Trading Moderately Indulged in at San Francisco.

Wheat Options Weaker and Lower—Onions Scarce and Higher—Poultry Weak and Quiet.

[Special Correspondence RECORD-UNION.]

SAN FRANCISCO, Nov. 14, 1892.

Trading was moderately indulged in to-day in the local markets. Wheat options were weaker and lower, while the best that can be said of the spot market is that it was steady, with weakening tendencies. The Eastern markets were lower on Wheat, and foreign dull and lifeless. This morning 2,800 tons of Wheat changed hands on the Produce Exchonge. Of the amount 1,300 tons were Buyer December at from $1 33¾ to $1 34; 1,300 tons May at from $1 37½ to $1 37¾, 200 Buyer May at $1 38.

Barley transactions were light, not exceeding 400 tons—100 December at from 89¼ to 89¾ cents, 100 tons of May at 94¼ cents and 100 tons January at 90¾ cents. Arrivals were lighter and holders are firm.

Butter was even weaker than last report. Cheese and Eggs unchanged.

Poultry continues weak and quiet. Game cleaned up fairly well.

Onions are higher and scarce. Potatoes are in fair demand at quotations.

Bananas are cleaned out of the markets, but several steamers are expected in a few days.

Grapes are extremely weak and rarely is the top quotation obtained. Otherwise the Fruit market is quiet and unchanged.

Other products are quiet at the same prices.

SACRAMENTO MARKET.

Beans, Tomatoes and Cucumbers Slightly Advanced.

SACRAMENTO, November 14th.

There was little change in the local markets from Saturday's quotations. Green Fruits are still scarce, with a tendency to higher prices. Citrus Fruits have also advanced, the market being pretty well cleared. Vegetables remain the same with the exception of Beans, Tomatoes and Cucumbers, each of which bringing a slight advance in rates. Wild Game in most lines is very scarce, there being few or no Ducks coming to market. Quail, Geese and Rabbits are very plentiful. Other lines remain the same as usual.

Better Than a Bandana.

Querious—Why were you staring so hard at that Florida girl?

Witticus—She gave me an idea. Did you notice the live bug she had chained on her waist?

Querious—Yes, but what about it?

Witticus—I was thinking of a scheme for a bald-headed man of having a spider chained to his ears in the same way to keep away the flies.—New York Herald.

SO HAPPY

3 Bottles of SWIFT'S SPECIFIC relieved me of a severe Blood trouble. It has also caused my hair to grow out again, as it had been falling out by the hand full. After trying many physicians in vain, I am so happy to find a cure in S.S.S.—O. H. ELBERT, Galveston, Tex.

CURES by forcing out germs of disease and the poison as well. It is entirely vegetable and harmless. Treatise on Blood and Skin mailed free.

WHEN A WOMAN BUYS A HAT.

The Task Occupies a Long Time and She Is Seldom Satisfied.

She was a young married woman, accredited with more than ordinary common sense. As an illustration of this she had waited until after the openings were over before buying her winter hat. No time had been lost, however, for she had studied the hat question in all its phases, and, according to the New York *World*, knew exactly what she wanted. It was to be a round hat and must not cost a penny over $8. For an hour or so she went from one shop to another "just looking." Then came the "trying on." After pointing out three or four hats which particularly pleased her she seated herself before the long mirror with a hand-glass in one hand and one of the hats in the other. This hat, in her hand, was a beauty; but on her head it was the most unbecoming thing she had ever seen. The next hat was too large and was trimmed too conspicuously; the third too small and prim; the fourth cost too much. The saleswoman's smiles were less frequent and the saleswoman herself less talkative. The buyer found herself growing irritable, but she congratulated herself that she was not making such a fuss as that woman in front of the next mirror. Then she wondered why that fat lady with a moon face insisted upon choosing the most ridiculously small bonnet, while the woman with a long and sharp face spent her time gazing at herself from underneath a broad brim with a towering mass of feathers.

Suddenly she saw a jaunty turban. The coloring was stylish, and when she tried it on it was just what she needed. She was sure it was becoming because the saleswoman agreed with her that it was. Then it gave her a very comfortable feeling to know it only cost $7 50. And so even if she had spent six hours in getting it, together with incidental expenses amounting to ninety-five cents, she was satisfied, it seemed such a sensible investment.

After dinner that evening the hat came. One glance in her own mirror and oh! what a difference. It was the worst little hat; she couldn't see why she had bought it. She looked disfigured in it, and if she had to wear that hat all winter she would not go out at all. She put the hat in its band-box, the box high up on the closet shelf and she cried.

Worth Money Now.

Titian—Confound the luck! Fido covered himself with mud on the street and then rubbed himself dry on my "Landscape in Breton."

Hogarth—Capital! Capital! Now you can sell it as an impressionist picture.—Chicago News-Record.

Up to Recommendation.

Briggs—How do you like my new coat? I got it at the misfit parlor.

Griggs—First rate. It is one of the best misfits I ever saw.—Clothier and Furnisher.

