PRESERVE YOUR SIGHT!
SEMMONS & CO.'S CELEBRATED
PANTOSCOPIC BRAZILLIAN PEBBLE SPECTACLES.
A. GEDEON, (late of Semmons & Co., Cornwall, England,) respectfully announces his arrival, with a splendid assortment of these newly improved spectacles, and may be consulted at his office, in CARROLL HALL, corner of Baltimore and Calvert streets, up stairs, ROOM No. 2.
This is the only true Lens that has hitherto been constructed, and is founded on the most scientific principles, in accordance with the philosophy of nature, in the peculiar form of a concave-convex mirror, and most admirably adapted to the Organ of sight, perfectly natural to the Eye —affording, altogether, the best artificial help to the human vision.
The great novelty in them is the focus, which is disposed of in such a manner as to counteract the infirmity which it is intended to remedy. The material of which they are manufactured gives them a superior hardness and polish, preventing them from being defaced by scratches. Their coolness recommends them especially to those having weak and irritable eyes. The superiority and usefulness of these improved spectacles is fully demonstrated by the unanimous approval of the most celebrated Physicians and Oculists of Europe and America.
The experience Prof. Gedeon has acquired, combined with his perfect knowledge of the Optical Science, enables him to decide with certainty, on the mere inspection of the eye, what sort of glasses are best suited to correct the defect or vision, either to give it greater strength, or merely preserve it, as may be necessary, without causing any apparent change, any fatigue or weakness.
Office Hours—From 8 A. M. till 5 P. M.
N. B. Persons in the country can be supplied by forwarding in a letter one of their old glasses.
TESTIMONIALS.
I have examined the Brazillian Pebble Spectacles manufactured by Messrs. Semmons & Co., and while theoretically satisfied, from a knowledge of the material and their construction, of their superiority over those in more general use heretofore, I have also tested them with those who have used other glasses, and would hence cheerfully recommend them to all whose sight requires artificial aid. W. MILTENBERGER, M.D.
Baltimore, Sept. 1st, 1858.
I fully concur in the opinion expressed by Dr. Miltenberger and take great pleasure in recommending the Brazilian Pebble glasses to the public.
N. R. SMITH, M. D.
Baltimore, Sept. 1st, 1858.
PHILADELPHIA, May 30th, 1858.
PROF. A. GEDEON:
Dear Sir:—I have great pleasure in adding my testimony to the large amount you have received in favor of the "Brazilian Pebbles."
They possess the most comfortable glasses I have ever used, and I can most cordially recommend them to all requiring artificial aid. I am greatly indebted to you for bringing them to my notice. Very truly, yours,
