selected with great care, constitute the Board of Education. Profs. Alphonso Wood and R. S. Howorth, and all the leading Teachers have been so long, and so favorably known to the public, as to render unnecessary any remarks respecting their qualifications.

The location of the College, for *health and beauty,* cannot be surpassed—and the Buildings erected and furnished at an expense of about $70,000, offer home comforts, rarely to be found in institutions of learning. *They are warmed by steam and lighted by gas.*

The apparatus for experimental illustrations, includes a good *Telescope, Microscope,* and every requisite to illustrate fully all the principles of the sciences pursued.

Weekly Lectures are delivered before the School.

The Music Department, under the care of Prof. Anthon and Miss Newby, both of whom excel in their respective departments, is in a highly flourishing condition.

The course of studies is *extensive and thorough,*—the Classics constituting a prominent feature. All the classes in the College course are *responsible for numbers and attainments,* the Senior Class studying *Tacitus.*

The expenses per annum, including rooms furnished, board, tuition in all the branches of the regular course, fuel, lights and washing $225.

☞ And further information respecting the School may be had, by addressing Rev. John Covert, or Rev. Ephraim Wood, Terre-Haute, Ind.

Jan. 13, 1859-dw1y JOHN COVERT.

THE EYE.

OF all the organs which benificent nature has endowed man with, the eye is the most important, most complex, and most delicate of organization. From its exposed situation it is constantly liable to disease which assumes varied forms, and which when neglected, or maltreated, too frequently terminates in blindness. It becomes therefore—absolute necessary, that the practitioner shall be thoroughly conversant, not only with the eye ball and its appendages, but that he shall have a most accurate and perfect knowledge of all diseases to which that organ is liable.

In presenting this card for public consideration, I would observe, that after an experience of over ten years in the principal ophthalmic hospitals of Europe, together with the advantage of a large private practice I am prepared to treat all diseases of the Eye with that certainty of success which can only be accomplished by years of experience.

DR. CHANNING may be consulted at his office in the Southern Bank Building, (entrance on Fourth street) in all cases of disease requiring the Medical Application of Electricity.

As the use of Electricity, as a medical agent, is comparatively recent, he will mention the following diseases, among others, which he is especially prepared to treat: Paralysis, Nervous Deafness, Neuralgia, Nervous Headache, Asthma and nervous and spasmodic diseases generally; Disease of the Liver, some forms of Dyspepsia, and, in general, all diseases resulting from inactivity or obstruction of organs;—Chronic Sore Throat, Bronchitis, Rheumatism, and chronic inflamations and suppurations generally.