Rosy cheeks are not made from the cutside. Pure blood, an active liver, good appetite and digestion—these are the things that give them. And these are the things that you get with Dr. Pierce's Golden Medical Discovery.

First and foremost and above all things, it purifies the blood. Not only in March, April, and May, when the sarsaparillas claim to do good, but all the year round, it cleanses, renews and invigorates the system, rouses every organ into healthful action, and drives out blood-poisons of every name and nature. For the worst forms of Scrofula, the most stubborn Skin and Scalp Diseases, such as Salt-rheum, Eczema, Tetter, Erysipelas, and *all* diseases or disorders caused by a torpid liver or impure blood, nothing can equal it as a remedy.

If any thing could, it would be *guaranteed*, just as the "Discovery" is. If *that* fails to benefit or cure, you have your money back. Is any thing that isn't sold in this way likely to be "just as good?"

See that you get the genuine medicine.

The Lack of Snow

On one of the highest peaks of the White Mountains was satisfactorily explained last spring by a farmer who pointed to the roof of his barn, on which was displayed in large letters, "Wistar's Balsam of Wild Cherry always drives away a cold." It has the same effect on the human system and cures Coughs, Influenza, Bronchitis and all affections of the Throat, Lungs and Chest.

A RARE OPPORTUNITY

Good Agricultural Land for $10 to $20 per Acre.

The Pacific Improvement Company has recently purchased twelve thousand acres of land in the heart of Tehama County, for the purpose of promoting subdivision and settlement. This land embraces lands from first-class Sacramento Valley agricultural land, to land of fair average quality, and is offered at from $10 to $20 per acre, in subdivisions of 40, 80, 120, 160 and 320 acres.

The terms upon which these lands are offered are especially attractive. They will be sold in subdivisions, as above indicated, by the payment of interest only for three years, at which time the purchaser can begin the payment of principal by paying the first of five equal annual installments. Thus no part of the principal is to be paid for three years, and then the purchaser is to have five years in which to pay five equal annual installments, with interest at the rate of 7 per cent. per annum, making payments extending over a period of eight years. Intending purchasers are assured that this is an opportunity to purchase land of fair average quality at $10 per acre, and good agricultural land at $20 an acre, with other grades of land at prices to correspond between these figures.

The assertion is frequently made that good lands, suitable for general farming, and especially adapted for fruit growing, cannot be had in California for less than from $60 to $100 an acre. An examination of the land subject of this advertisement will prove to home-seekers that this is an opportunity for the purchase of good agricultural land at $20 an acre, and for qualities grading down to fair agricultural land at $10 an acre, on terms of payment which should make the disposition of these lands to actual settlers a result easy of accomplishment.

The primary object of the purchase of this body of land was the breaking up of a large holding for the purpose of promoting its settlement in smaller quantities and its devotion to diligent husbandry.

For further particulars, call upon or address WM. H. MILLS, Land Agent of the C. P. R. R., Fourth and Townsend streets, San Francisco, Cal.

PROPOSALS

For the Purchase of Bonds of Tule River Irrigation District.

SEALED PROPOSALS FOR THE PURchase of bonds of Tule River Irrigation District to the amount of ninety ($90,000) thousand dollars will be received by the Board of Directors of said district at their office, in Woodville, in the County of Tulare, State of California, till 10 o'clock A. M. of the SIXTH DAY OF DECEMBER, 1892, at which time and place said board will open the proposals and award the purchase to the highest responsible bidder. Said bonds comprise the entire issue of a series of bonds issued by authority of and pursuant to the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide for the organization and government of irrigation districts, and to provide for the acquisition of water and other property; and for the distribution of water thereby for irrigation purposes," approved March 7, 1887. One hundred and thirty-nine (139) of said bonds are of the denomination of five hundred ($500) dollars each, and two hundred and five (205) of the denomination of one hundred ($100) dollars each. They will be dated October 1, 1892, and bear interest at the rate of six (6) per cent. per annum payable on the 1st day of January and July of each year. Said bonds will be payable in gold coin of the United States in ten (10) series as follows, to wit: At the expiration of eleven (11) years five per cent. of the whole number of said bonds; at the expiration of twelve (12) years six per cent.; at the expiration of thirteen (13) years seven per cent.; at the expiration of fourteen (14) years eight per cent.; at the expiration of fifteen (15) years nine per cent.; at the expiration of sixteen (16) years ten per cent.; at the expiration of seventeen (17) years eleven per cent.; at the expiration of eighteen (18) years thirteen per cent.; at the expiration of nineteen (19) years fifteen per cent., and at the expiration of twenty (20) years sixteen per cent. Coupons for the several payments of interest will be attached to each bond.

None of said bonds will be sold for less than ninety (90) per cent. of the face value thereof. Said board reserves the right to reject any or all bids. All bids should be marked "Proposals for the purchase of bonds," and addressed to Tule River Irrigation District, Woodville, Tulare County, Cal.

By order of the Board of Directors of Tule River Irrigation District.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
